Certificate of Recognition

South San Francisco

Italian American Citizens Club

Founded on December 7, 1916, by a group of concerned Italian American citizens as a political organization to help Italian immigrants acclimate to life in America, and to encourage them to become United States citizens.

Through the years, the IACC has evolved into an organization that focuses on promoting Italian-American heritage through a variety of social events and by supporting the South San Francisco community. One of the oldest Italian organizations in the San Francisco Bay Area, the Club welcomes new members of all ethnicities.
