RE: Use Permit Application for Wireless Communication Facility at 200 Armour Avenue

Dear South San Francisco Planning Staff,

Modus LLC, an authorized agent of Dish Wireless, respectfully submits the attached Use Permit Application Package for the installation of a wireless facility located on a private structure at 200 Armour Avenue, South San Francisco, CA.

Please find enclosed in the Application Package:

1. Cover Letter
2. General Planning Application
3. Project Plans
4. Photo Simulations
5. Radio Frequency EME Report
6. Property Owner Letter of Authorization
7. Dish Letter of Authorization
8. FCC License
9. Title Report

Project Description:

DISH Wireless LLC to install three (3) antennas (1 per sector), six (6) RRUs (2 per sector), an equipment cabinet, and associated equipment at 200 Armour Avenue, South San Francisco, CA. The proposal is to install all three (3) sectors on the PG&E tower. Both power lines and fiber lines will be placed in a new cable tray on the rooftop. The cable tray will run from the equipment cabinet to each antenna location. All antennas will be painted to match existing and will not exceed the height of the existing structure (99').

This project will help support the wireless connectivity needs of residents, businesses, and first responders in the community – needs that now are more critical than ever, especially for those consumers without access to other sources of connectivity.
