“Untitled 45” & “Our South City”

Untitled 45

Artist: Ivan McLean

Location: Lux Ave and Maple Ave

Created by Oregon sculptor Ivan McLean, this 45 inch lattice-welded steel sphere was generously donated to the City in 2016 by the artist. Installed in 2020 at the median located on Lux Avenue and Miller Avenue, the piece serves as a gateway feature connecting three neighborhoods and offering residents a striking work of contemporary art. McLean's distinctive spherical sculptures appear in collections nationwide, including the Orange Park Sculpture Garden where "Stainless Sphere 84" is located.

Our South City

Artist: Sirron Norris

Location: Gardiner Park (137 Gardiner Avenue)

Completed in 2020 as part of the Gardiner Park renovation, “Our South City” is a vibrant mural that reflects South San Francisco’s history, culture, and natural environment. Designed through community input, the artwork highlights Ohlone heritage, iconic local architecture, the steel industry, biotechnology, and the region’s biodiversity, all brought to life with the artist’s signature blue bears. Created by Bay Area artist Sirron Norris, the piece celebrates neighborhood identity and the community’s enduring love for South City.
