Phase I ESA Summary Table

Professional Service Industries, Inc. (PSI), an Intertek company, performed a Phase I ESA of the former railroad tracks located at Railroad Avenue between S. Linden Avenue and S. Spruce Avenue, in South San Francisco, California 95014. PSI performed the assessment to comply with the contract between Newlife Investment LLC (the client) and PSI.

CERTIFICATION

PSI, an Intertek company, has completed a Phase I ESA of the former railroad tracks located between S. Linden Avenue and S. Spruce Avenue in South San Francisco,California ("the subject property"). PSI performed the Phase I ESA in conformance with ASTM E1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (the Practice). The assessment was completed at the request of Newlife Investment LLC ("the client") in accordance with the scope of work outlined in PSI's Proposal Number 0575-420839, which was authorized by the client on March 18, 2024.

The conclusions developed herein represent our professional judgment based on information and data available to us at the time of the assessment, and observations made at the time of our site reconnaissance. In accordance with the Practice, certain items must be updated 180 days after research is initiated.

Environmental Professional Certification

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 312.10 of this part. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

TABLE OF DATES

Component	Date
Date of Earliest Interview	March 18, 2024
Date of ERIS Regulatory Database Report	March 19, 2024
Date of Site Reconnaissance	March 25, 2024
Report Date	April 10, 2024

1.0 EXECUTIVE SUMMARY

1.1 FINDINGS

A summary of findings is provided below. The report should be read in its entirety to obtain a more complete understanding of the information provided and to aid in any decisions made or actions taken based on this information.

1.1.1 SUBJECT PROPERTY DESCRIPTION AND CURRENT USE

The subject property is undeveloped land located on the south side of Railroad Avenue, between S. Linden Avenue and S. Spruce Avenue, in South San Francisco, California. The subject property consists of a narrow property that was a former railroad right of way and totals 2.25 acres.

No evidence of recognized environmental concerns were identified during the site reconnaissance.

1.1.2 ADJOINING PROPERTY DESCRIPTION AND USE

Usage of adjoining properties is summarized in the following table.

Direction	Description of Adjoining Property Use
North	Railroad Avenue followed by single family residences and multi-family residences
East	Multi-tenant industrial buildings
South	Spruce Business Park
West	South City Lumber & Supply

1.1.3 HISTORICAL USE OF SUBJECT PROPERTY AND SURROUNDING AREA

Historical information sources researched during this assessment allowed the uses of the subject property to be traced from the present back to 1925, as railroad tracks. Soil and groundwater investigation was conducted at the subject property due to its use as a railroad spur. The results of the subsurface investigation for the subject property were as follows:

- Soil samples were analyzed for TPH-S, VOCs, PAHs, chlorinated pesticides, PCBs, and metals. The only contaminant of concern was found to be lead.
- Soluble lead concentrations were found to be above the STLC, but below the TCLP waste criteria in five soil samples. The soil represented by these samples would be classified as a State of California Non-RCRA waste upon excavation and classification of soil as a waste material. The soil identified as a Non-RCRA waste appears to be confined to the upper two feet on the far western portion of the subject property. PSI estimated the volume of Non-RCRA soil to be approximately 425 cubic yards.

- Total lead concentrations were found to be above the TTLC and the TCLP waste criteria in one soil sample (B-15-1). The soil represented by this sample would be classified as a Federal RCRA waste upon excavation and classification as a waste material. The soil identified as a Federal RCRA waste appears to be confined to the upper one foot. PSI estimated the volume of Non-RCRA soil to be approximately 160 cubic yards.
- PSI believes further investigation in the area of boring B-15 and borings B-23 through B-25 could reduce the volume of soil that would be considered to be a Federal RCRA or Non-RCRA hazardous waste. This is especially true in the area of B-15, as the one-foot sample with the elevated lead concentrations did not appear to be similar to the rest of the soil found across the subject property.
- The groundwater samples were analyzed for VOCs, metals, and TPH-S. The results of the groundwater analyses did not represent an environmental concern.

It appears that this investigation has defined the lateral and vertical extent of lead impacted soil. Additional sampling may reduce the volume of estimated soil that may need to be removed as hazardous waste. The former use as a railroad spur represents a REC.

The surrounding properties appeared to have been mixed use of industrial and residences since the early 1900s.

1.1.4 GOVERNMENTAL RECORDS REVIEW

PSI subcontracted with a regulatory database report provider, ERIS, and reviewed governmental database records that included spill sites, tanks, hazardous waste handlers, and other facilities of potential concern within proximity to the subject property. No listings for the subject property were identified in the database search.

One or more off-site facility listings were identified in the database search within the appropriate AMSD and were evaluated by PSI during this assessment.

None of the identified sites represent a REC to the subject property.

1.2 CONCLUSIONS

PSI performed a Phase I ESA of the subject property in conformance with the scope and limitations of ASTM Practice E1527-21. Any exceptions to or deletions from this practice are described in Section 2.3 of this report. The following conclusions have been made with regard to evidence of RECs, HRECs, CRECs, VECs, and de minimis conditions in connection with the subject property, as defined in ASTM Practice E1527-21.

1.2.1 SIGNIFICANT DATA GAPS

The ASTM E1527-21 Standard Practice defines a significant data gap as a lack of or inability to obtain information required by the practice that would limit our ability to draw conclusions with regard to RECs in connection with the subject property.

- Based on our experience, the information that we gathered and evaluated did not present significant data gaps that affected our ability to identify RECs in connection with the subject property.

1.2.2 RECOGNIZED ENVIRONMENTAL CONDITIONS

A REC, as defined in the ASTM E1527-21 Standard, means The term recognized environmental condition means (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

CONDITIONS ORIGINATING ON-SITE

- This assessment has revealed evidence of RECs in connection with the subject property, based on the results of the subsurface investigation.

CONDITIONS ORIGINATING OFF-SITE

- This assessment has revealed no evidence of RECs in connection with the subject property.

1.2.3 CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard Practice defines a CREC as a REC that has been addressed to the satisfaction of the applicable regulatory agency with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (i.e., institutional and/or engineering controls to prevent future exposure).

- This assessment has revealed no evidence of CRECs in connection with the subject property.

1.2.4 HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

The ASTM E1527-21 Standard Practice defines a HREC is a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls.

- This assessment has revealed no evidence of HRECs in connection with the subject property.

1.2.5 VAPOR ENCROACHMENT CONDITIONS

The ASTM E1527-21 Standard Practice requires that the environmental professional evaluate the potential for VECs on the subject property. A VEC is defined in ASTM E2600-22 as the presence or likely presence of volatile chemicals in the subsurface that are caused by the release of vapors from contaminated soil or groundwater either on or near the subject property.

- This assessment has revealed no VECs in connection with the subject property.

1.2.6 DE MINIMIS CONDITIONS

A de minimis condition is a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A de minimis condition, by definition, is not a REC.

- PSI did not identify evidence of de minimis conditions on the subject property.

1.3 RECOMMENDATIONS

PSI recommends no further assessment for RECs in connection with the subject property at this time. Redevelopment of the property will require that impacted soil be handled and disposed of properly.

2.0 PHASE I ESA SCOPE AND METHODOLOGY

2.1 PURPOSE OF SERVICES

PSI performed the Phase I ESA in conformance with ASTM E1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (the Practice). The purpose of the Practice was to define good commercial practice for conducting a Phase I ESA and as such, the Practice is intended to permit the user to satisfy one of the requirements to qualify for the LLPs. The goal of the processes established by the Practice is to identify RECs in connection with the subject property.

Based on the information provided, PSI understands that your purpose for having the Phase I ESA performed is to satisfy one of the requirements to qualify for one of the LLPs.

2.2 PHASE I ESA METHODOLOGY

PSI performed a Phase I ESA of the subject property. The scope of our services and general methodology is presented below.

Documents and other information referenced during this assessment, including published materials and material obtained from commercial or other sources, are cited in the section where the information was first used. The information or excerpts thereof, if practical, is appended.

This assessment included the following components:

- Records review;
- Reconnaissance;
- Interviews;
- VES in accordance with ASTM E2600-22, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions* [VES Standard Guide]; and
- Preparation of this report, including our evaluation.

2.3 LIMITATIONS, EXCEPTIONS, DEVIATIONS AND DATA GAP

PSI considers that limitations, exceptions, and deviations from the Practice manifest as a lack of or inability to obtain information required by the Practice. This represents the definition of the 'data gap' contained in the Practice. PSI listed the component objectives of the Practice on the appended Data Gap Worksheet and tracked the information obtained against the objectives. Therefore, the limitations, exceptions and deviations are identified in the Worksheet.

In general, when required information was incomplete, not provided, otherwise not obtained, or indicated a need for additional information, PSI attempted to use information from other sources to meet the Practices' performance objectives. When the data gaps affected the Environmental Professional's ability to identify RECs, PSI considered the data gap(s) to be significant. PSI identified significant data gaps (if any) on the Data Gap Worksheet and reported them in Section 1.2.1.

2.4 SIGNIFICANT ASSUMPTIONS

PSI made the following significant assumptions in developing our Phase I ESA findings and conclusions:

- Regulatory Agency Information - PSI considers all information provided by our environmental database subcontractor regarding the regulatory status of facilities to be complete, accurate and current.
- Other Regulatory Information - PSI considers all information obtained from regulatory or other governmental agencies to be complete, accurate and current.
- Title, Lien and AUL Information - PSI considers all information provided by real estate title record review firms regarding property use or ownership, encumbrances or other limitations, if provided, to be complete, accurate and current.
- Interviews - PSI considers all information provided through interviews to be accurate, complete, unbiased, current, and provided in good faith.
- Groundwater - PSI interpreted and inferred the direction of the shallow groundwater movement based on the information we obtained during this assessment and our experience. Actual groundwater flow may be locally influenced by many factors beyond the scope of this assessment. Subsurface investigation is typically necessary to determine site-specific groundwater flow direction.

3.0 USER-PROVIDED INFORMATION

PSI considers the client to be the 'User' of our assessment, defined in ASTM Practice E1527-21 as "the party seeking to use Practice E1527 to complete an environmental site assessment of the subject property". A User may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager. The User has specific obligations for completing a successful application of this practice.

3.1 USER QUESTIONNAIRE

The EPA All Appropriate Inquiry Rule (40 CFR Part 312) and ASTM E1527-21 § 6 requires the User to answer certain questions related to the subject property in order to obtain certain LLPs from CERCLA liability. To facilitate this process, PSI provided the client with a User Questionnaire, which is appended if it has been returned. A summary of the required questions and client responses is provided below.

Question	No	Yes	Unknown	N/A	Client did not respond
Did a review of recorded land title records or other sources identify any environmental liens filed or recorded against the subject property under federal, tribal, state or local law?	✔				
Did a review of land title records or other sources identify any activity use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place on the subject property?	✔				
Do you have specialized knowledge or experience related to the subject property or nearby properties?	✔				
Does the purchase price being paid reasonably reflect the fair market value of the subject property?		✔			
If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the subject property?				✔	

Question	No	Yes	Unknown	N/A	Client did not respond
Are you aware of commonly known or reasonably ascertainable information about the subject property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:					
Do you know of the past uses of the subject property?		✔			
Do you know of specific chemicals that are present or were once present at the subject property?	✔				
Do you know of spills or other chemical releases that have taken place at the subject property?	✔				
Do you know of any environmental cleanups that have taken place at the subject property?	✔				
Based on your knowledge and experience related to the subject property are there any obvious indicators that point to the presence or likely presence of contamination at the subject property?	✔				
Do you know of any pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property?	✔				
Do you know of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?	✔				

NOTES

The client returned PSI's questionnaire indicating 'UNKNOWN' to the questions: "Did a review of land title records (or judicial records where appropriate) identify any environmental cleanup liens filed or recorded against the subject property under federal, tribal, state or local law?" or "Did a review of land title records (or judicial records where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded in a registry under federal, tribal, state, or local law?" This is a limitation that is evaluated on the appended Data Gap Worksheet. The completed questionnaire is appended.

3.2 SUGGESTED INFORMATION

The client provided PSI with the following suggested information described by the Practice.

- The reason for performing the Phase I ESA.
- The type of property and type of property transaction.
- The complete and correct address of the subject property or other documentation identifying the location and extents of the subject property.
- The scope of services desired for the Phase I ESA, including any evaluation for BERs or other items that are beyond the scope of ASTM E1527-21.
- Identification of the parties who will rely upon the report.
- Identification of the key site contact and contact information.

3.3 HELPFUL DOCUMENTS AND PRIOR INVESTIGATIONS

The Practice requires that the environmental professional ask the subject property owner, the key site manager (if any is identified), and the User for certain helpful documents about the property and certain legal proceedings involving hazardous substances and the subject property. PSI mailed or e-mailed questions or performed interviews requesting this information.

The client did provide prior environmental reports or other similar documents within the performance period of this assessment, as summarized below:

Report Title:	Subsurface Investigation Report
Prepared For:	Hisense Reus LLC
Prepared By:	PSI
Report Date:	February 5, 2020
Summary:	PSI completed a Subsurface Investigation Report for the subject property. Background on the subject property indicated that the subject property was undeveloped land located on the south side of Railroad Avenue, between S. Linden Avenue and S. Spruce Avenue, in South San Francisco, California (Figure 1). The subject property consists of a narrow property that was a former railroad right of way that totals 2.25 acres. Previous sampling was conducted on the property with 25 soil samples collected from 0.5 feet below ground surface. All the soil samples were analyzed for lead and arsenic, four samples were analyzed for nine metals, thirteen samples were analyzed for pesticides, and three samples were analyzed for polynuclear aromatic hydrocarbons (PAHs). None of the pesticides, PAHs, or metals, other than lead, had concentrations greater than their Environmental Screening Level (ESL). Lead was found in three of the 25 soil samples above the ESL. Additionally, six soil samples had lead concentrations greater than the screening criteria of ten times the soluble threshold limit concentration (STLC). These samples would typically be analyzed for soluble lead using a Waste Extraction

	Test (WET) to determine whether the soluble lead concentration was hazardous and would require disposal as a hazardous waste once designated as a waste. It does not appear that a WET was conducted on the samples above the ten times screening criteria. The results of the subsurface investigation for the subject property were as follows: • Soil samples were analyzed for TPH-S, VOCs, PAHs, chlorinated pesticides, PCBs, and metals. The only contaminant of concern was found to be lead. • Soluble lead concentrations were found to be above the STLC, but below the TCLP waste criteria in five soil samples. The soil represented by these samples would be classified as a State of California Non-RCRA waste upon excavation and classification of soil as a waste material. The soil identified as a Non-RCRA waste appears to be confined to the upper two feet on the far western portion of the subject property. PSI estimated the volume of Non-RCRA soil to be approximately 425 cubic yards. • Total lead concentrations were found to be above the TTLC and the TCLP waste criteria in one soil sample (B-15-1). The soil represented by this sample would be classified as a Federal RCRA waste upon excavation and classification as a waste material. The soil identified as a Federal RCRA waste appears to be confined to the upper one foot. PSI estimated the volume of Non-RCRA soil to be approximately 160 cubic yards. • PSI believes further investigation in the area of boring B-15 and borings B-23 through B-25 could reduce the volume of soil that would be considered to be a Federal RCRA or Non-RCRA hazardous waste. This is especially true in the area of B-15, as the one-foot sample with the elevated lead concentrations did not appear to be similar to the rest of the soil found across the subject property. • The groundwater samples were analyzed for VOCs, metals, and TPH-S. The results of the groundwater analyses did not represent an environmental concern. It appears that this investigation has defined the lateral and vertical extent of lead impacted soil. Additional sampling may reduce the volume of estimated soil that may need to be removed as hazardous waste. The former use as a railroad spur represents a REC.

4.0 PHYSICAL SETTING

PSI reviewed USGS topographic (topo) maps and other information regarding the physical setting of the subject property to assist with the interpretation of subsurface water movement near the subject property. Physical setting information is summarized in the table below.

