Pictorial History of South San Francisco Mural

Pictorial History of South San Francisco Mural

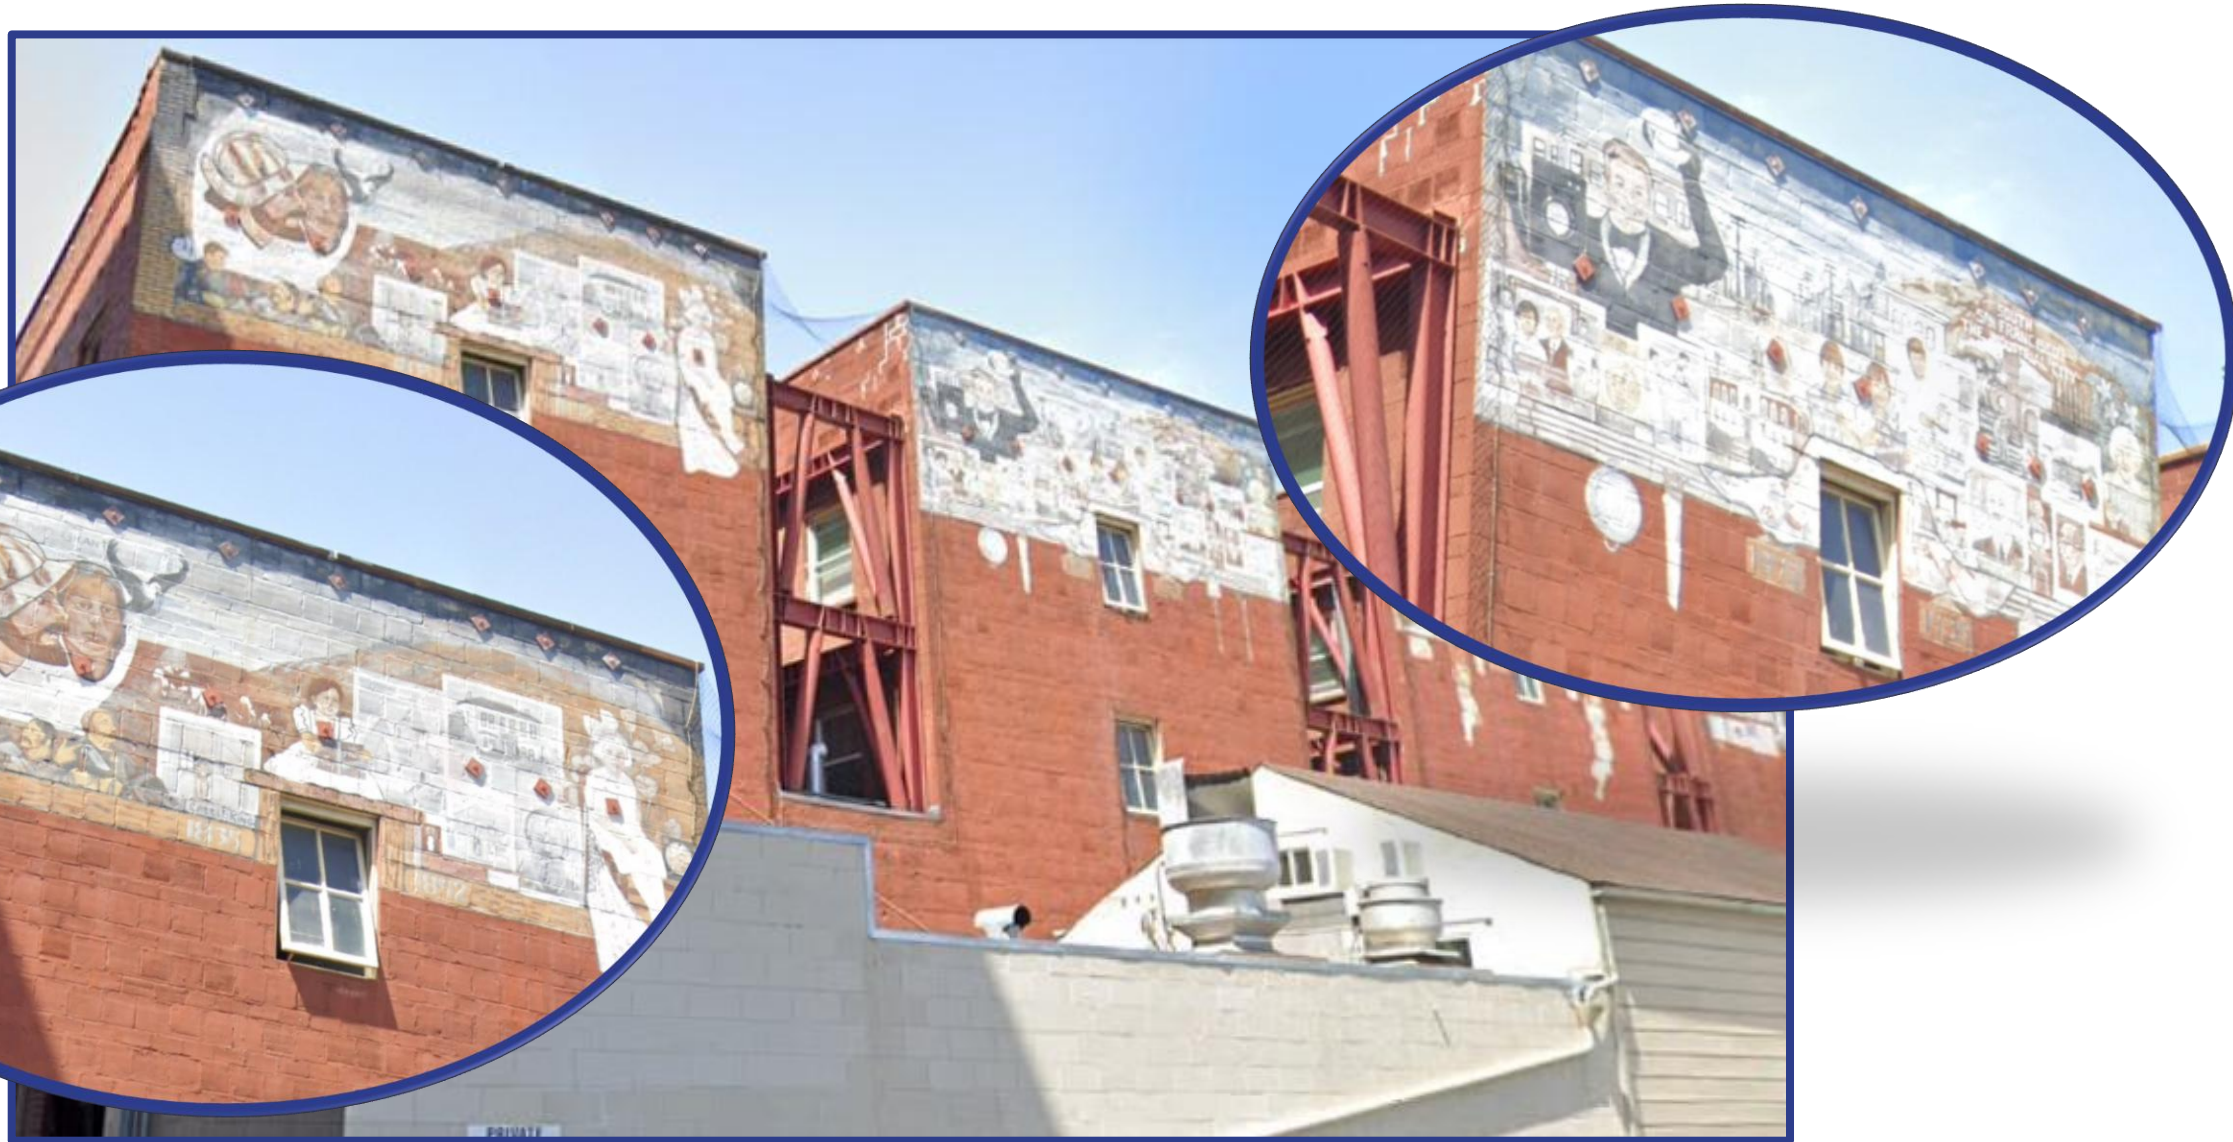

Artist: Carlota Espinoza

Location: 220 Linden Avenue (Metropolitan Hotel)

The Pictorial History of South San Francisco mural series illustrates the City's transformation from open grazing land in the 1800s to a growing industrial and economic center. Created through the "Paint the Town" initiative from the Downtown Merchants Association in the 1980's, the four-panel work captures key moments in the City's past while envisioning its future growth and development.
