| January 26, 2022 | 3 rd Public Hearing |
| February 23, 2022 | 4 th Public Hearing |
| April 17, 2022 | Legal deadline to adopt new map |

Legal Requirements & Other Goals

1. Federal Law

- ✓ Ensure equal population
- ✓ Comply with federal Voting Rights Act
- ✓ Prevent racial gerrymandering

* Total population deviation < 10%

2. California Law

1. Ensure geographic **contiguity**
 2. Minimize division of neighborhoods & **“communities of interest”**
 3. Create easily identifiable boundaries
 4. Maintain **compactness**
- ✓ Do not “favor or discriminate against a political party”

3. Other Goals

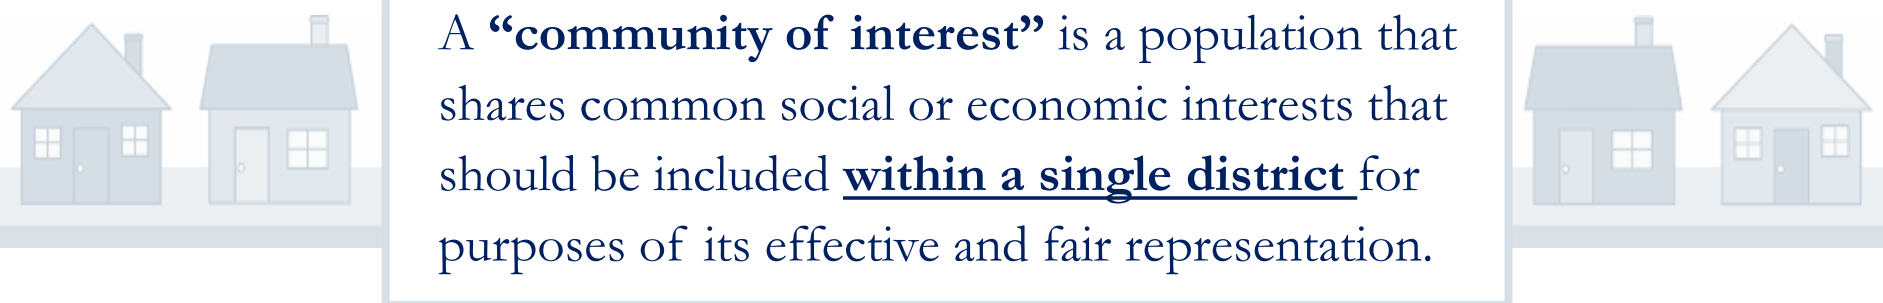

May include...

- Minimize changes to election cycles
- Preserve core of existing districts

Do not bypass a nearby population to take in a more distant population

Defining “Communities of Interest”

Under California Elections Code, “community of interest” has a very specific definition in the context of redistricting:

A “community of interest” is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Definitions of “communities of interest” do **not** include relationships with political parties, incumbents, or political candidates.

✓ Current Districts Are “Population Balanced”

| District | | 1 | 2 | 3 | 4 | 5 | Total |
|-------------------------|-----------------------|--------|--------|--------|--------|--------|--------|
| 2020 Census | Total Population | 13,097 | 13,486 | 12,933 | 13,088 | 13,580 | 66,184 |
| | Deviation from ideal* | -140 | 249 | -304 | -149 | 343 | 647 |
| | % Deviation | -1.06% | 1.88% | -2.30% | -1.12% | 2.59% | 4.89% |

| | owned | 59% | 79% | 54% | 68% | 42% | 61% |

*Ideal District Size: Each district must contain about 13,326 people

Population Balance Math

Ideal district size = 13,326

- Calculated by dividing City's the total population by the number of districts
- $66,184/5 = 13,326.8$

Total deviation = 647

- Calculated by subtracting the smallest district's population from the largest district's population
- $D5 (13,580) - D3 (12,933) = 647$

Total deviation % = 4.89%

- Calculated by the subtracting the smallest deviation from the largest deviation
- $(2.59\%) - (-2.3\%) = 4.89\%$

Simple Paper Mapping Kit

- Residents can submit a map on paper or PDF using our printable templates
- Optional Excel Supplement does the population math automatically!