Summary of Physical Setting Information

Physical Setting Attribute	Source	Description
Subject property elevation:	Topo Map "San Francisco South, CA" 7.5 minute Quadrangle, 2021.	27 feet AMSL.
Topographic gradient:		The subject property and surrounding area slope downward gently to the south.
Closest surface water:	Site Reconnaissance	None observed on or adjacent to the subject property.
Geology/Hydrogeology:	ERIS Physical Setting Report.	Quaternary alluvium and marine deposits with the primary soil type being alluvium and secondary type being terrace.
Predominant soil type(s) mapped on the subject property:	ERIS Physical Setting Report.	Urban land.
Estimated depth to first groundwater:	Geotracker website for 20 South Linden Avenue, South San Francisco, adjacent to the east	Groundwater is anticipated to be approximately 10 feet bgs.
Anticipated regional groundwater flow direction:	Geotracker website for 20 South Linden Avenue, South San Francisco, adjacent to the east	Groundwater likely moves to the southeast.
Oil and Gas Resources:	ERIS Physical Setting Report.	None mapped on or adjacent to the subject property.
Mining Resources:	ERIS Physical Setting Report.	None mapped on or adjacent to the subject property.
Other resource or physical characteristics, such as wetlands, mapped on the subject property?	ERIS Physical Setting Report.	None mapped on or adjacent to the subject property.

Physical Setting Attribute	Source	Description
Is a flood hazard zone mapped on the subject property?	ERIS Physical Setting Report.	The subject property is located in zone X, which is an area of minimal flood hazard.

5.0 SITE RECONNAISSANCE

The location and approximate boundaries of the subject property are illustrated on the appended figures. The legal description of the subject property, if provided to PSI, is appended.

Mr. Ted Liu, Newlife Investment LLC, arranged PSI access to the subject property. Our assessor was unescorted during the site reconnaissance.

The ground reconnaissance consisted of observing the periphery of the subject property and viewing the subject property from accessible adjoining public access areas. PSI also systematically toured the interior portions of the subject property to provide an overlapping field of view. The peripheries of surface features and/or structures, where present on the subject property, were observed along with accessible interior common areas.

Visual reconnaissance of adjoining properties was limited to areas and facilities that were readily observable from the subject property or from public access areas.

PSI photographed selected features. The captioned photographs collected during the site reconnaissance are appended.

5.1 SUBJECT PROPERTY DESCRIPTION AND CURRENT USES

General Subject Property Information	
Subject Property Address	Railroad Avenue between S. Linden Avenue and S. Spruce Avenue, South San Francisco, California 95014
Subject Property Parcel Identification Number(s)	014072050 and 014061170
Subject Property Size (acres)	2.04±
Subject Property Contact/Escort	Mr. Ted Liu / No escort
Date of Reconnaissance	March 25, 2024
Utility Providers	
Water	Not Applicable
Wastewater/Sewer	Not Applicable
Electricity	Not Applicable
Natural Gas	Not Applicable

The subject property is undeveloped land located on the south side of Railroad Avenue, between S. Linden Avenue and S. Spruce Avenue, in South San Francisco, California. The subject property consists of a narrow property that was a former railroad right of way and totals 2.25 acres.

5.2 SUBJECT PROPERTY OBSERVATIONS

A summary of the subject property uses and conditions is tabulated below. Detailed information is discussed following the summary for any "yes" answers, along with an opinion about the significance of the observation.

Identified? (check if Yes)	Item Description
Activities	
	Medical or Dental Offices - Biomedical Wastes
	Dry Cleaners or Laundromats
	Automotive or Equipment Repair
	Other Activities of Concern
Equipment or Storage	
	Emergency Generators
	Elevators
	Hydraulic Lifts and/or Equipment
	Photo Processing
	Oil/Water Separators
	Grease Traps
	Wastewater Treatment Systems
	Septic Systems, Sewage Tanks, Sewage Lagoons, or Cesspools
	Air Compressors
	Transformers and/or Other Electrical Equipment That Could Contain PCBs
	Use, Storage, or Disposal of Hazardous Substances
	Use, Storage, or Disposal of Petroleum Products
	Drums, Totes or Other Intermediate Bulk Containers
	ASTs or USTs
	Suspect Containers or Containers with Unidentified Contents
Features	
	Drains or Sumps
	Stormwater Retention or Detention Systems

Identified? (check if Yes)	Item Description
	Pits, Ponds, Lagoons, or Quarries
	Pools of Liquid, Standing Water, Streams, Creeks, or Rivers
Other Items of Potential Concern	
	Stains or Corrosion on Floors, Walls, or Ceilings (other than water staining)
	Strong, Pungent or Noxious Odors
	Oil and Gas Wells
	Drinking Water, Irrigation, or Monitoring Wells
	Pipeline Markers
	Agrochemical Use or Application
✔	Railroad Spur, Siding, or Right-of-Way
	Pavement Stains or Corrosion
	Stained Soil or Stressed Vegetation
	Surface Water Sheen or Discoloration
	Exterior Pipe Discharges, Unknown Pipes, or Effluent Discharges
	Solid Waste Dumping, Landfilling, or Suspect Fill Material (not in dumpsters or compactors)
	Construction Debris or Material Stockpiles
	Other Uses or Conditions of Concern

5.2.1 RAILROAD SPUR, SIDING, OR RIGHT-OF-WAY

It should be noted that the subject property appears to be a railroad spur. A soil and groundwater investigation was conducted at the subject property and detailed in Section 3.3 of this report. The soil results indicate that the former use does represent a REC.

5.3 OFF-SITE OBSERVATIONS

A summary of the adjoining property uses and conditions is tabulated below. Detailed information is discussed following the summary for any “yes” answers, along with an opinion about the significance of the observation.

Please note adjoining properties were observed from the subject property boundaries, public rights-of-way or public thoroughfares, but were not accessed.

Direction	Description of Adjoining Property Use
North	Railroad Avenue followed by single family residences and multi-family residences
East	Multi-tenant industrial buildings
South	Spruce Business Park
West	South City Lumber & Supply

Identified? (check if Yes)	Item Description
Activities	
	Medical or Dental Offices - Biomedical Wastes
	Dry Cleaners or Laundromats
	Automotive or Equipment Repair

	Elevators
	Hydraulic Lifts and/or Equipment
	Photo Processing
	Oil/Water Separators
	Grease Traps
	Wastewater Treatment Systems
	Septic Systems, Sewage Tanks, Sewage Lagoons, or Cesspools
	Air Compressors
	Transformers and/or Other Electrical Equipment That Could Contain PCBs
	Use, Storage, or Disposal of Hazardous Substances
	Use, Storage, or Disposal of Petroleum Products
	Drums, Totes or Other Intermediate Bulk Containers
	ASTs/USTs

Identified? (check if Yes)	Item Description
	Suspect Containers or Containers with Unidentified Contents
Features	
	Drains or Sumps
	Stormwater Retention/Detention Systems
	Pits, Ponds, Lagoons, or Quarries
	Pools of Liquid, Standing Water, Streams, Creeks, or Rivers
Other Items of Potential Concern	
	Stains or Corrosion on Floors, Walls, or Ceilings (other than water staining)
	Strong, Pungent or Noxious Odors
	Oil and Gas Wells
	Drinking Water, Irrigation, or Monitoring Wells
	Pipeline Markers
	Agrochemical Use or Application
	Railroad Spur, Siding, or Right-of-Way
	Pavement Stains or Corrosion
	Stained Soil or Stressed Vegetation
	Surface Water Sheen or Discoloration
	Exterior Pipe Discharges, Unknown Pipes, or Effluent Discharges
	Solid Waste Dumping, Landfilling, or Suspect Fill Material (not in dumpsters or compactors)
	Construction Debris or Material Stockpiles
	Other Uses or Conditions of Concern

PSI did not observe the above uses or conditions in connection with the adjoining properties at the time of the site reconnaissance. Although not observed, the adjacent properties to the east and south are anticipated to store and use hazardous materials. Additional information on these properties can be found in Section 7.1.2 of this report.

6.0 HISTORICAL USES

PSI utilized readily ascertainable historical information sources in order to research the history of the subject property and surrounding area. The intent of this review was to identify historical resources identifying historical tenancies or uses of the subject property and surrounding area, which might be considered evidence of a REC. Generally, PSI reviewed the following readily ascertainable historical resources, where they were available:

- PSI requested available historical topographic maps from ERIS, and/or otherwise reviewed available maps at local or other sources to evaluate land development in the area over time. It should be noted that the scale of topographic maps in some cases does not allow for mapping of individual structures and developed areas may be shown by shading only.
- PSI requested available historical aerial photographs from ERIS, and/or otherwise reviewed available photographs at local or other sources to obtain information concerning the development and history of the subject property and surroundings.
- PSI requested available historical city directories from ERIS and/or otherwise reviewed available directories at local sources in order to obtain information on tenancies on the subject property and adjoining properties.
- PSI requested available historical fire insurance maps from ERIS. The Sanborn® Map Company and other regional providers historically mapped urban areas for use by insurance underwriters. In some cases, these maps provide useful information in evaluating previous tenancies and uses of the subject property and surrounding area. "Sanborn", "Sanborn Map", "Sanborn Map Company", and "Sanborn Fire Insurance Maps" are recognized trademarks of the Sanborn Map Company, a subsidiary of Environmental Data Resources, Inc.

Copies of select historical resources obtained from the historical sources are provided in the report appendix; however, it should be noted that some of the historical resources used by PSI may be copyrighted and PSI has summarized those resources herein, but we have not included copies of those resources in the appendix.

6.1 CURRENT AND PRIOR USE INTERVIEWS

PSI conducted or attempted to conduct interviews with persons who are knowledgeable of the current use and history of the subject property. The following individuals were interviewed.

Name	Title/Role	Date Interviewed	Summary
Mr. Ted Liu	Client / Newlife Investment	Various	Mr. Liu provided information on the subject property and arranged site access.

Name	Title/Role	Date Interviewed	Summary
Clerk	South San Francisco Fire Department	March 26, 2024	In response to a FOIA request, the South San Francisco Fire Department indicated that there were no records on file for the subject property.
Clerk	San Mateo County Department of Environmental Health	March 26, 2024	In response to a FOIA request, the San Mateo County Department of Environmental Health indicated that there were no records on file for the subject property.

No evidence of RECs was identified as a result of the interviews conducted during this assessment. Complete records of communication detailing information obtained and reviewed, have been appended to this report.

6.2 SUMMARY OF HISTORICAL SOURCES & RESOURCES

PSI reviewed historical resources from the following sources in order to evaluate the historic uses of the subject property, adjoining and/or surrounding area.

PSI also reviewed historical data in other sources reviewed during this assessment, like regulatory documents discussed in Section 7 of this report.

Resource	Historical Data Source	Years Reviewed
Topo Maps	ERIS	1892, 1896, 1899, 1915, 1939, 1943, 1947, 1956, 1968, 1973, 1980, 1995, 1996, 2015, 2018, 2021
Aerial Photographs	ERIS	1930, 1941, 1946, 1956, 1965, 1974, 1982, 1993, 2000, 2004, 2005, 2006, 2009, 2010, 2012, 2014, 2016, 2018, 2020, 2022
City Directories	ERIS	1929, 1933, 1936, 1942, 1947, 1951, 1955, 1961, 1966, 1970, 1975, 1977, 1982, 1987, 1991, 1996, 2001, 2003, 2007, 2012, 2016, 2020, 2022
	Streets Searched:	N. Canal Street, Railroad Avenue, S. Linden Avenue
Fire Insurance Maps	ERIS	1899, 1905, 1910, 1925, 1950, 1956, 1970 (only northern adjacent property from 1899 through 1910)

6.3 SUMMARY HISTORY OF THE SUBJECT PROPERTY AND ADJOINING PROPERTIES

A chronological summary of the history and use of the subject property, immediately adjoining, and surrounding properties is provided in the following tables. Our interpretation of the historical uses of a particular property reflects a synthesis of information contained on the available resources (as noted in the previous subsection) for a given time period.

6.3.1 SUBJECT PROPERTY

Topo Maps

Time Period	Interpreted Use/Observations
1892	The subject property appears to be undeveloped.
1896 - 2021	The subject property appears to be railroad tracks.

Aerial Photographs

Time Period	Interpreted Use/Observations
1930 - 2010	The subject property appears to be railroad tracks.
2012 - 2022	The subject property appears to be undeveloped land.

City Directories

Time Period	Interpreted Use/Listing(s)
	There are no City Directories for the subject property.

Fire Insurance Maps

Time Period	Interpreted Use/Observations
1925 -1970	The subject property is ailroad tracks.

Historical information sources researched during this assessment allowed the uses of the subject property to be traced from the present back to 1925, as railroad tracks. A soil and groundwater investigation was conducted at the subject property and detailed in Section 3.3 of this report. The soil results indicate that the former use does represent a REC.

6.3.2 IMMEDIATELY ADJOINING PROPERTIES

NORTH	
Time Period	**Interpreted Use/Observations**
1899 - 1910	Sanborn Maps: The adjoining property to the north appears to be Railroad Avenue followed by a smattering of homes.
1924 - 2023	Sanborn Maps, City Directories, and Aerial Photographs: The adjoining property to the north appears to be Railroad Avenue followed by residences. City Directories indicated residences

EAST	
Time Period	**Interpreted Use/Observations**
1899 - 1910	Sanborn Maps: The adjoining property to the east appears to be undeveloped land.
1925 - 1987	Sanborn Maps, Aerial Photographs, & City Directories: The adjoining property to the east appears to be a Drayage Company, Sun Chemical Corporation, an office, and a lab. City Directories indicate the following: <u>6 S. Linden Avenue</u> Olmo A J Drayage Co (1961-1966); Olmo Alfred J Drayage Co (1970); Two Star Auto Body (1975-1977); Gold Star Body Shop (1982) <u>12 S. Linden Avenue</u> E & J Printing (1970); Sharp Francis (1970); No Listing (1975-1982) <u>20 S. Linden Avenue</u>

EAST	
Time Period	**Interpreted Use/Observations**
	Morrill G H Co (1929); Sun Chemical Corp (1951-1977); General Printing Ink Div Sun Chemical (1970); General Printng Ink (1975); General Printg Ink (1975-1977); Genl Printg Ink Div (1977); Heat Transfer Equip (1977-1991); Carlin Co Inc (1982); Jartran Truck Rntl (1982); Sherrill Engineerng (1982); Lera Glass (1982-1987); Rental City (1982-1987); Ryder Truck Rental (1987); Shell Trailer Rntl (1987) <u>22 S. Linden Avenue</u> A Advncd Mail Dlvry (1977); No Listing (1982-1987) <u>24 S. Linden Avenue</u> Bayshore Coty Cornr (1977); Natl Service Corp (1982); Sears Authrzd Plmbr (1982); Linden Systems (1987) <u>26 S. Linden Avenue</u> Hertz Rent A Car (1966); Hertz Truck Rental (1966-1977); No Listing (1987)
1991 - 2022	Aerial Photographs and City Directory: The adjoining property to the east appears to be the current industrial warehouses. City Directories indicate the following: <u>6 S. Linden Avenue</u> Anderson Wholesale (1991); Anthane Inc (1991); Fitzgerald Elc Mech (1991); Mustang Factory (1991); Wunda Weve Capt Co (1991); Fern Electrc & Contrl (1991-1996); Lift Parts Unltd (1991-1996); Melody Paint Co (1991-1996); Rapidprint Tme Stmp (1991-1996); Albis Inc (1991-2003); Lillian Mizzaro Ltd (1991-2012); Fitzgerald Electro (1996); Ca Home Furnishings (1996-2001); Devencenzi Eugene (1996-2001); Boyett Construction (1996-2003); Fern Electric & Control Inc (2001); Fitzgerald - Electro Mech Co (2001); Rapidprint Time Stamp Co (2001-2003); Ryker Amusements (2001-2016); Finishmaster (2001-2022); California Home Furnishings (2003); Sds Seapoot Group (2003); Fitzgerald Electro-Mechanical (2003-2020); Lift Parts Unlimited (2003-2020); Fern Electric & Control Co (2003-2022); Annuzzi Heating & Cooling (2007-2022); Finish Master (2007-2022); Restoration 911 (2007-2022); Cosplay Party (2016-2022); Vitalie's Restoration 911 Inc (2016-2022); Productive Printing Graphics (2020); Vital Restoration (2020-2022); Fitzgerald Electro Mechanical (2022); Productive Printing Graphics (2022) <u>16 S. Linden Avenue</u> Gonzalez Anthony (1996); Gonzalez Melinda (1996)

