Legal Requirements & Other Goals

1. Federal Law

- ✓ Ensure equal population
- ✓ Comply with federal Voting Rights Act
- ✓ Prevent racial gerrymandering

* Total population deviation < 10%

2. California Law

1. Ensure geographic **contiguity**
 2. Minimize division of neighborhoods & **“communities of interest”**
 3. Create easily identifiable boundaries
 4. Maintain **compactness**
- ✓ Do not “favor or discriminate against a political party”

3. Other Goals

May include...

- Minimize changes to election cycles
- Preserve core of existing districts

Do not bypass a nearby population to take in a more distant population

✓ Current Districts Are “Population Balanced”

*Ideal District Size: Each district must contain about 13,326 people

Population Balance Math

Ideal district size = 13,326

- Calculated by dividing City's the total population by the number of districts
- $66,184/5 = 13,326.8$

Total deviation = 647

- Calculated by subtracting the smallest district's population from the largest district's population
- $D5 (13,580) - D3 (12,933) = 647$

Total deviation % = 4.89%

- Calculated by the subtracting the smallest deviation from the largest deviation
- $(2.59\%) - (-2.3\%) = 4.89\%$

Defining “Communities of Interest”

Under California Elections Code, “community of interest” has a very specific definition in the context of redistricting:

A “community of interest” is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Definitions of “communities of interest” do **not** include relationships with political parties, incumbents, or political candidates.

It features a "Font Size" control, "Share & Bookmark", "Feedback", and "Print" icons. The text states: "On July 11, 2018, the City Council adopted [Ordinance No. 1558-2018](#) to change from at-large to by-district elections, establishing boundaries, and sequencing of elections within the districts. The Council members in office shall continue to represent the City at-large until the expiration of the full term to which they were elected and until their successor is qualified. Every ten years, local governments use new data from the Census to redraw their district lines to reflect how local populations have changed. [Assembly Bill 849 \(2019\)](#) requires cities and counties to engage communities in the redistricting process by holding public hearings and/or workshops and doing public outreach, including to non-English-speaking communities. The City Council is responsible for drawing council districts and the process must be completed by April 17, 2022. The City Council will solicit public input to draw new district boundaries for Councilmembers. The finalized maps that you will help us create will change how you elect your Councilmembers for the next ten years. The primary goal when redrawing Councilmember districts is to draw lines that respect neighborhoods, history and geographical elements."
