FY 2026-27 Parking Meter and Permit Rates

Metered Parking Rates

For FY 2026-27, metered parking rates are increased by \$0.25 per hour, to the rates set forth in the table below.

Metered Parking Location	Current Rate	FY 2026-27 Rate
On-Street Parking	\$1.25–\$1.50/hour	Increase by up to \$0.25/hour (to \$1.50–\$1.75/hour)
Surface Parking Lots	\$1.25/hour	Increase by \$0.25/hour (to \$1.50/hour)
Miller Parking Garage	\$1.25/hour	No Change (see note below)

***Note:** No FY 2026-27 increase is proposed for the Miller Parking Garage. The City intends to encourage greater utilization of available garage parking before considering future rate adjustments.*

Parking Permit Rates

For FY 2026-27, parking permit rates are adjusted to the rates set forth in the table below to help offset increasing operational, maintenance, technology, and administration costs associated with managing the City's parking permit program.

Parking Permit Type	Current Rate	FY 2026-27 Rate
Monthly Miller Parking Garage	\$40/month	\$50/month
Monthly Surface Lot	\$50/month	\$60/month
Quarterly Miller Parking Garage	\$120/quarter	\$150/quarter
Quarterly Surface Lot	\$150/quarter	\$180/quarter

**Future rate adjustments would occur incrementally and would require separate approval by the Parking Place Commission. Any future adjustments would be based on parking occupancy data, parking demand, operational needs, and the parking management objectives identified in the Downtown Parking Study.*