EAST	
Time Period	**Interpreted Use/Observations**
	20 S. Linden Avenue Doris Inc (1996); Emerald Plumbing (1996); Global Sun Intl Ltd (1996); Heat Trnsfr Equip (1996); Kerry Plastering (1996); Milts Sign Service (1996); Pac Sciences Corp (1996); Residential Howr (1996); Giannini Glass Inc (1996-2003); Mohr Microfilm Corp (1996-2003); Lithomania Inc (1996-2022); Shepherd Lithograph (1996-2022); Info Imaging Corp (2001); Milt's Sign Service (2001); Moha Microfilm Corporation (2001); City Mechanical Inc (2001-2003); Notaro Steel Rule Die Co (2001-2003); Art Real (2003); Milt's Sign Svc (2003-2016); American Technologies Network (2003-2022); Heat Transfer Equipment Co (2003-2022); Information Imaging Corp (2003-2022); Andrew Chekene Enterprises (2007-2012); Beale Properties (2007-2016); Gonzalez Construction & Gen (2007-2022); Rimarden Llc (2007-2022); Denise Beale (2012); P Beale (2012); Richard Beale (2012); City Mechanical (2016); Clean Air Systems (2016); Pacific Pulmonary Svc (2016-2022); T S G Ventures Llc (2016-2022); Dpi-San Francisco (2020); Gonzalez Construction-Gen Cntr (2020); Service Team-Pro Sn Francisco (2020); Iic Archive (2020-2022); Lyon Restoration Inc (2020-2022); Thomas Ierna (2020-2022); Dpi San Francisco (2022); Gonzalez Construction Gen Cntr (2022); Service Team Pro Sn Francisco (2022) 24 S. WEST	
Time Period	**Interpreted Use/Observations**
1930 - 1968	Aerial Photographs: The adjoining property to the west appears to be the South City Lumber and Supply Company.
1941 - 2022	Aerial Photographs, Sanborn Maps, and City Directories: The adjoining property to the west appears to be South City Lumber & Supply: City directories indicate the following: <u>499 Railroad Avenue</u> South City Lmbr & Spl (1991); No Listing (1996); South City Lumber & Supply Co (2003); South City Lumber (2007-2022); South City Lumber Supply (2020)

The surrounding properties appeared to have been mixed use of industrial and residences since the early 1900s. Several industrial facilities were identified at adjacent properties with additional information found on these facilities in section 7.1.2.

7.0 ENVIRONMENTAL REGULATORY RECORDS REVIEW

7.1 DATABASE FINDINGS

PSI retained ERIS to provide environmental database information attributed to the subject property and its surroundings. ERIS obtains environmental databases published by local, state, tribal, and federal agencies and maps the information for electronic searches. The report provided by ERIS includes reporting Standard Environmental Records Sources as listed in the Practice.

The search, where applicable, was performed to AMSDs listed in ASTM E1527-21. The search radius required by ASTM varies by database.

The report provided by ERIS also included data for searches of other regulatory databases they believe may have useful information. The AMSDs for those databases are determined by ERIS.

Unplottable (orphan) sites (if any were listed) having insufficient address information to be mapped were evaluated for potential location within the applicable AMSD. Those that could be determined to be within the AMSD are discussed, as appropriate.

The distribution of listed sites with respect to the subject property is tabulated and mapped in the report ERIS provided, which is appended. The reader is referred to that table, which can be found near the front of that report. The full names of the database abbreviations and acronyms used below and in the report can be found in the Database Descriptions appendix of that report.

7.1.1 SUBJECT PROPERTY

The subject property was not listed on the searched governmental databases as a spill site or regulated facility.

7.1.2 ADJOINING PROPERTIES

ERIS identified a number of regulated facilities and/or spill sites within the search radius. Those sites that are adjacent to the subject property are summarized and discussed below.

Facility Name(s):	Decca Xagon, Henrys Medical, Western Painting, South City Refrigeration, Kurt Meiswinkel, Brady Air Conditioning, Golden Gate Dental, New Version Color Printing
Address(es):	338 N. Canal Street, South San Francisco, CA
Distance/Direction:	South adjoining
ERIS Number (s):	4

Database(s):	CERCLIS, CERCLIS NFRAP, ICIS, SEMS Archive, CUPA San Mateo, Haznet, RCRA Non Gen, Haz Gen, FINDS/FRS, HazGen

Comments: This property was identified on the CERCLIS, CERCLIS NFRAP, ICIS, SEMS Archive, CUPA San Mateo, Haznet, RCRA Non Gen, Haz Gen, and FINDS/FRS, databases. The ICIS, CUPA San Mateo, Haznet, RCRA Non Gen, Haz Gen, FINDS/FRS, and HazGen listings are associate with the storing and disposing of hazardous material substances on the property. No violations have been noted other than administrative items that were returned to compliance. There was also no indication of a release associated with these listings. Based on this, PSI does not consider these listings as a representation of a REC to the subject property.

The CERCLIS, SEMS Archive, and CERCLIS NFRAP listing is associated with the former use of the property with the CERCLIS NFRAP designation indicating the site did not qualify for the NPL. The listing does not indicate a release and groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

Facility Name(s):	Albis Incorporated, FinishMaster, Thompson PBE, Sev Corp Melody Paint, Restoration 911, Sal Vitalie, Mustang Factory, John Hernandez Lift Parts
Address(es):	6 S. Linden Street, South San Francisco, CA
Distance/Direction:	East adjoining
ERIS Number (s):	6, 7, 13, 21
Database(s):	CUPA San Mateo, Haznet, RCRA Non Gen, Haz Gen, FINDS/FRS, HazGen, Hist Manifest, CERS Haz

Comments: This property was identified on the CUPA San Mateo, Haznet, RCRA Non Gen, Haz Gen, FINDS/FRS, HazGen, Hist Manifest, and CERS Haz databases. The listings are associate with the storing and disposing of hazardous material substances on the property. No violations have been noted other than administrative items that were returned to compliance. There was also no indication of a release associated with these listings. Based on this, PSI does not consider these listings as a representation of a REC to the subject property. Groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

Facility Name(s):	SP Teri Co, Great Impressions, Grants Delivery, Service Industrial Supplys, Brisbane Printing, San Bruno Sheet Metal, Sterling Graphics
Address(es):	436 N. Canal Street, South San Francisco, CA
Distance/Direction:	South adjoining
ERIS Number (s):	10, 18
Database(s):	CUPA San Mateo, Haznet

Comments: This property was identified on the CUPA San Mateo and Haznet databases. The listings are associated with the storing and disposing of hazardous material substances on the property. No violations have been noted other than administrative items that were returned to compliance and no release, as such, PSI does not consider these listings as a representation of a REC to the subject property. Groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider these listings to represent a REC to the subject property.

Facility Name(s):	TLC Biopharmaceuticals, Sens Antiques, Idel Restoration, Ideal Drying, Liveritas Biosciences
Address(es):	432 N. Canal Street, South San Francisco, CA
Distance/Direction:	South adjoining
ERIS Number (s):	20
Database(s):	CUPA San Mateo, Drycleaners, Emissions, RCRA NonGen, CERS Haz

Comments: This property was identified on the CUPA San Mateo, Drycleaners, Emissions, RCRA NonGen, and CERS Haz databases. The listings are associated with the storing and disposing of hazardous material substances on the property. No violations have been noted other than administrative items that were returned to compliance and no release, as such, PSI does not consider this listing as a representation of a REC to the subject property. Groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

Facility Name(s):	LA Mark Transportation, Zarc Recycling, Berman Property
Address(es):	26 S. Linden Street, South San Francisco, CA
Distance/Direction:	East adjoining
ERIS Number (s):	11
Database(s):	LUST, FINDS/FRS, CERS Haz, RCRA Non Gen, UST Sweeps, RCRA LQG

Comments: This property was identified on the LUST, FINDS/FRS, CERS Haz, RCRA Non Gen, UST Sweeps, and RCRA LQG databases. The FINDS/FRS, CERS Haz, RCRA Non Gen, and RCRA LQG listings are associated with the storing and disposing of hazardous material substances on the property. No violations have been noted other than administrative items that were returned to compliance and no release, as such, PSI does not consider these listings as a representation of a REC to the subject property. Groundwater sampling was conducted previously at the property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

The LUST and UST Sweeps listings are for the release to the subsurface of gasoline that was discovered as part of the removal of two 7,500 gallon USTs removed from the property in 1991. Indications of a release were noted as part of the UST removal. Subsequent investigative activities included soil borings and well

installation. The site received closure on January 2, 2003. Groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

Facility Name(s):	South City Lumber
Address(es):	499 Railroad Avenue, South San Francisco, CA
Distance/Direction:	West adjoining
ERIS Number (s):	46
Database(s):	LUST, LOP San Mateo, CERS Haz, CUPA San Mateo

Comments: This property was identified on the LUST, LOP San Mateo, CERS Haz, and CUPA San Mateo databases. The CERS Haz, and CUPA San Mateo listings are associated with the storing and disposing of hazardous material substances on the property. No violations have been noted other than administrative items that were returned to compliance and no release, as such, PSI does not consider these listings as a representation of a REC to the subject property. Groundwater sampling was conducted previously at the property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

The LUST and LOP San Mateo listings are for the release to the subsurface of gasoline that was discovered as part of the removal of a 1,000 gallon gasoline UST removed from the property in 1991. Indications of a release were noted as part of the UST removal. Subsequent investigative activities included soil borings. The media effected is listed as soil only. The site received closure on December 14, 1992. Groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

Facility Name(s):	Sun Chemical Corporation, Pacific Pulmonary
Address(es):	20 S. Linden Street, South San Francisco, CA
Distance/Direction:	East adjoining
ERIS Number (s):	12
Database(s):	LUR, Envirostor, Response, FINDS/FRS, CERS HAZ

Comments: This property was identified on the LUR, Envirostor, Response, FINDS/FRS, and CERS HAZ databases. The FINDS/FRS, and CERS HAZ listings are associated with the storing and disposing of hazardous material substances on the property. No violations have been noted and no release, as such, PSI does not consider these listings as a representation of a REC to the subject property. Groundwater sampling was conducted previously at the property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

The LUR, Envirostor, and Response listings are associated with Sun Chemical Corporation, who manufactured printing ink at the site from 1927 to 1978, resulting in hazardous materials consisting of mixed inks, ink vehicles and pigments found as liquids and sludges in tanks and sumps, spillages on the main building floor, and in contaminated soil. The site is currently active, but only associated with the site use limitations and the confirmation that the soil impact is capped. Groundwater sampling was conducted previously at the subject property (see Section 3.3). Based on this, PSI does not consider the listings to represent a REC to the subject property.

7.1.3 SURROUNDING PROPERTIES

ERIS identified a number of regulated facilities and/or spill sites within the search radius. However, PSI considered the remaining database listings unlikely to impact the subject property based upon factors including (but not limited to):

- The nature of the listing;
- The use of the facility;
- When the facility was listed and its current listed status;
- The developmental density of the setting;
- The potential for vapors to encroach from the property to the subject property;
- The distance between the listing and subject sites related to whether releases are likely to migrate based on local surface and subsurface drainage conditions; and/or
- The presence of intervening drainage divides; and/or inferred groundwater movement.

7.2 REGULATORY AGENCY INQUIRIES

PSI sought information about the subject property and/or surrounding area from the governmental agencies listed in the following sections. Information was requested by telephone, in person, via e-mail, through an RFI, or through a written FOIA or equivalent request, as appropriate.

7.2.1 FIRE DEPARTMENT

PSI submitted a FOIA request to the South San Francisco Fire Department. Any files obtained have been incorporated into the appropriate sections of this report.

7.2.2 ENVIRONMENTAL HEALTH DEPARTMENT

PSI submitted a FOIA request to the San Mateo County Environmental Health Department. Any files obtained have been incorporated into the appropriate sections of this report.

7.2.3 REGULATORY AGENCY MAINTAINED WEBSITES

PSI reviewed the RWQCB Geotracker website and the DTSC Envirostor website for information on potential sites that had a release that might impact the subject property. Any files obtained from this review have been incorporated into the correct sections of this report.

8.0 VAPOR ENCROACHMENT SCREENING

8.1 METHODOLOGY

The Phase I ESA process requires the Environmental Professional to evaluate the potential for vapor encroachment onto the subject property, and to determine if such vapor encroachment constitutes evidence of a REC in connection with the subject property. The Practice does not specifically state the methods that must be used to screen for potential vapor encroachment issues. PSI utilized the VES Standard Guide as a basis to conduct a VES for the subject property. PSI used the Tier I procedure from the VES Standard Guide during this assessment. Where Tier II information is readily available during the normal course of conducting the Phase I ESA, PSI has combined the Tier I and Tier II steps.

The VES process utilizes information regarding the potential presence of releases on or near the subject property that were collected as a normal part of the Phase I ESA process. If the User Questionnaire was returned, PSI also reviewed the answers to the vapor encroachment screening questions. No additional data was collected specifically for the purpose of the VES. In order to identify potential sites of concern within the VES AMSDs, PSI reviewed, as available and appropriate, governmental database records, regulatory agency files, topo maps, aerial photography, fire insurance maps, and other information.

The AMSDs were expanded or reduced in the up-gradient, down-gradient, or cross-gradient directions by the environmental professional based on experience in the local area and applying professional judgment to factors such as: where a well-defined regional groundwater flow direction is identified; or whether other geologic features such as low permeability soils or hydrogeologic boundaries (such as rivers or streams) exist which would tend to limit the potential for migration of groundwater or vapors in a particular direction.

If a VEC was identified, the environmental professional determined whether the VEC represented evidence of a REC in connection with the subject property within the context of the Phase I ESA Standard Practice. It should be noted that the identification of a VEC in connection with the subject property does not necessarily indicate that a potential for migration of vapors into existing or proposed structures on the subject property is likely.

8.2 VES RESULTS

PSI did not identify sites of concern within the VES search radii; therefore, PSI concludes that no VECs exist on the subject property.

8.3 VES LIMITATIONS

The VES process is not intended to be an exhaustive screening and cannot wholly eliminate uncertainty regarding the presence of VECs in connection with the subject property. In addition, to the limitations inherent in ASTM E2600-22, the screening is intended to reduce, but not eliminate uncertainty regarding whether or not a VEC exists in connection with the subject property.

9.0 ASTM NON-SCOPE CONSIDERATIONS

PSI conducted additional assessment to address conditions beyond the scope of the Practice. These items can be called either BERs or Non-Scope Considerations. Methodologies and protocols used to conduct the assessment and evaluate these considerations follow. Assessors' and laboratories' credentials are appended if applicable. Restoration of sampled locations, if samples were collected, was beyond the scope of our assessment.

10.0 WARRANTY AND RELIANCE

10.1 STANDARD OF CARE AND WARRANTIES

Our services were not intended to be technically exhaustive. There is a possibility that with the proper application of methodologies, conditions may exist on the property that could not be identified within the scope of the assessment(s) or that were not reasonably identifiable from the available information.

No ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with the property. The ESA was intended to reduce, but not eliminate uncertainty regarding the potential for RECs in connection with a property.

