

Bus Stop Improvement Project

South San Francisco BPAC | August 05, 2026

Agenda

1. Introduction
2. Bus Stop Improvement Project Overview
 - Bus Stop Improvement Plan
 - Amenities Design Refresh
3. SSF Bus Stops
4. Feedback and Questions

Bus Stop Improvement Project (BSIP)

Bus Stop Improvement Plan

- Bus stops designated for improvements were identified and prioritized based on rider volume, location, and direct community input
- Enhanced bus stop amenities include things such as seating, lighting, visibility, signage and real-time information displays

Amenities Design Refresh

- In February 2026, the SamTrans Board of Directors adopted the new bus stop design standards

Implementation

- SamTrans staff is working with cities and Caltrans on design, logistics, and permitting on these stops in a phased approach

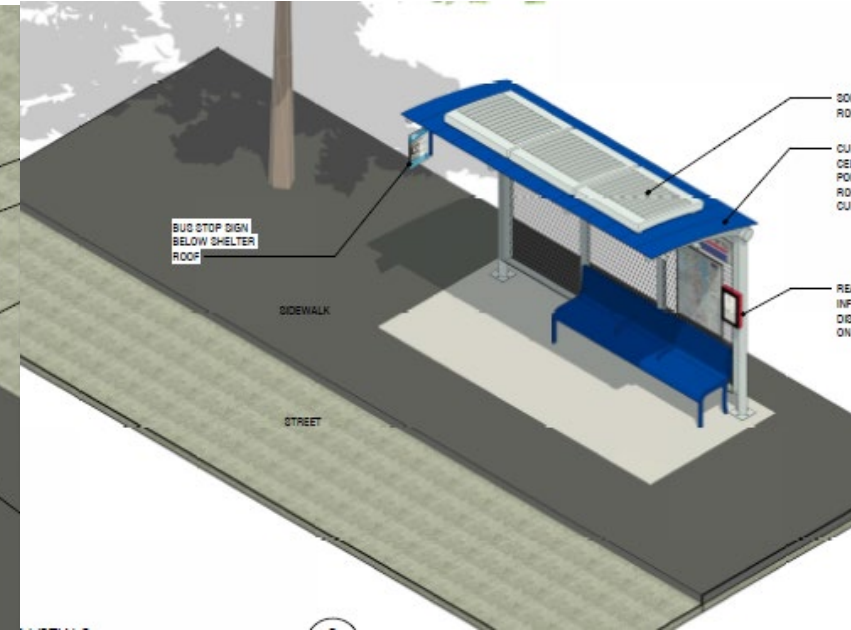

Types of Bus Shelters

Full Shelter with bench and solar powered lighting

Narrow Shelter with bench and solar powered lighting

Shade with bench and solar powered lighting

SSF Phase 2 Implementation

Total of 6 Stops in South San Francisco

- Airport Blvd & East Grand Ave
- Armour Ave & Linden Ave
- Grand Ave & Linden Ave
- Grand Ave & Maple Ave
- Grand Ave & Spruce Ave
- Callan Blvd & King Drive
