# Legal Requirements & Other Goals

## 1. Federal Law

- ✓ Ensure equal population
- ✓ Comply with federal Voting Rights Act
- ✓ Prevent racial gerrymandering

## 2. California Law

1. Ensure geographic **contiguity**
  2. Minimize division of neighborhoods & **“communities of interest”**
  3. Create easily identifiable boundaries
  4. Maintain **compactness**
- ✓ Do not “favor or discriminate against a political party”

## 3. Other Goals

- Minimize changes to election cycles
- Respect voters’ choices
- Preserve core of existing districts
- Anticipate future growth

Do not bypass a nearby population to take in a more distant population

# Beyond Neighborhoods: Defining “Communities of Interest”

Under California Elections Code, “community of interest” has a very specific definition in the context of redistricting:

A “community of interest” is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Definitions of “communities of interest” do **not** include relationships with political parties, incumbents, or political candidates.

# Official Population Data By District

Each of the 5 districts  
must contain about  
13,236 people.