Our report is based on commonly known and reasonably ascertainable information, including limited, ground-level visual inspection of the property except where otherwise explicitly indicated, in general conformance with ASTM E1527-21. Findings and conclusions derived from the methodologies described in the Practice contain all of the inherent limitations in the methodologies that are referred to in the Practice.

PSI has assumed that factual information provided to us by the client, or obtained from governmental and historical research firm, the public domain, interviews, and other sources is accurate and unbiased. PSI assumes no liability for the accuracy of data provided to us by others.

PSI did not perform any exploratory probing or discovery, perform tests, operate any specific equipment, or take measurements or samples to perform the ESA scope. The ESA was not a building code, safety, regulatory or environmental compliance inspection. The ESA is not intended to reduce the risk of the presence of mold and physical deficiencies conducive to mold nor the risk that mold or physical deficiencies conducive to mold may pose to the buildings and building occupants.

The methodologies include reviewing information provided by other sources. PSI treats information obtained from the record reviews and interviews concerning the property as reliable and the ASTM protocol does not require PSI to independently verify the information. Therefore, PSI cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete.

PSI has performed the services in a manner consistent with that level of care and skill ordinarily exercised by other members of our profession currently practicing in the same locality and under similar conditions, within the limitations of ASTM E1527-21 standard, and the All Appropriate Inquiries Rule established by the U.S. Environmental Protection Agency (40 CFR Part 312).

The observations and/or recommendations presented in this report are time dependent, and conditions will change. This report speaks only as of its date.

No other warranties are implied or expressed.

10.2 RELIANCE

Newlife Investment LLC, PSI's client, may rely on this report.

10.3 THIRD PARTY RELIANCE

This report was prepared pursuant to a contract between PSI and its client, as defined in the previous subsection. That contractual relationship included an exchange of information about the subject property that was unique and serves as the basis upon which this report was prepared. Because of the importance of these understandings, our assessment may not be sufficient for the intended purposes of another party.

Reliance and/or any use of this report by anyone other than those parties identified earlier in this section for which it was prepared, except with express written permission, is prohibited and therefore not foreseeable to PSI. Any unauthorized reliance on and/or use of this report, including any of the information or conclusions contained herein, will be at the third party's risk. No warranties or representations expressed or implied in this report are made to any such third party.

Third party reliance letters may be issued:

- upon timely request;
- subject to the permission of our original client; and
- payment of the then-current fee for such letters.

All third parties relying on our report, by such reliance, agree that such reliance is limited by our proposal, contract and/or General Conditions, as applicable.

The ERIS ***Physical Setting Report - PSR*** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

FEMA Flood Zone Definitions

Special Flood Hazard Areas – High Risk

Special Flood Hazard Areas represent the area subject to inundation by 1-percent-annual chance flood. Structures located within the SFHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory flood insurance purchase requirements apply in these zones.

ZONE	DESCRIPTION
A	Areas subject to inundation by the 1-percent-annual-chance flood event. Because detailed hydraulic analyses have not been performed, no Base Flood Elevations (BFEs) or flood depths are shown.
AE, A1-A30	Areas subject to inundation by the 1-percent-annual-chance flood event determined by detailed methods. BFEs are shown within these zones. (Zone AE is used on new and revised maps in place of Zones A1–A30.)
AH	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are 1–3 feet. BFEs derived from detailed hydraulic analyses are shown in this zone.
AO	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually sheet flow on sloping terrain) where average depths are 1–3 feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.
AR	Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection.
A99	Areas subject to inundation by the 1-percent-annual-chance flood event, but which will ultimately be protected upon completion of an under-construction Federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protection system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may be used only when the flood protection system has reached specified statutory progress toward completion. No BFEs or flood depths are shown.

Coastal High Hazard Areas – High Risk

Coastal High Hazard Areas (CHHA) represent the area subject to inundation by 1-percent-annual chance flood, extending from offshore to the inland limit of a primary front al dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources. Structures located within the CHHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory purchase requirements apply in these zones.

ZONE	DESCRIPTION
V	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards associated with storm-induced waves. Because detailed coastal analyses have not been performed, no BFEs or flood depths are shown.
VE, V1-V30	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards due to storm-induced velocity wave action. BFEs derived from detailed hydraulic coastal analyses are shown within these zones. (Zone VE is used on new and revised maps in place of Zones V1–V30.)

Hydrologic Information

Moderate and Minimal Risk Areas

Areas of moderate or minimal hazard are studied based upon the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Local stormwater drainage systems are not normally considered in a community's flood insurance study. The failure of a local drainage system can create areas of high flood risk within these zones. Flood insurance is available in participating communities, but is not required by regulation in these zones. Nearly 25-percent of all flood claims filed are for structures located within these zones.

ZONE	DESCRIPTION
B, X (shaded)	Moderate risk areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1 foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by a levee. No BFEs or base flood depths are shown within these zones. (Zone X (shaded) is used on new and revised maps in place of Zone B.)
C, X (unshaded)	Minimal risk areas outside the 1-percent and .2-percent-annual-chance floodplains. No BFEs or base flood depths are shown within these zones. (Zone X (unshaded) is used on new and revised maps in place of Zone C.)

Undetermined Risk Areas

ZONE	DESCRIPTION
D	Unstudied areas where flood hazards are undetermined, but flooding is possible. No mandatory flood insurance purchase requirements apply, but coverage is available in participating communities.

Map Unit 121 (1.57%)

Map Unit Name:	Orthents, cut and fill, 0 to 15 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	
Major components are printed below	
Orthents(85%)	
horizon H1(0cm to 152cm)	Variable

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 121 - Orthents, cut and fill, 0 to 15 percent slopes

Component: Orthents (85%)
The Orthents component makes up 85 percent of the map unit. Slopes are 0 to 15 percent. This component is on alluvial fans, terraces, hills. The parent material consists of sandstone. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 8e. This soil does not meet hydric criteria.

Component: Unnamed (2%)
Generated brief soil descriptions are created for major components. The Unnamed soil is a minor component.

Component: Urban land (2%)
Generated brief soil descriptions are created for major components. The Urban land soil is a minor component.

Component: Unnamed (2%)
Generated brief soil descriptions are created for major components. The Unnamed soil is a minor component.

Map Unit 131 (11.88%)

Map Unit Name:	Urban land

No more attributes available for this map unit

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 131 - Urban land

Component: Urban land (85%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Orthents (7%)
Generated brief soil descriptions are created for major components. The Orthents soil is a minor component.

Component: Orthents (7%)
Generated brief soil descriptions are created for major components. The Orthents soil is a minor component.

Map Unit 132 (1.24%)

Map Unit Name: Urban land-Orthents, cut and fill complex, 0 to 5 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Orthents(45%)

horizon H1(0cm to 152cm) Variable

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 132 - Urban land-Orthents, cut and fill complex, 0 to 5 percent slopes

Component: Urban land (50%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Orthents (45%)
The Orthents component makes up 45 percent of the map unit. Slopes are 0 to 5 percent. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 8e. This soil does not meet hydric criteria.

Component: Botella (1%)
Generated brief soil descriptions are created for major components. The Botella soil is a minor component.

Component: Orthents (1%)
Generated brief soil descriptions are created for major components. The Orthents soil is a minor component.

Component: Sirdrak (1%)
Generated brief soil descriptions are created for major components. The Sirdrak soil is a minor component.

Component: Unnamed (1%)
Generated brief soil descriptions are created for major components. The Unnamed soil is a minor component.

Map Unit 133 (1.88%)

Map Unit Name: Urban land-Orthents, cut and fill complex, 5 to 75 percent slopes

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant:

Hydrologic Group - Dominant:

Major components are printed below

Orthents(40%)

horizon H1(0cm to 152cm) Variable

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 133 - Urban land-Orthents, cut and fill complex, 5 to 75 percent slopes

Component: Urban land (50%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Orthents (40%)
The Orthents component makes up 40 percent of the map unit. Slopes are 5 to 75 percent. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 8e. This soil does not meet hydric criteria.

Component: Candlestick variant (1%)
Generated brief soil descriptions are created for major components. The Candlestick variant soil is a minor component.

Component: Barnabe (1%)
Generated brief soil descriptions are created for major components. The Barnabe soil is a minor component.

Component: Maymen (1%)
Generated brief soil descriptions are created for major components. The Maymen soil is a minor component.

Component: Los Gatos (1%)
Generated brief soil descriptions are created for major components. The Los Gatos soil is a minor component.

Component: Sirdrak (1%)
Generated brief soil descriptions are created for major components. The Sirdrak soil is a minor component.

Component: Candlestick (1%)
Generated brief soil descriptions are created for major components. The Candlestick soil is a minor component.

Component: Fagan (1%)
Generated brief soil descriptions are created for major components. The Fagan soil is a minor component.

Component: Miramar (1%)
Generated brief soil descriptions are created for major components. The Miramar soil is a minor component.

Component: Scarper (1%)
Generated brief soil descriptions are created for major components. The Scarper soil is a minor component.

Component: Obispo (1%)
Generated brief soil descriptions are created for major components. The Obispo soil is a minor component.

Map Unit 134 (78.98%)

Map Unit Name:	Urban land-Orthents, reclaimed complex, 0 to 2 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	0cm
Drainage Class - Dominant:	
Hydrologic Group - Dominant:	
Major components are printed below	
Orthents(30%)	
horizon H1(0cm to 102cm)	Variable
horizon H2(102cm to 152cm)	Silty clay

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 134 - Urban land-Orthents, reclaimed complex, 0 to 2 percent slopes

Component: Urban land (65%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Orthents (30%)
The Orthents component makes up 30 percent of the map unit. Slopes are 0 to 2 percent. The parent material consists of reclaimed mine spoil or earthy fill derived from mixed. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is

well drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is high. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 0 inches during January. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 8e. This soil does not meet hydric criteria.

Component: Novato (2%)
Generated brief soil descriptions are created for major components. The Novato soil is a minor component.

Component: Reyes (1%)
Generated brief soil descriptions are created for major components. The Reyes soil is a minor component.

Component: Orthents (1%)
Generated brief soil descriptions are created for major components. The Orthents soil is a minor component.

Map Unit 135 (4.45%)

Map Unit Name:	Urban land-Orthents, smoothed complex, 5 to 50 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	
Hydrologic Group - Dominant:	
Major components are printed below	
Orthents(25%)	
horizon H1(0cm to 152cm)	Variable

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 135 - Urban land-Orthents, smoothed complex, 5 to 50 percent slopes

Component: Urban land (65%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Orthents (25%)
The Orthents component makes up 25 percent of the map unit. Slopes are 5 to 50 percent. This component is on terraces. The parent material consists of sandstone. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 8e. This soil does not meet hydric criteria.

Component: Unnamed (10%)
Generated brief soil descriptions are created for major components. The Unnamed soil is a minor component.

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *SAN MATEO* County: **2**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L
Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L
Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for *SAN MATEO* County

No Measures/Homes:	38
Geometric Mean:	0.4
Arithmetic Mean:	0.8
Median:	0.5
Standard Deviation:	1.3
Maximum:	6.6
% >4 pCi/L:	3
% >20 pCi/L:	0
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of California conducted during 1989-90. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Federal Sources

FEMA National Flood Hazard Layer **FEMA FLOOD**

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data **INDOOR RADON**

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data **PWSV**

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level **RADON ZONE**

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS) **SDWIS**

This national download of Safe Drinking Water Act (SDWA) data is sourced from the U.S Environmental Protection Agency's (EPA) Enforcement and Compliance History Online (ECHO) system that incorporates Public Water Systems data from EPA's Safe Drinking Water Information System (SDWIS) database. SDWIS contains information on public water systems from the Public Water System Supervision (PWSS) Program related to requirements established by the Safe Drinking Water Act (SDWA). Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Soil Survey Geographic database **SSURGO**

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

U.S. Fish & Wildlife Service Wetland Data **US WETLAND**

The U.S. Fish & Wildlife Service Wetland layer represents the approximate location and type of wetlands and deepwater habitats in the United States.

USGS Current Topo **US TOPO**

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology **US GEOLOGY**

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System **FED USGS**

The U.S. Geological Survey's (USGS) National Water Information System (NWIS) is the nation's principal repository of water resources data. The data includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data. This NWIS database information is obtained through the Water Quality Data Portal (WQP). The WQP is a cooperative service sponsored by the USGS, the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC).

State Sources

Oil and Gas Wells **OGW**

The California Department of Conservation, Geologic Energy Management Division (CalGEM) provides this oil and gas wells dataset. CalGEM makes no warranties, whether expressed or implied, and the data is for informational purposes.

Periodic Groundwater Level Measurement Locations **MONITOR WELLS**

Locations of groundwater level monitoring wells in the Department of Water Resources (DWR)'s Periodic Groundwater Levels dataset. The DWR Periodic Groundwater Levels dataset contains seasonal and long-term groundwater level measurements collected by the Department of Water Resources and cooperating agencies.

Well Completion Reports **WATER WELLS**

List of wells from the Well Completion Reports data made available by the California Department of Water Resources' (DWR) Online System for Well Completion Reports (OSWCR). Please note that the majority of well completion reports have been spatially registered to the center of the 1x1 mile Public Land Survey System section that the well is located in.

Liability Notice

Reliance on information in Report: The Physical Setting Report (PSR) DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a review of environmental databases and physical characteristics for the site or adjacent properties.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. STATEMENT OF LIMITATIONS AND PROFESSIONAL CERTIFICATION

The information provided in this Subsurface Investigation Report prepared by Professional Service Industries, Inc. (PSI), Project Number 575-1604, is intended exclusively for the evaluation of soil and groundwater, as it pertains to the subject property in South San Francisco, California at the time the activities were conducted. No unnamed third party shall have the right to rely on this report without the express written consent of PSI. The professional services provided have been performed in accordance with practices generally accepted by other environmental professionals, geologists, hydrologists, hydrogeologists, engineers, and environmental scientists practicing in this field. No other warranty, either expressed or implied, is made. As with all subsurface investigations, there is no guarantee that the work conducted has identified any and all sources or locations of hazardous substances or chemicals in the soil vapor.

Professional Service Industries, Inc.

Kassandra O. Idowu
Staff Environmental Scientist

Frank Poss
Department Manager
Principal Consultant

1.0 INTRODUCTION

Professional Service Industries, Inc. (PSI) was retained by Hisense Reus LLC to perform a subsurface investigation for the possible environmental impact to the subsurface at the subject property.

1.1 SITE DESCRIPTION AND BACKGROUND

The site is undeveloped land located on the south side of Railroad Avenue, between S. Linden Avenue and S. Spruce Avenue, in South San Francisco, California (Figure 1). The subject property consists of a narrow property that was a former railroad right of way and totals 2.25 acres. Previous sampling was conducted on the property with 25 soil samples collected from 0.5 feet below ground surface. All the soil samples were analyzed for lead and arsenic, four samples were analyzed for nine metals, thirteen samples were analyzed for pesticides, and three samples were analyzed for polynuclear aromatic hydrocarbons (PAHs). None of the pesticides, PAHs, or metals, other than lead, had concentrations greater than their Environmental Screening Level (ESL). Lead was found in three of the 25 soil samples above the ESL. Additionally, six soil samples had lead concentrations greater than the screening criteria of ten times the soluble threshold limit concentration (STLC). These samples would typically be analyzed for soluble lead using a Waste Extraction Test (WET) to determine whether the soluble lead concentration was hazardous and would require disposal as a hazardous waste once designated as a waste. It does not appear that a WET was conducted on the samples above the ten times screening criteria.

Based on a quarterly groundwater report for a site, approximately 100 feet east of the subject property (former Praxair), groundwater is approximately 6 to 8 feet below ground surface (bgs).

Hisense requested this subsurface investigation to attempt to collect the following information.

- Lateral and Vertical Extent of Lead Impact, if present.
- Additional evaluation of other possible contaminants.
- Evaluate groundwater for potential impact.

