As a YAC member for the past three years, I'm thankful to have been in this space learning about city government and providing input into decisions from a "youth perspective" in various departments. I hope the Youth Commission both maintains that tradition and builds upon it, as the Youth Commission should be a platform for South City youth that is both accessible to them and representative of them. I'm grateful for the opportunity I had to participate in the pilot youth advisory council and am looking forward to see what the Youth Commission will accomplish should it be created. Thank you for your time.

Support

I would like to voice my support for the Youth Commission. I think giving our young citizens a chance to participate and help shape local policy is a great thing and something the council should support. Thank you for your time.
