City Clerk Rosa Acosta,

Dear City of South San Francisco Councilmembers,

My name is Rebecca and I have been filled with deep grief and utter horror from witnessing the current genocide in Gaza unfold. 13,000 kids have been killed. This isn't acceptable even under the horrible deflection of "it's war".

I strongly encourage you to pass a ceasefire resolution as a means of symbolic solidarity. Then, I urge you to divest from sending any funds, funds that will be used to create weapons, to Israel. This is a matter of human rights. I urge you to listen to the majority of people who want a bilateral permanent ceasefire; passing a ceasefire resolution is directly reflecting public opinion!