2.0 SUBSURFACE INVESTIGATION

On January 8 and 9, 2020, borings B1 through B25 were drilled at the subject property by Environmental Control Associates, Inc. of Aptos, California using a Geoprobe drill rig. The borings were located across the subject property in the area where previous sampling occurred. All soil borings were drilled to 4-foot bgs with four borings scheduled to be advanced to 15 feet bgs for collection of groundwater samples. Due to drill refusal, numerous borings were advanced beyond 4 feet bgs to attempt to collect groundwater samples with borings B-1, B-5, and B-12 identified as having groundwater. Additionally, boring B-16 was drilled only to two feet bgs, due to drill refusal. The locations of the borings are presented in Figure 2.

Prior to drilling, a drilling permit was obtained from San Mateo County Department of Environmental Health (SMCEH). A copy of the permit is included in Appendix A. Additionally, the boring locations were marked in white paint and Underground Service Alert was contacted a minimum of 48 hours prior to drilling. Additionally, a private utility company was also utilized to clear the borings.

Soil samples were logged for lithologic and environmental evaluation in general accordance with the Unified Soil Classification System. The subsurface soil observed to the total depth explored of 4 feet bgs during drilling activities consisted generally of clay in borings B-1 through B-7; interlayered clay, silts and, gravel in borings B-8 through B-17; and clay or silt underlain by sand in borings B-18 through B-24. It should be noted that in boring B-15, the one-foot sample appeared not to be soil, but a cementitious product. Groundwater was encountered between 5 and 8 feet bgs with some borings drilled below 8 feet bgs did not encounter groundwater.

A photoionization detector (PID) was used to field-screen the soil samples for possible petroleum hydrocarbon impact. No visual or olfactory evidence of petroleum hydrocarbon impact was noted, and all PID concentrations were below the detection limit of 1 part per million (ppm). At the completion of the drilling, the soil borings were backfilled with cement grout according to SMCEH guidelines. The boring logs are presented in Appendix B.

Borings B-1, B-5 and B-12 were advanced below 4-foot bgs to allow for the collection of a groundwater sample. At the completed depth, temporary well casing was installed in the open boring consisting of threaded 0.75-inch diameter, Schedule 40 PVC casing with 0.010-inch machine-slotted screen, and a threaded end cap at the bottom. The temporary well was used as a conduit for the collection of groundwater from the borings. Prior to groundwater sampling, the depth to groundwater in each of the temporary wells was measured from the top of the well casing. For boring B-5, the casing was left in overnight to allow groundwater to enter the boring.

New polyethylene tubing was lowered through the casing down to the groundwater and groundwater samples were collected using a ball valve, forcing groundwater upward to the

surface. Groundwater was discharged from the tubing directly into new laboratory-supplied vials and bottles, allowing the discharge to flow gently down the inside of the sample containers with minimal turbulence. The containers were filled, capped, labeled, logged on a chain-of custody form, and placed in a chilled ice chest pending delivery to the laboratory for analysis. New tubing was used at each well.

Once a sample was collected, it was logged on a chain-of custody form, labeled, and placed into a chilled ice chest pending delivery to the analytical laboratory. The samples were delivered to the laboratory within 48-hours of collection. All groundwater samples collected were transported to SunStar Laboratories (SunStar), a State of California certified lab, under strict COC protocol.

At the completion of groundwater sampling, the temporary monitoring well casing was removed and the boring(s) abandoned with cement grout. Fieldwork for drilling and groundwater sampling activities were conducted in general accordance with the field procedures described in Appendix C.

3.0 LABORATORY ANALYSIS RESULTS AND DISCUSSION

The soil and groundwater samples were submitted for analysis to SunStar Laboratories, Inc. of Lake Forest, California, a State of California DHS-ELAP certified environmental analytical laboratory. A summary of the laboratory results for the soil and groundwater samples are presented in Tables 1 through 4 with analytical results and chain-of-custody records presented in Appendix D. All soil samples were analyzed for lead according to EPA Method 6010. Additionally, the one-foot soil samples from borings B-6, B-11, B-15, and B-25 were analyzed for the following:

- Total Petroleum Hydrocarbon - Speciation according to EPA Method 8015M.
- Volatile Organic Compounds (VOCs) according to EPA Method 8260.
- PAHs according to EPA Method 8270.
- CAM Metals (17 Metals) according to EPA Method 6010.
- Chlorinated Pesticides according to EPA Method 8081.
- Polychlorinated Biphenyls (PCBs) according to EPA Method 8082.

All groundwater samples were analyzed for the following:

- TPH-S according to EPA Method 8015M.
- VOCs according to EPA Method 8260.
- CAM Metals (17 Metals) according to EPA Method 6010.

3.1 SOIL SAMPLE RESULTS

The following are the results of the soil analysis:

- Total Petroleum Hydrocarbons as Gasoline (TPH-G), TPH as Motor Oil (TPH-MO), VOCs, PAHs, Chlorinated Pesticides, and PCBs were not detected at or above the laboratory reporting limit in all of the soil samples.
- TPH as Diesel (TPH-D) was detected in two soil samples at concentrations of 12 and 14 milligrams per kilogram (mg/kg). The TPH-D concentration was compared to the residential Bay Area Regional Water Quality Control Board Environmental Screening Level (ESL-R) for TPH-D of 260 mg/kg. Both soil sample concentrations were considerably below the ESL-R.
- CAM Metals (CAM 17) were detected in each of the soil samples collected for CAM 17. All of the detected metal concentrations were found at what appears to be background concentrations, with the exception of lead. Elevated lead concentrations were found in

numerous soil samples at concentrations above the ESL-R. Additionally, vanadium and arsenic were found at concentrations above the ESL-R. However, these concentrations appear to be background concentrations that do not warrant additional investigation.

The laboratory results indicate that total lead concentrations are elevated. Due to the elevated concentrations of lead, the results of the soil analyses were compared to California Code of Regulations Title 22 List of Inorganic, Persistent, and Bioaccumulative Toxic Substances and their soluble threshold limit concentrations (STLC) and total threshold limit concentrations (TTLC) values. One soil sample (B-15-1) had a total lead concentration greater than the TTLC of 1,000 mg/kg. To determine whether the soil represented by this sample is a State of California (non-RCRA waste) or a Federal RCRA Waste, a Toxicity Characteristic Leaching Potential (TCLP) was performed. The results of the testing indicated that the soluble lead concentration was above the TCLP criteria, therefore, the soil represented by this sample would be classified as a Federal RCRA hazardous waste upon excavation and classification as a waste material.

Total lead concentrations were then compared to the screening criteria of ten times the STLC of 5 milligrams per liter (mg/L). Numerous soil samples had total lead concentrations greater than the screening criteria of ten times the STLC but were below the TTLC. A waste extraction test (WET) was performed on those samples to determine their soluble lead concentration. Five of these soil samples (B-23-1, B-24-1, B-24-2, B-25-1, and B-25-2) had a soluble lead concentration greater than the STLC after a WET. To determine whether the soil represented by these soil sample is a non-RCRA waste or a Federal RCRA waste, a TCLP was performed. The results of the testing indicated that the soluble lead concentration were all below the TCLP criteria, therefore, the soil represented by these samples would be classified a State of California Non-RCRA waste upon excavation and classification as a waste material.

3.2 DISCUSSION

The contaminant of concern as identified in the analyses of the soil samples at the subject property is lead. Lead concentrations above the California Non-RCRA waste criteria upon excavation and classification as a waste material were found in soil samples B-23-1, B-24-1, B-24-2, B-25-1, and B-25-2. These elevated lead concentrations were found in borings B-23 through B-25 on the far western end of the subject property. The 4-foot samples collected in each of these borings did not have elevated lead concentrations, while the 2-foot sample collected in boring B-23 did not have elevated lead concentrations. The soil identified as a Non-RCRA waste appears to be confined to the upper two feet on the far western portion of the subject property. Figure 3 depicts the area of lead-impacted Non-RCRA soil. PSI estimated the volume of Non-RCRA soil to be removed using a bulking factor of 1.2. The volume of Non-RCRA soil was estimated to be approximately 425 cubic yards.

Lead concentrations above the Federal RCRA Waste criteria upon excavation and classification as a waste material were found only in soil sample B-15-1. The 2 and 4-foot samples collected from this boring did not have elevated lead concentrations. The soil identified as a Federal RCRA waste appears to be confined to the upper one foot in this area of the subject property. Figure 3 depicts the area of lead-impacted Federal RCRA soil. PSI estimated the volume of Federal RCRA soil to be removed using a bulking factor of 1.2. The volume of Federal RCRA soil was estimated to be approximately 160 cubic yards.

Further investigation in the area of boring B-15 and borings B-23 through B-25 could reduce the volume of soil that would be considered to be a Federal RCRA or Non-RCRA hazardous waste. This is especially true in the area of B-15, as the one-foot sample with the elevated lead concentrations did not appear to be similar to the rest of the soil found across the subject property. There is the possibility that the Federal RCRA waste maybe confined to a small area localized around boring B-15

3.3 GROUNDWATER SAMPLE RESULTS

The following are the results of the groundwater analysis:

- TPH-G and VOCs were not detected at or above the laboratory reporting limit in all of the groundwater samples.
- TPH-D was detected in two groundwater samples at concentrations of 0.089 and 0.14 milligrams per kilogram (mg/L). The TPH-D concentrations were compared to the ESL-R for TPH-D of 0.26 mg/L. Both sample concentrations were below the ESL-R.
- TPH-MO was detected in two groundwater samples at concentrations of 0.59 and 0.3 mg/L. TPH-MO does not have an ESL-R. The TPH-MO concentrations do not represent an environmental concern.
- Metals were detected in each of the groundwater samples with concentrations greater than the ESL-R. However, the sample results are believed to be elevated due to the sampling methodology of sampling from an open borehole. Additionally, as all 4-foot soil samples appeared to have background metal concentrations, there is no indication that the metal concentrations detected are due to a release at the subject property. The metal concentrations do not represent an environmental concern.

4.0 SUMMARY & CONCLUSIONS

The results of the testing completed in January 2020 are summarized below.

- Soil samples were analyzed for TPH-S, VOCs, PAHs, chlorinated pesticides, PCBs, and metals. The only contaminant of concern was found to be lead.

- Soluble lead concentrations were found to be above the STLC, but below the TCLP waste criteria in five soil samples. The soil represented by these samples would be classified as a State of California Non-RCRA waste upon excavation and classification as a waste material. The soil identified as a Non-RCRA waste appears to be confined to the upper two feet on the far western portion of the subject property. PSI estimated the volume of Non-RCRA soil to be approximately 425 cubic yards.

- Total lead concentrations were found to be above the TTLC and the TCLP waste criteria in one soil sample (B-15-1). The soil represented by this sample would be classified a Federal RCRA waste upon excavation and classification as a waste material. The soil identified as a Federal RCRA waste appears to be confined to the upper one foot. PSI estimated the volume of Non-RCRA soil to be approximately 160 cubic yards.

- PSI believes further investigation in the area of boring B-15 and borings B-23 through B-25 could reduce the volume of soil that would be considered to be a Federal RCRA or Non-RCRA hazardous waste. This is especially true in the area of B-15, as the one-foot sample with the elevated lead concentrations did not appear to be similar to the rest of the soil found across the subject property.

- The groundwater samples were analyzed for VOCs, metals, and TPH-S. The results of the groundwater analyses did not represent an environmental concern.

It appears that this investigation has defined the lateral and vertical extent of lead impacted soil. Additional sampling may reduce the volume of estimated soil that may need to be removed as hazardous waste.

Address: 4703 Tidewater, Suite B City, State, Zip: Oakland, CA 94601
Telephone: 510-434-9200 Email: frank.poss@intertek.com
Field Contact & Cell # (if known): Zach Jaco 510-306-5717

I certify that this application is correct to the best of my knowledge and the well/boring will be constructed/destroyed in compliance with the conditions of this permit (see reverse), the San Mateo County Well Ordinance, and the State Water Well Standards. I understand that I am responsible for General Conditions E, F, K, and L of this permit and if I indicated the purpose of drilling is geotechnical, then no one will use the boring to collect any samples for environmental analyses. If there is a change in Responsible Professional, I will notify San Mateo County GPP staff.
Responsible Professional's Name (Please print legibly): Brand Burfield
Responsible Professional's Signature: ____ Date: 12/20/19
California Professional Geologist (PG) No. 6986 or Civil Engineer (PE) No. ____

REV. 09/2018

FA67246

SUBSURFACE DRILLING PERMIT APPLICATION

REQUIREMENTS:

An accurate and correct map **must** be submitted with the application and include the following: north arrow, existing and historic site features, existing and proposed well/boring locations with ID's to scale, property lines and any other pertinent information. A work plan describing the drilling and construction/destruction methodology may be requested by County staff. A complete application with appropriate fees must be submitted 3 working days in advance of drilling and notification of start date and time must be provided at least 2 working days prior to drilling. The permit is subject to both General and Special Conditions stated below. A copy of the approved Subsurface Drilling Permit **must** be available on site while work related to the permit is being performed. **Drilling may begin at the notified date and time whether County staff is present or not.**

GENERAL CONDITIONS:

A. Field notification must be provided to GPP drilling inspection staff at least 2 full working days prior to the start of drilling. GPP Caseworker also must be notified if site is associated with a remedial action case.

B. Well and boring construction and destruction under this permit are subject to the Standards for the Construction of Wells in San Mateo County, County Groundwater Protection Program (GPP) Guidelines, Policies & Procedures, the State Water Well Standards, and any instructions by a Health Department representative.

C. Well/Boring Owner, Driller, and Responsible Professional assume responsibility for all activities and uses under the permit, including compliance with Workmen's Compensation Laws, and indemnify, defend and save the County of San Mateo, its officers, agents and employees, free and harmless from any and all expense, cost, or liability in connection with or resulting from work or stopped-work associated with the permit, including, but not limited to, property damage, personal injury, wrongful death, and loss of income.

D. All borings **must** be properly destroyed (grouted/sealed) within 24 hours of drilling, unless special conditions are approved beforehand in writing as part of this permit, and must be continuously protected and stabilized.

E. Analytical results of all soil, vapor, and groundwater samples collected during the execution of drilling under this permit **must** be submitted to County GPP staff by the Responsible Professional within 60 days of sample collection. If contamination is discovered during drilling, verbal notification to County GPP by the Responsible Professional is **required** within 72 hours of discovery. Proper storage, labeling & disposal of investigation-derived residual wastes are the responsibility of the consultant unless stated otherwise contractually.

F. Boring logs, well construction details, and finalized as-built location map for all borings/ wells (except geotechnical borings) signed by a Responsible Professional, **must** be submitted to County GPP by the Responsible Professional within 60 days of drilling/construction/destruction. DWR Form 188 must be filed with the State per water code 13752.

G. Permit is valid only for the purpose specified herein. No change in purpose or required procedures, as described on this permit application, in the associated workplan, or in the special conditions below, will be allowed except upon written permission from the County. Construction aspects can be changed based on conditions encountered in the field.

H. **Permit is valid for one mobilization** associated with originally permitted boring/well locations only, including contingency locations, and is automatically canceled if not exercised, or if an extension is not applied for and granted within 120 days of the original permit issuance date. Failure to notify staff of cancellation or delay in start time will result in the Consultant being billed an Inspection Cancellation fee if GPP staff attempted to perform an inspection. Fees are listed at smchealth.org/ehfees

I. Wells installed under this permit may not be used for domestic, municipal, agricultural, or irrigation water supply.

J. All work performed **must** conform to Business and Profession Codes and State Water Well Standards.

K. Top-of-casing elevation of all wells **must** be surveyed to the nearest 0.01-foot relative to Mean Sea Level or NAVD88 and submitted to County GPP within 60 days of drilling, and to State GeoTracker as appropriate. Geotechnical wells are exempt from this requirement if a written variance from GPP is obtained prior to drilling.

L. Latitude and longitude of all wells **must** be surveyed with sub-meter accuracy relative to NAD83 and submitted to County GPP within 60 days of drilling, and to State GeoTracker as appropriate.

M. Violation of any requirement or general or special permit condition may result in an order by GPP staff to cease work under this permit, correct the violation, potentially re-permit the work as a new mobilization, and potential actions may be taken against the Well Owner, Property Owner, or Responsible Professional by GPP.

Drilling Company: Environmental Control Associates (ECA) Contact Person: Tim Tyler
Address: 3011 Twin Palms Drive City, State, Zip: Aptos, CA 95003
Telephone: 916-417-6858 Email: tbtyler@sbcglobal.net C57 Drillers License # 695970

I certify that the well/boring will be constructed in compliance with the conditions of this permit (see reverse), the San Mateo County Well Ordinance, and the State Water Well Standards, and that the license listed above is considered current and active by the Contractors State License Board.

Driller's Signature: [signature] For ECA Date: 12/19/2019

CONSULTANT COMPANY

Consultant Company: Intertek-PSI Project Manager: Frank Poss
Address: 4703 Tidewater, Suite B City, State, Zip: Oakland, CA 94601
Telephone: 510-434-9200 Email: frank.poss@intertek.com
Field Contact & Cell # (if known): Zach Jaco 510-306-5717

I certify that this application is correct to the best of my knowledge and the well/boring will be constructed/destroyed in compliance with the conditions of this permit (see reverse), the San Mateo County Well Ordinance, and the State Water Well Standards. I understand that I am responsible for General Conditions E, F, K, and L of this permit and if I indicated the purpose of drilling is geotechnical, then no one will use the boring to collect any samples for environmental analyses. If there is a change in Responsible Professional, I will notify San Mateo County GPP staff.

BORING LOGS

SOIL BORING LOG

BORING NO:	**B-1**
SHEET	**1** OF **1**

CLIENT NAME: Hisense

PROJECT LOCATION: Linden St. and Railroad Ave., South San Francisco, California

PROJECT NUMBER: 575-1604 DATE: January 8, 2020

DRILLING COMPANY: Environmental Control Associates, Inc

DRILLING METHOD: Direct Push (Geoprobe DT22)

GROUNDWATER LEVELS

DATE	COMMENTS	DEPTH BGS
1/9/2020	Initial; during drilling	8 ft.
	Re-drill, not logged, but noted.	

DEPTH (FEET)	SAMPLE NO.	SAMPLE INTERVAL	DESCRIPTION	PID (ppm)	REMARKS
1	B-1-1'		Sandy **CLAY** (CL), dark brown, moist, fine to medium sand, trace fine to coarse gravel, trace organics, (FILL)	0.0	Top soil
2	B-1-2'		Gravelly **CLAY** (CL), dark brown to brown, moist, fine to coarse gravel, (FILL)	0.0	
3					
4	B-1-4'			0.0	
5			End of boring at 4 1/2 feet. Groundwater not encountered in first logged hole. Groundwater encountered in the second hole around 8'. Both holes backfilled with cement.		This hole was re-drilled the next day for the purpose of finding GW. GW was found around 8', and the total depth drilled was around 8'.

APPENDIX C

SAMPLE PROTOCOL

FIELD PROCEDURES

I. SOIL BORINGS AND COLLECTION OF SOIL AND GROUNDWATER SAMPLES

1. Prior to the commencement of soil boring activities at the site, boring locations were marked on the ground with white paint. Underground Service Alert (USA) was contacted to identify underground utilities in the vicinity of the soil borings.

2. A State of California-licensed drilling company conducted soil boring and sampling activities. The soil borings were advanced using the Geoprobe direct push method. Flush-threaded rods with a stainless steel sampler were advanced into the ground using a hydraulic percussion hammer.

3. Soil samples were collected using a 4-foot long, 2-inch inside diameter, macro-core stainless steel sampler. Soil samplers were washed between borings with Alconox soap followed by two deionized water rinses. The sampler was lined with clean acetate sleeves.

4. After the sampler was retrieved, the sleeves were extracted from the sampler without disturbing the sample.

5. Boring logs were prepared under the supervision of a California-Registered Geologist. Soil from each sample was described in accordance with Unified Soil Classification System by a PSI geologist and recorded on a field-boring log. The data recorded on the logs were based on examination of soil samples retrieved in the tubes, and drilling conditions observed in the field. Boring logs include information regarding the location of each boring, geologic descriptions of materials encountered, occurrence of groundwater and photoionization detector (PID) measurements of the soil samples collected (if applicable).

6. Groundwater samples were collected from the borings using disposable polyethylene tubing lowered through either the drill rods or through 1-inch diameter, slotted PVC casing.

7. Groundwater samples were collected into preserved containers using positive displacement and a check valve in the tubing.

8. Following groundwater sample collection, the samples were labeled, logged on a chain-of-custody record, placed in an ice-chilled cooler and transported to the environmental laboratory for analysis. Sample containers and preservatives were utilized as instructed by the analytical laboratory. All transportation and handling of the groundwater samples followed chain-of-custody protocol.

II FIELD DOCUMENTATION OF SAMPLING PROCEDURES

The following outline describes the procedures followed by PSI for proper sampling documentation.

1. Sampling procedures were documented in field notes that will contain:

    1. Sample collection procedures
    2. Date and time of collection
    3. Date of shipping
    4. Sample collection location
    5. Sample identification number(s)
    6. Intended analysis
    7. Quality control samples
    8. Sample preservation
    9. Name of sampler
    10. Any pertinent observations

2. Samples were labeled with the following information:

    1. Sample number
    2. Well number
    3. Date and time sample was collected
    4. Sampler's name
    5. Sample preservatives (if required)
    6. Project Number

3. The following is the sample designation system for the site:

    For Borings, the samples were labeled B-(Boring Number)-(Depth) (i.e. a sample collected from boring 4 at 5 feet would be B-4-5')

4. Handling of the samples was recorded on a chain of custody form, which included:

    1. Site name
    2. Signature of collector
    3. Date and time of collection
    4. Sample identification number
    5. Number of containers in sample set
    6. Description of sample and container
    7. Name and signature of persons, and the companies or agencies they represent, who are involved in the chain of possession

8. Inclusive dates and times of possession
9. Analyses to be completed

Notes and Definitions

S-MS	Surrogate recovery outside of acceptance window confirmed as matrix effect by analysis of MS/MSD on this sample.
SGEL	Sample extract was cleaned up with silica gel prior to analysis.
RE-01	Sample contained analytes with concentrations above calibration limits and was rerun at a dilution.
R-07	Reporting limit for this compound(s) has been raised to account for dilution necessary due to high levels of interfering compound(s) and/or matrix affect.
QM-13	Spike recovery for this analyte was bias high in the LCS and/or MS/MSD. Instrument blank, method blank and all samples were ND. No negative impact on data is expected.
QM-06	Due to noted non-homogeneity of the QC sample matrix, the MS/MSD did not provide reliable results for accuracy and precision. Sample results for the QC batch were accepted based on LCS/LCSD percent recoveries and RPD values.
QM-05	The spike recovery was outside acceptance limits for the MS and/or MSD due to possible matrix interference. The LCS was within acceptance criteria. The data is acceptable as no negative impact on data is expected.
QM-01	The % recovery is outside of established control limits due to matrix interference and/or sample dilution due to matrix effect. The batch was accepted based on acceptable LCS recovery.
C-06	Presence of analyte in sample suspected as common laboratory contaminant, which was also found in the method blank.
B-03	Analyte present in blank due to being a common laboratory contaminant.
DET	Analyte DETECTED
ND	Analyte NOT DETECTED at or above the reporting limit
NR	Not Reported
dry	Sample results reported on a dry weight basis
RPD	Relative Percent Difference

Notes and Definitions

QM-05	The spike recovery was outside acceptance limits for the MS and/or MSD due to possible matrix interference. The LCS was within acceptance criteria. The data is acceptable as no negative impact on data is expected.
DET	Analyte DETECTED
ND	Analyte NOT DETECTED at or above the reporting limit
NR	Not Reported
dry	Sample results reported on a dry weight basis
RPD	Relative Percent Difference

USER QUESTIONNAIRE

Pursuant to ASTM E1527, ASTM E2600, and the EPA All Appropriate Inquiry Rule, the User of the report must answer specific questions regarding the property and supply this information to the Environmental Professional. While we understand that you may have only limited knowledge of the property, please answer the questions to the best of your ability based on your current knowledge, and return the completed questionnaire to PSI.

Phase I ESA Questions

1. Did a review of land title records (or judicial records where appropriate) identify any environmental cleanup liens filed or recorded against the subject property under federal, tribal, state or local law?
   ☑ No ☐ Yes ☐ Unknown (if yes, please briefly discuss on the next page or as an attachment)

2. Did a review of land title records (or judicial records where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded in a registry under federal, tribal, state, or local law?
   ☑ No ☐ Yes ☐ Unknown (if yes, please briefly discuss on the next page or as an attachment)

3. Do you have any specialized knowledge or experience related to the subject property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?
   ☑ No ☐ Yes (if yes, please briefly discuss on the next page or as an attachment)

4. Does the purchase price being paid reasonably reflect the fair market value of the subject property?
   ☐ No ☑ Yes ☐ Not Applicable

   <u>If you conclude that there is a difference</u>, have you considered whether the lower purchase price is because contamination is known or believed to be present at the subject property?
   ☐ No ☐ Yes ☐ Not Applicable (if yes, please briefly discuss on the next page or as an attachment)

5. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:
   (a) Do you know of the past uses of the subject property?
   ☐ No ☑ Yes (if yes, please briefly discuss on the next page or as an attachment)
   (b) Do you know of specific chemicals that are present or were once present at the subject property?
   ☑ No ☐ Yes (if yes, please briefly discuss on the next page or as an attachment)
   (c) Do you know of spills or other chemical releases that have taken place at the subject property?
   ☑ No ☐ Yes (if yes, please briefly discuss on the next page or as an attachment)
   (d) Do you know of any environmental cleanups that have taken place at the subject property?
   ☑ No ☐ Yes (if yes, please briefly discuss on the next page or as an attachment)

6. Based on your knowledge and experience related to the subject property are there any obvious indicators that point to the presence or likely presence of contamination at the subject property?
   ☑ No ☐ Yes (if yes, please briefly discuss on the next page or as an attachment)

7. Do you know of any pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property? ☑ No ☐ Yes (if yes, please briefly discuss on the next page or as an attachment)

8. Do you know of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?
   ☑ No ☐ Yes (if yes, please briefly discuss below or as an attachment)

Further Explain any Answers Requiring Clarification: _____

Vapor Encroachment Screening Questions

1. Currently, what type of property is the subject property?
   ☐ Commercial ☐ Industrial ☑ Residential ☐ Multi-Tenant ☐ Vacant Land

2. Are there buildings on the subject property?
   ☐ Yes ☑ No ☐ Unknown (if **yes**, indicate number and construction type):
   _____

3. Will buildings or structures be constructed on the subject property in the future?
   ☑ Yes ☐ No ☐ Unknown (if **yes**, indicate number and construction type)
   _____

4. If buildings exist or are proposed, do/will they have elevators?
   ☐ Yes ☑ No ☐ Unknown

5. What type of below-grade level exists or is proposed?
   ☐ Full/Partial Basement ☐ Crawl Space ☐ Parking Garage ☐ Multi-Level
   ☑ None/Unknown (if **none/unknown**, skip to question 11)

6. Is there ventilation currently/proposed in the below-grade level?
   ☐ Yes ☐ No ☐ Unknown

7. Are there sump pumps, floor drains or trenches existing or proposed in the below-grade level?
   ☐ Yes ☐ No ☐ Unknown

8. Is there a radon or methane mitigation system installed or proposed?
   ☐ Yes ☐ No ☐ Unknown (If **yes**, please indicate if passive or active):_____

9. What type of heating system exists or is proposed in the building? (check all that apply)
   ☐ Hot Air Circulation ☐ Hot Air Radiation ☐ Hot Water Radiation
   ☐ Hot Water Circulation ☐ Fireplace ☐ Radiant Floor Heat ☐ Fuel Oil Furnace
   ☐ Electric Baseboard ☐ Heat Pump ☐ Wood Stove ☐ Steam Radiation
   ☐ Coal Furnace ☐ Kerosene Heater ☐ Used Oil Heater ☐ Natural Gas Furnace
   ☐ Other

10. How are the utility systems fueled/powered or proposed to be fueled/powered? (check all that apply)
    ☐ Natural Gas ☐ Propane ☐ Kerosene ☐ Coal ☐ Wood ☐ Electricity
    ☐ Fuel Oil ☐ Solar ☐ Wind ☐ Other

11. Have there ever been any environmental problems at the subject property?
    ☐ Yes ☑ No ☐ Unknown (if **yes**, please describe)

12. Does/will a gas station or dry cleaner operate anywhere on the subject property?
    ☐ Yes ☑ No ☐ Unknown

13. Do/will any of the tenants use hazardous chemicals in relatively large quantities on the subject property?
☐ Yes ☑ No ☐ Unknown

14. Have any tenants ever complained about odors in the building or experienced health-related problems that may have been associated with the building?

☐ Yes ☑ No ☐ Unknown

15. Are the current or proposed operations on the subject property going to require/require special OSHA or EPA permitting?
☐ Yes ☑ No ☐ Unknown

16. Are there any existing or proposed underground or aboveground storage tanks (ASTs/USTs) on the subject property?
☐ Yes ☑ No ☐ Unknown (if **yes**, please describe)

17. Are there sensitive receptors (for example: children, elderly, people in poor health, and so forth) that occupy or will occupy the subject property?
☐ Yes ☑ No ☐ Unknown

Further Explain any Answers Requiring Clarification: _____

Helpful Documents Checklist

Pursuant to ASTM E 1527 §10.8, do you know whether any of the following documents exist related to the subject property, and if so, whether copies will be provided to PSI for review? If so, please submit such documentation to PSI as soon as practical. Please check all that apply.

☐ Environmental site assessment or investigation reports (for example: Phase I/II ESAs, RBCA corrective action reports, or self-directed or other cleanup activity reports)
☐ Environmental compliance audit reports; or risk assessments
☐ Environmental permits or hazardous waste generation notices or reports
☐ Registrations for above or underground storage tanks, or underground injection systems
☐ Safety data sheets (formerly known as Material Safety Data Sheets or MSDSs)
☐ Community right-to-know plans; safety plans; preparedness and prevention plans; spill prevention, countermeasure and control (SPCC) plans; etc.
☐ Notices or other correspondence from any governmental agency relating to past or current violations of environmental laws with respect to the property or relating to environmental liens on the property
☐ Geotechnical studies; or reports regarding hydrogeologic conditions on the property or vicinity
☐ Recorded environmental liens or activity and land use limitations (collectively, Property Use Limitations)

HISTORICAL DOCUMENTATION: TOPOGRAPHIC MAPS

TOPOGRAPHIC MAPS

Project Property:	Former Railroad Right of Way Railroad Avenue South San Francisco CA 94080
Project No:	575-2660
Requested By:	Intertek PSI
Order No:	24031802016
Date Completed:	March 19, 2024

Environmental Risk Information Services
A division of Glacier Media Inc.
1.866.517.5204 | info@erisinfo.com | erisinfo.com

We have searched USGS collections of current topographic maps and historical topographic maps for the project property. Below is a list of maps found for the project property and adjacent area. Maps are from 7.5 and 15 minute topographic map series, if available.

Year	Map Series
1892	15
1896	15
1899	15
1915	15
1939	15
1943	15
1947	7.5
1950	7.5
1956	7.5
1968	7.5
1973	7.5
1980	7.5
1995	7.5
1996	7.5
2015	7.5
2018	7.5
2021	7.5

Topographic Map Symbology for the maps may be available in the following documents:

RE: CITY DIRECTORY RESEARCH
Railroad Avenue
South San Francisco,CA 94080

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
200-500 of N Canal St
200-500 of Railroad Ave
0-35 of S Linden Ave

HISTORICAL DOCUMENTATION: FIRE INSURANCE MAPS

FIRE INSURANCE MAPS

Project Property:	Former Railroad Right of Way Railroad Avenue South San Francisco CA 94080
Project No:	575-2660
Requested By:	Intertek PSI
Order No:	24031802016
Date Completed:	March 19, 2024

Environmental Risk Information Services
A division of Glacier Media Inc.
1.866.517.5204 | info@erisinfo.com | erisinfo.com

Listed below, please find the results of our search for historic fire insurance maps from our in-house collection, performed in conjuction with your ERIS report.

Date	City	State	Volume	Sheet Number(s)
1899	Baden	California		4
1905	Baden	California		5
1910	South San Francisco	California		1, 6, 7, 8
1925	South San Francisco	California		6, 7, 8, 9
1950	South San Francisco	California		29, 6, 7, 8, 9
1956	South San Francisco	California		29, 37, 6, 7, 8, 9
1970	South San Francisco	California		29, 37, 6, 7, 8, 9

Individual Fire Insurance Maps for the subject property and/or adjacent sites are included with the ERIS environmental database report to be used for research purposes only and cannot be resold for any other commercial uses other than for use in a Phase I environmental assessment.

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Violations

Violation Date: 04/11/2017
Violation Program: HMRRP
Violation Source: CERS
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 05/05/2017. Notify property owner that facility is subject to HMBP reporting requirement. If the Property owner requests a copy, facility needs to supply a copy in 5 days.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

Violations

Violation Date: 11/15/2021
Violation Program: HW
Violation Source: CERS
Violation Division: San Mateo County Environmental Health
Citation: 22 CCR 18 66268.7(a) - California Code of Regulations, Title 22, Chapter 18, Section(s) 66268.7(a)
Violation Notes:

Returned to compliance on 11/15/2021. LDR for manifest #013949801 was unavailable. Provide missing LDR to the inspector within the comply by date.

Violation Description:

Failure to determine if the waste has to be treated before it can be land disposed and retain the documentation at least three years from the date that the waste was last sent to on-site or off-site treatment, storage, or disposal.

EI ID: 10071565 **EI Description:** Hazardous Waste Generator

EI ID: 10071565 **EI Description:** RCRA LQ HW Generator

Violations

Violation Date: 05/24/2017 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 06/23/2017.

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violations

Violation Date: 05/24/2017 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 06/23/2017. Notify property owner that facility is subject to HMBP reporting requirement.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 23 66273.36 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.36
Violation Notes:

Returned to compliance on 04/26/2023. Observation: No training records indicating that universal waste specific training was available during the inspection. Referred to DTSC.

Violation Description:

Failure of universal waste handler to provide initial and/or annual refresher training for employees who manage or handle universal waste and to maintain a written record for three years of personnel who took the initial or annual training.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 23 66273.32(a) - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.32(a)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: During the time of the inspection, approximately 14,000 lbs (6350 Kg) of lead acid batteries were on site. This number only included the wrapped pallets and does not include the other batteries all over the property. Zarc Recycling possess a state EPA ID number which is insufficient for this quantity of waste. Referred to DTSC.

Violation Description:

Failure of a universal waste handler to send written notification of universal waste management to the USEPA Regional Administrator and obtain a federal ID Number prior to accumulating 5,000 kilograms or more of universal waste.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 23 66273.35 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.35
Violation Notes:

Returned to compliance on 04/26/2023. Observation: The few containers of universal waste that did have labels were all dated more than a year before the date of the inspection. This was every container in the storage unit by the retention tank. Referred to DTSC.

Violation Description:

Failure to accumulate universal waste for one year or less and to demonstrate the length of time that the universal waste has been accumulated from the date it became a waste or was received.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Notes:

Returned to compliance on 05/15/2023. Observation: The HMBP inventory was missing extremely large amount of Universal waste (many streams) Corrective action: Update HMBP with all universal waste stream that are about 500 lbs. Submit on CERS by the comply by date. Due to the nature of the facility it is understandable that it is extremely difficult to accurately report the weight of what is on site at any given moment. When addressing this violation outline the major waste streams as a separate entity and report the average amount that you believe you have on site.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 23 66273.40(a)(4) - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.40(a)(4)
Violation Notes:

Returned to compliance on 04/11/2023. Observation: Facility verbally stated that CRT's have been shipped to Japan during the inspection. No notification forms or export documentation was provided. Referred to DTSC.

Violation Description:

Failure of the universal waste handler who sends electronic devices, CRTs, and/or CRT glass to any foreign destination to comply with the following:
(1) Notify the Department 60 days prior to the intended export before any electronic devices, CRTs, and/or CRT glass are scheduled to leave the United States and cover all export activities extending over the next twelve (12) month or lesser period;
(2) Concurrently send a copy of the notification required pursuant to subsection 66273.40(a)(2)(B) of 22 CCR to the CUPA having jurisdiction over the universal waste handler's facility;
(3) sign the export notification; and
(4) include all required information in the export notification.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.35 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.35
Violation Notes:

Returned to compliance on 04/26/2023. Observation: Due to the scale of waste storage, many storage areas were not assessable during the inspection. Theses areas included battery storage and other materials that could potentially cause an issue. This also included the hazardous waste liquid marked as agave nectar. Corrective action: Provide enough space so all waste storage areas can be accessed in the event of the emergency. Provide photo prof to the inspector by the comply by date.

Violation Description:

Failure to maintain aisle space to allow the unobstructed movement of personnel, fire protection equipment, spill control equipment, and decontamination equipment to any area of facility operation in an emergency, unless aisle space is not needed for any of these purposes.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: The retention tank allows storm water to settle and discharges the effluent after water/metal separation. While there is a waste determination question on the effluent itself, the tank bottom is collected and shipped as hazardous waste. As the tank contains hazardous waste, it must be managed as such. Corrective action: Manage the tank as a hazardous waste tank. Ensure that it is properly labeled and inspected. Submit documentation to SMC Env Health by the comply by date.

Violation Description:

Failure to label stationary hazardous waste tanks as "hazardous waste" and mark with an accumulation start date.

Violations

Violation Date: 05/24/2017 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.5 25160(b)(3) - California Health and Safety Code, Chapter 6.5, Section(s) 25160(b)(3)

Violation Notes:

Returned to compliance on 06/23/2017.

Violation Description:

Failure to determine the status of any hazardous waste if a signed copy of the manifest isn't received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isn't received within 45 days of the date the waste was accepted by the initial transporter.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: No one at the facility had received hazardous waste training within the last year. While they verbally afford they were familiar with waste procedures, several violations such as labeling and accumulation limits, show that training is warranted. Corrective action: Conduct and document haz. waste training by the comply by date.

Violation Description:

Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.201(c)(5) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.201(c)(5)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: As the retention tank generates hazardous waste from the metals separation, the tank is a hazardous waste tank. No inspections have been conducted on the tanks. Corrective action: Ensure to start conducting inspections on hazardous waste tanks. Submit documentation to SMC Env Health by the comply by date.

Violation Description:

Failure to inspect hazardous waste tanks for the following, when present:
4) The construction materials of the tank at least weekly to detect corrosion or leaking of fixtures or seams.
5) The construction materials of, and the area immediately surrounding, discharge confinement structures (e.g., dikes) at least weekly to detect erosion or obvious signs of leakage (e.g., wet spots or dead vegetation).

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 23 66273.34 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.34
Violation Notes:

Returned to compliance on 04/26/2023. Observation: Almost every container of universal waste in the facility did not have a proper label. There were a few exceptions to this, however a label must be kept on every container of universal waste. Referred to DTSC.

Violation Description:

Failure to label or mark each individual or container or the designated area of universal waste as required. 1) Waste batteries shall be marked with "Universal Waste-Battery(ies)". 2) Mercury containing equipment shall be marked with "Universal Waste -Mercury-Containing Equipment". 3) Lamps shall be marked with "Universal Waste-Lamp(s)". 4)Each electronic devices or the container or the designated area shall be marked with "Universal Waste-Electronic Device(s)". 5) Each CRTs or the container or the designated area shall be marked with "Universal Waste-CRT(s)". 6) CRT glass or the designated area shall be marked with "Universal Waste-CRT glass".

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.5 25123.3(h)(2) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(2)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: The uniform hazardous waste manifests from 2022 were missing the designated facility signatures. Corrective action: Provide fully complete manifests from 2022 to the inspector by the comply by date. If the manifests have not been sent to you, file a manifest exception report to the DTSC by the comply by date. Ensure all manifests return copies are collected as this is your way of knowing the hazardous waste has reached its destination. It is your responsibility to notify the DTSC if the manifest have not been received.

Violation Description:

Failure to determine the status of any hazardous waste if a signed copy of the manifest isn't received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isn't received within 60 days of the date the waste was accepted by the initial transporter.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: Three drums in the shipping container that contain hazardous waste water did not have any waste labels on them. Corrective action: label all three drums has hazardous waste with a fully complete label. Hazardous waste should NEVER be labeled as food. These drums said agave nectar.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 08/03/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.201(c)(3) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.201(c)(3)
Violation Notes:

Returned to compliance on 09/12/2022. Observation: As the retention tank generates hazardous waste from the metals separation, the tank is a hazardous waste tank. No inspections have been conducted on the tanks. Corrective action: Ensure to start conducting inspections on hazardous waste tanks. Submit documentation to SMC Env Health by the comply by date.

Violation Description:

Failure to inspect hazardous waste tanks at least once each operating day for the following, when present:
(1) Discharge control equipment (e.g., waste feed cutoff systems, by-pass systems, and drainage systems) to ensure that it is in good working order;
(2) Data gathered from monitoring equipment (e.g., pressure and temperature gauges) to ensure that the tank is being operated according to its design;
(3) The level of waste in the tank.

Date of inspection: 8/3/22 Date of Report: 8/4/22 Inspectors: Carson beck and Monica Banning. Met with Randy Ly (rly4444@gmail.com) This was a re-inspection, Initial inspection completed on 6/23/22 by Carson Beck. Re inspection due to the unfamiliarity of large quantity generators of universal waste and CAR requirements. Only hazardous waste stream on site is the waste water with chromium and lead. Vast amounts of universal waste. Main streams included appliances with MRSH, batteries, Tv's and other CRT's, electronics. heaters, AC units. Facility does not accept mercury or aerosol cans.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Notes:

Facility collects variety of metal, E- waste, CRTs, cans, computer boards, ballasts, plastic bottles, etc. Used hydraulic oil is typically the only waste generated at the facility. The last pick up of used oil was in 8/2015. Facility is scheduling for oil change for the baler for 2017. Facility sweeps and washes the yard on a semi-annul basis (except during the winter of 2016/2017 due to substantial rain fall). Facility's handling location is in Brisbane, thus, the movement of UW is considered internal transport.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Date of re-inspection: 11/7/22 SMC Env Health Apollonia Helm and Carson Beck DTSC team led by Micheal Reid Zarc representative Randy Ly As there were several issues that involve large amounts of universal waste and associated requirements. Several violations were referred to the DTSC from th 8/4/22 SMC Env Health Inspection. DTSC led the inspection and followed up on listed items as well as conducted a full walk through. DTSC returning 11/8/22 for document review. Samples were taken from soils, and waste water (SW) and will be analyzed. See 8/4 report for potential haz SW issues. SMC Env Health with work with Zarc to help close out any remaining violations post DTSC report. No additional violations given from SMC Env Health.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Site History:

Sun Chemical manufactured printing ink at the site from 1927 to 1978, resulting in hazardous materials consisting of mixed inks, ink vehicles and pigments found as liquids and sludges in tanks and sumps, spillages on the main building floor, and in contaminated soil. The property was sold to Berman Corporation in 1979, who subsequently sold the property to Rental City Trucks. The property ownership was transferred to U.A. Local Pension Trust Funds in 1981.

Document Type: Land Use Restriction - Site Inspection/Visit
Date Completed: 2/23/2012
Comments: DTSC conducted its annual site visit to check the condition of the pavement over contaminated soil and to verify compliance with the restrictions and requirements of the Land Use Covenant. The surface of the pavement was in very good condition with only minor of cracking. There was no evidence of any activities prohibited by the Land Use Covenant.

Title: DTSC Annual Inspection Report
Title Link: https://www.envirostor.dtsc.ca.gov/public/final_documents2?global_id=41280103&enforcement_id=60381177
Area Name:
Area Link:
Sub Area:
Sub Area Link:
Document Type: Land Use Restriction - Site Inspection/Visit
Date Completed: 3/10/2016
Comments: DTSC staff performed annual inspection on February 11, 2016. Lead remains in soil at the site at concentrations that do not allow for unrestricted use. The lead-impacted soil is contained under the concrete pavement and buildings on the site. An area of the concrete pavement was observed during the inspection that requires repair. Also, vegetation and sediment were observed in a storm drain should be removed. Based on the inspection, DTSC concluded the selected remedial action remains protective of human health and the environment.

Potential Media Affected: SOIL
Potential Contamin of Concern:

CYANIDE (FREE)
METALS
UNCATEGORIZED

Site History:

Sun Chemical manufactured printing ink at the site from 1927 to 1978, resulting in hazardous materials consisting of mixed inks, ink vehicles and pigments found as liquids and sludges in tanks and sumps, spillages on the main building floor, and in contaminated soil. The property was sold to Berman Corporation in 1979, who subsequently sold the property to Rental City Trucks. The property ownership was transferred to U.A. Local Pension Trust Funds in 1981.

Sub Area Link:
Document Type: Five-Year Review Reports
Date Completed: 12/14/2016
Comments: DTSC personnel conducted a site inspection on February 11, 2016 as part of the Five-Year Review, which was performed because contaminated soil remains on the Site above levels that would allow for unrestricted land use. Based on site conditions observed during the site inspection, DTSC concluded that the selected remedy for the Site remains protective of human health and the environment.

Title: DTSC Annual Inspection Report
Title Link: https://www.envirostor.dtsc.ca.gov/public/final_documents2?global_id=41280103&enforcement_id=60381177
Area Name:
Area Link:
Sub Area:
Sub Area Link:
Document Type: Land Use Restriction - Site Inspection/Visit
Date Completed: 3/10/2016
Comments: DTSC staff performed annual inspection on February 11, 2016. Lead remains in soil at the site at concentrations that do not allow for unrestricted use. The lead-impacted soil is contained under the concrete pavement and buildings on the site. An area of the concrete pavement was observed during the inspection that requires repair. Also, vegetation and sediment were observed in a storm drain should be removed. Based on the inspection, DTSC concluded the selected remedial action remains protective of human health and the environment.

Violations

Violation Date:	04/14/2017	**Violation Source:**	CERS
Violation Program:	HMRRP	**Violation Division:**	San Mateo County Environmental Health
Citation:	HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1		
Violation Notes:			

Returned to compliance on 04/24/2017. Notify property owner in writing that the facility is subject to HMBP reporting requirement. Facility needs to furnish a copy within 5 days upon request.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

Violations

Violation Date: 04/14/2017 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 04/24/2017. The facility map was rejected by the County in March 2017. Please include electric panel, water shut off and gas shut off locations on facility map and re-submit. In addition, the locations of O2 tanks (empty and full) do not match between what was submitted on CERS and where they are actually located in the facility. Please correct this and also make the Storage area more identifiable on facility map.

Violation Description:

Failure to complete and electronically submit a site map with all required content.

Regulated Programs

EI ID:	10882846	**EI Description:**	Hazardous Waste Generator

Violations

Violation Date:	11/17/2021	**Violation Source:**	CERS
Violation Program:	HW	**Violation Division:**	San Mateo County Environmental Health
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)		

Violation Notes:

Returned to compliance on 11/18/2021. OBSERVATION: Hazardous waste label contained both the satellite accumulation start date and the waste storage room start date (indicating the same day in October). The second date was removed from the label during the inspection and the facility may use the 365 day maximum. It is unlikely the facility will exceed satellite accumulation limit of 55 gallons. CORRECTED ON SITE.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date:	11/17/2021	**Violation Source:**	CERS
Violation Program:	HW	**Violation Division:**	San Mateo County Environmental Health
Citation:	40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)		

Violation Notes:

Returned to compliance on 11/18/2021. OBSERVATION: The location of emergency equipment was missing from the postings observed on site. The posting was completed during the inspection. CORRECTED ON SITE.

Violation Description:

Failure to post the following information next to the telephone:
(A) The name and telephone number of the emergency coordinator;
(B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and
(C) The telephone number of the fire department, unless the facility has a direct alarm.

Evaluations

Eval Date: 11/17/2021
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: San Mateo County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

• Met with Eric Webostad. No signature due to COVID protocols. • Facility is currently storing less than 55 gallons, 500 lbs, or 200 CF of hazardous materials, however they tentatively want to stay in the HMBP program. • Facility contains one small laboratory area with mainly two pieces of waste generating equipment and a fume hood. • Waste observed on site is less than 3 gallons total of a formic acid solvent mixture. The facility appears to be operating below the HMBP threshold at this time. We discussed the requirements to submit the electronic form, document the training, notify the property owner, and update the plan when changes occur if the facility wants to be in the program. Will confirm with Eric and consultant considering the program is not currently active. • EPA ID Active: https://hwts.dtsc.ca.gov/facility/CAL000463631 • EVQ FOR 2021: Completed • No manifests yet generated. • Training: Slides kept on site and confirmed via email with employees. [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.

EI ID: 10071544 **EI Description:** Hazardous Waste Generator

Violations

Violation Date: 02/22/2022 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 06/07/2022. EPA ID number CAL000341807 is inactive. Fill out electronic verification questionnaire online at https://evq.dtsc.ca.gov/Home.aspx, or submit DTSC form 1358 to the DTSC within the comply by date. Form will be sent to the facility.

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date: 04/11/2023 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 07/02/2023. HMBP has not been annually submitted. HMBP was last submitted 12/29/21. Submit HMBP on CERS https://cers.calepa.ca.gov/ within the comply by date.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.23(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.23(a)
Violation Notes:

Returned to compliance on 05/17/2018.

Violation Description:

Failure to properly complete the Uniform Hazardous Waste Manifest.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 05/15/2018.

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violations

Violation Date: 02/18/2020 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 02/18/2020. Facility has a filter crusher. Used oil is collected in a plastic container. Facility has 2 options to manage this container: 1. Close the container when not in use and place a full hazardous waste label on the container. 2. Place an "empty daily" label on the container and empty the used oil immediately into the 55 gallon drum. There is a 15 gallon container which is used to drain oil filters. Once the container is full, the oil is transferred to one of the three 55 gallon drums. This container needs to have a hazardous waste label affixed to it. Please remember to fill in the accumulation start date after each time the used oil is emptied into the 55 gallon.. drum and start to collected used oil again.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 02/22/2022 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 02/22/2022. 3 used oil drums were missing the accumulation start date. CORRECTED ON SITE.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 05/15/2018. Document employee training within 30 days.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.5 25160(b)(1)(C) - California Health and Safety Code, Chapter 6.5, Section(s) 25160(b)(1)(C)
Violation Notes:

Returned to compliance on 05/15/2018.

Violation Description:

Failure to send a legible copy of each hazardous waste manifest to the Department within 30 days of each shipment of hazardous waste.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 05/15/2018. Facility's EPA ID# is inactivive, facility completed the application and emailed it to DTSC during inspection.

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.5 25123.3(h)(2) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(2)
Violation Notes:

Returned to compliance on 05/15/2018.

Violation Description:

Failure to determine the status of any hazardous waste if a signed copy of the manifest isn't received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isn't received within 60 days of the date the waste was accepted by the initial transporter.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 05/15/2018. The hazardous waste labels for the three 55 gallon drums due to cleaning had become illegible. New hazardous waste labels were completed during inspection.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 05/15/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.20 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.20
Violation Notes:

Returned to compliance on 05/15/2018.

Violation Description:

Failure to prepare a Uniform Hazardous Waste Manifest and, if necessary, a Continuation Sheet, before the transport of a hazardous waste off-site for transfer, treatment, storage, or disposal.

Violations

Violation Date: 05/15/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.27(b) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.27(b)
Violation Notes:

Returned to compliance on 05/15/2018.

Violation Description:

Failure of a small quantity hazardous waste generator to certify to the following statement on the Uniform Hazardous Waste Manifest: "I am a small quantity generator. I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford."

Violations

Violation Date: 02/18/2020 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 02/18/2020. Facility has a filter crusher. Used oil is collected in a plastic container. Facility has 2 options to manage this container: 1. Close the container when not in use and place a full hazardous waste label on the container. 2. Place an "empty daily" label on the container and empty the used oil immediately into the 55 gallon drum. Also, remember to close the bung on the 55 gallon drum under you are actively adding or removing used oil.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Violation Date: 05/15/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2
Violation Notes:

Returned to compliance on 05/15/2018.

Violation Description:

Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures and retain copies of receipts for three years.

Violations

Violation Date: 09/07/2021 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Notes:

Returned to compliance on 03/11/2022. The last HMBP submission occurred on 7/3/2020. No re-submission has occurred as of 9/7/2021. Log on to https://ehesubmit.smchealth.org and resubmit/certify the plan ASAP.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Comments:

Completed Site Screening. Site inspection samplings in 1981 revealed elevated levels of lead, cyanide and zinc. Groundwater analyses did not indicate any contamination above drinking water standards. Site inspection was conducted by the Abandoned Site Project (ASP) staff. 11 samples were collected. Completed RA. The RA consisted of excavation and disposal of contaminated soil, hazardous fluids, contaminated debris, steel tanks and piping. 279 yards of contaminated soil, 10,404 gallons of hazardous liquids, 10 steel tanks and piping were removed from the site. Recorded Deed Restriction limiting site to industrial use only. Certified Site. Completed Cost Recovery.

Background:

Sun Chemical manufactured printing ink at the site from 1927 to 1978, resulting in hazardous materials consisting of mixed inks, ink vehicles and pigments found as liquids and sludges in tanks and sumps, spillages on the main building floor, and in contaminated soil. The property was sold to Berman Corporation in 1979, who subsequently sold the property to Rental City Trucks. The property ownership was transferred to U.A. Local Pension Trust Funds in 1981.

Violations

Violation Date: 02/27/2020 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 09/29/2020. Please obtain signed copy of manifest: 020032695 JJK.

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violations

Violation Date: 04/12/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 04/12/2018. Signed copy of manifest 014856746JJK was not on file. Facility contacted the TSDF facility during inspection was was able to obtain a signed copy of the manifest from the TSDF.

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violations

Violation Date: 03/07/2022 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 40 CFR 1 265.33 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.33
Violation Notes:

Returned to compliance on 04/01/2022. Observation: The fire extinguishers around the facility were last inspected/serviced in January of 2021. Corrective Action: Have the fire extinguishers certified by the comply by date. Ensure to have them inspected on a yearly basis.

Violation Description:

Failure to test and maintain as necessary all facility communications or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment to assure its proper operation in time of emergency.

Violations

Violation Date: 03/07/2022 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 04/01/2022. Observation: Training records were kept in van to be on job site during the time of the inspection. Corrective action: Provide training records for emergency response and hazard communication to the inspector by the comply by date.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Evaluations

Eval Date: 02/27/2020
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: San Mateo County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

Waste generated at the facility: waste rags contaminated with aceton. Facility also generates water mixed with concrete dust from sanding concrete floors. The slurry is mixed to Eco mix and turned into gel. The gel turns into solid and is disposed in regular landfill.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Regulated Programs

EI ID: 10065250 **EI Description:** Chemical Storage Facilities

EI ID: 10065250 **EI Description:** Hazardous Waste Generator

Violations

Violation Date: 07/25/2020 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 08/17/2020.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 07/27/2017 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 08/03/2017. Please notify property owner in writing that facility is subject to HMBP reporting requirement.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

Violations

Violation Date: 07/27/2017 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 08/03/2017. One of the hazardous waste labels for the used oil drum is not legible; the hazardous waste label for the paper filter drum and the waste coolant drum is also not legible. New label provided during inspection. Please re-label the drums or re-fresh the labels.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 08/02/2018 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: 40 CFR 1 265.171 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.171
Violation Notes:

Returned to compliance on 08/02/2018. Facility had a cover for the hazardous waste labels for the used oil and waste antifreez, but were blown away by the wind. Labels refreshed during inspection.

Violation Description:

Failure to accumulate hazardous waste in a container that is in good condition.

Violations

Violation Date: 07/27/2017 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 08/03/2017. A 5 gallon container collecting used oil for the hot tank needs to be closed and labeled or label it as "Empty Daily" and empty the content on a daily basis.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Violation Date: 04/14/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 04/14/2022. The required information on the hazardous waste labels on the 55 gallon used oil drum and the waste coolant drum were undiscernible. New labels were placed on both drums. Please make sure to refresh the labels as needed moving forward. Because this is a repeat violation, the violation has been escalated to Class II violation. This violation was corrected during inspection.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Evaluations

Eval Date: 07/27/2017
Violations Found: Yes
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: San Mateo County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

Waste generated at the facility: three 55 gallon used oil drum, one 44 gallon waste antifreeze drum, one 55 gallon paper filter drum and one 55 gallon drum for metal filters. Two of the 55 gallon drums are located inside a metal container to prevent runoff. Fire extinguishers serviced in 11/2016. Facility has a brake cleaning apparatus but is barely use at all. Facility also has a hot tank.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date: 04/10/2017 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 06/23/2017. Notify property owner in writing that facility is subject to HMBP reporting requirement.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

Violations

Violation Date: 06/14/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)
Violation Notes:

Returned to compliance on 05/31/2022. OBSERVATION: The modified emergency response contingency plan information and contact information of the "emergency coordinator" was not posted next to the telephone. CORRECTIVE ACTION: Within 30 days, submit corrective action documentation to this office confirming that all required emergency information is posted next to the telephone.

Violation Description:

Failure to post the following information next to the telephone:
(A) The name and telephone number of the emergency coordinator;
(B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and
(C) The telephone number of the fire department, unless the facility has a direct alarm.

Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2
Violation Notes:

No disposal records for the paint waste were on site. Provide 3 years of disposal records to the inspector within the comply by date.

Violation Description:

Failure of a generator of hazardous waste that meets the conditions to be transported on a consolidated manifest to comply with one or more of the required consolidated manifesting procedures and retain copies of receipts for three years.

Violations

Violation Date: 06/14/2021 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 05/12/2022. OBSERVATION: The business operator did not demonstrate that the property owner has been notified in writing that the business is subject to the business plan program and has complied with its provisions. CORRECTIVE ACTION: Notify the property owner in writing that the business is subject to the business plan program and has complied with its provisions. Within 30 days, submit documentation of correction to this office.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

Violations

Violation Date: 04/17/2019 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 07/26/2019. There is a hazardous waste label posted on the wall above the used oil drums. Label must be affixed to every drum that contains used oil. One of the two 55 gallon drum was labeled properly. However, the other 55 gallon drum is missing all the required elements. Please label this drum with properly completed hazardous waste label.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 04/10/2017 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Notes:

Returned to compliance on 08/23/2018. The waste oil needs to be disposed of in 30 days.

Violation Description:

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
(2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
(3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violations

Violation Date: 06/14/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 23 66273.35 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.35
Violation Notes:

Returned to compliance on 05/12/2022. OBSERVATION: OBSERVATION: The facility did not demonstrate when the two full boxes of universal waste (UW) lamps, a half box of UW lamps, and the several UW lamps left leaning against the boxes of UW lamps became a UW. CORRECTIVE ACTION: Ensure that the facility demonstrates when all UW on site became a UW. Within 30 days, submit corrective action documentation to this office confirming that all UW on site has been marked with an accumulation start date or that the facility is maintaining documentation to demonstrate when all UW on site became a UW.

Violation Description:

Failure to accumulate universal waste for one year or less and to demonstrate the length of time that the universal waste has been accumulated from the date it became a waste or was received.

Violations

Violation Date: 06/14/2021 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Notes:

Returned to compliance on 06/14/2021. OBSERVATION: HMBP was submitted on 05/11/2020, 03/26/2019, 06/23/2017, 4/28/2016, 12/03/2015, and 12/07/2014. The facility HMBP has not been submitted since 5-11-20. It has been over 12 months since the most recent HMBP submittal. During the inspection, the operator was assisted with updating and submitting the facility HMBP. CORRECTIVE ACTION: Continue to ensure that the facility HMBP is submitted annually.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 06/14/2021 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 05/12/2022. OBSERVATION: The business did not demonstrate that it has maintained records of employee training. CORRECTIVE ACTION: Provide all employees with required training that includes: safe handling hazardous materials, emergency response procedures, and proper use of response equipment. Maintain records of training available for 3 years. Within 30 days, submit a copy of the 2021 HMBP employee training log to this office.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Business Plan Program - Operations/Maintenance - General

Violations

Violation Date: 04/17/2019 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Notes:

Returned to compliance on 06/04/2019. There are tow 55 gallon drum full of used oil, Last oil pick up was in 8/2018. Explained to the owner that waste needs to be picked up every 60 days unless facility generates only one 55 gallon drum of used oil a year the facility can extent the disposal frequency to yearly. Facility must dispose of the used oil within 30 days. Facility called World Oil during inspection. Recommended to the facility to dispose of the waste solvent through VSQG by calling (800) 207-8222.

Violation Description:

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:
(1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.

(2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).

(3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Facility has questions about a $1200-$1500 bill. Jorge can't produce the invoice for the claim and also stated because he could not pay the bill, waste pick up company will not pick up used oil. The only bill I saw from 2015 was from Safety Kleen for about $275 for waste solvent. San Mateo County invoice was around $900. Joege's daughter is handling the billing. Based on what was presented to me, I don't see the $1200 bill. Looked on internet and found Asbury as an alternative.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date:	03/24/2017	**Violation Source:**	CERS
Violation Program:	HMRRP	**Violation Division:**	San Mateo County Environmental Health

Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)
Violation Notes:

Returned to compliance on 06/01/2017. Needs to add Green Earth and waste product in the chemical inventory

Violation Description:

Failure to electronically update business plan within 30 days of any one of the following events:
A 100 percent or more increase in the quantity of a previously disclosed material.
Any handling of a previously undisclosed hazardous materials at or above reportable quantities.
A change of business address, business ownership, or business name.
A substantial change in the handler's operations that requires modification to any portion of the business plan.

Violations

Violation Date: 03/24/2017 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 06/01/2017. HMBP needs to be re-certified every year if nothing changes.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 03/29/2019 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 05/06/2019. Since the HMBP was required to be submitted electronically, facility has yet submitted an acceptable HMBP. One was submitted in 2014 which was rejected. Another one was submitted in 7/2017 which was also rejected. Submit a HMBP by 4/15/2019, otherwise, the County will pursue formal enforcement actions for failure to submit an acceptable HMBP.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 02/27/2023 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 02/27/2023. Added acculation date pof last pick up to 1 out of 4 waste drums. Ensure label is filled out even if clean earth ge uses printed lavbels.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 03/29/2019 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 05/06/2019. Facility must conduct and document employee training on an annual basis (a template of employee training topics was provided to the facility during inspection). Please conduct and conduct employee training within 30 days.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 03/29/2019 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 05/06/2019. Facility needs to add every chemical that is at or above 55 gallon threshold limit in the HMBP. All chemicals at 55 gallons or above must be included in the HMBP which must be submitted by 4/15/2019.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violation Date: 02/27/2023 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 02/27/2023. Submitted during inspection. Ensure to submit HMBP on an annual basis.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date: 03/29/2019 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 05/06/2019. Facility map is missing required elements which are clearly indicated on the facility map page. Update facility map and upload it to the HMBP and submit the HMBP by 4/15/2019.

Violation Description:

Failure to complete and electronically submit a site map with all required content.
