Violations

Violation Date: 04/21/2021 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2
Violation Notes:

Returned to compliance on 04/21/2021. 87 spill bucket and diesel (main tank) spill buckets failed hydrostatic test. 87 cap failed and the adapter was loose on the diesel fill. Cap replaced and adapter tightened. Buckets retested and passed.

Violation Description:

"Failure to meet one or more of the following requirements:

Install or maintain a liquid-tight spill container.

Have a minimum capacity of five gallons.

Have a functional drain valve or other method for the removal of liquid from the spill container.

Be resistant to galvanic corrosion.

Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container.

Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Tested by a certified UST service technician.

Maintain records of spill containment testing for 36 months.

"

Violations

Violation Date: 04/21/2021 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(2)
Violation Notes:

Returned to compliance on 04/21/2021. 91 MLLD tested twice failed both times. Fix/replace leak detector and retest. Submit passing results to the inspector within the comply by date.

Violation Description:

Failure of the functional line leak detector (LLD) monitoring pressurized piping to meet one or more of the following requirements: Monitored at least hourly with the capability of detecting a release of 3.0 gallons per hour leak at 10 pounds per square inch and restrict or shut off the flow of product through the piping when a leak is detected.

Violations

Violation Date: 04/03/2020 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2
Violation Notes:

Returned to compliance on 08/19/2020. Spill Buckets for Diesel and 91 UST systems failed the spill bucket tests. Spill buckets need to be replaced (due to direct bury type) as soon as practicable but no longer than 30 days to prevent release into the environment.

Violation Description:

"Failure to meet one or more of the following requirements:

Install or maintain a liquid-tight spill container.

Have a minimum capacity of five gallons.

Have a functional drain valve or other method for the removal of liquid from the spill container.

Be resistant to galvanic corrosion.

Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container.

Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Tested by a certified UST service technician.

Maintain records of spill containment testing for 36 months.

Eval Notes:

Annual inspection coincided with AMC. The staff in the convenient store did not have access card to the operate one of the diesel tank and 5 dispenses. Service Station System had to send a staff to deliver a separate card from San Jose. DO reports had noted water in various spill buckets. There were subsequent work orders indicating the issues were taken care of. Over spill devices were tested on 9/13/2018. But the drop tube for the diesel had failed. The drop tube was replaced on 1/12/2019.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Environmental Contact: BDALBELDA@SPEEDWAY.COM On site for AMC with S.S.S. Inspectors Carson Beck and Dermot Casey Four single wall fiberglass tanks These tanks fuel two separate fuel islands. Six dispensers for speedway which are serviced by SSS and four diesel high volume dispensers by CFN. During inspection CFN dispensers were not able to be activated but were tested shortly after we left. All sensors and monitoring equipment were found to be in working order. ISD/Cold start preformed before AMC. Station is expecting to receive new tanks summer of 2022. Must be out by 2025. Disperser "11/12" was hit and out of service. Sheer valve was triggered and sump sensor was working properly.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Eval Notes:

Steve Coulter from Tesoro called about a spill that occurred at this facility. Arrived on site and observed the outline of a spill in between dispenser #11 and #3/4. The Flyer's Fuel truck driver confirmed that his Fuel Truck oil pan was pierced when he drove over the lid in between dispenser #11 and #3/4.

The Flyer's Fuel truck driver used absorbent to clean up the spilled oil and placed the absorbent in the 55 gallon drum for hazardous waste solids on site. Continue to clean up any spills and properly manage any waste generated from the clean up.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Regulated Programs

EI ID: 10885579
EI Description: Chemical Storage Facilities

Violations

Violation Date: 11/05/2021
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 01/28/2022. Observation: Umili America has failed to upload and initial HMBP to either the Env. Health Portal or to CERS. While Umili does not produce hazardous waste, they store qualifying amounts of hazardous materials that qualify them fro the program. The materials noted include, Acetylene, CO2, Argon and Hydraulic Oil. Corrective action: Please upload a complete HMBP to the Env. Health portal into CERS by the comply by date.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violations

Violation Date: 11/05/2021
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 01/28/2022. Observation: Daniel was unable to provide training records when asked during the inspection. Specifically Umili is required to provide HMBP (haz. com and emergency response) training to its employees. Corrective action: Umili must provide the training noted above to their employees. A copy/records of the training must be submitted to Env. Health by the comply by date.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 11/05/2021
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health

Citation: HSC 6.95 25505.1 - California Health and Safety Code, Chapter 6.95, Section(s) 25505.1
Violation Notes:

Returned to compliance on 01/28/2022. OBSERVATION: The business failed to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions. CORRECTIVE ACTION: Notify the property owner in writing that the business is subject to the business plan program and has complied with its provisions. Submit documentation of correction to the unified program agency.

Violation Description:

Failure to notify property owner in writing that the business is subject to the business plan program and has complied with its provisions.

EI ID: 10067911 **EI Description:** Hazardous Waste Generator

Violations

Violation Date: 12/07/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 06/01/2023. Facility EPA ID CAL000222253 expired 6/30/2021. Reactivate the EPA ID by completing the eVQ using the DTSC's website within the comply by date. https://dtsc.ca.gov/reactivate-epa-id-number/

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date: 01/15/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31
Violation Notes:

Returned to compliance on 01/19/2022. Please empty the content that has accumulated in the secondary containment within 30 days. So much spilled waste has accumulated in the secondary containment that the risk of spilling over the containment is very high.

Violation Description:

Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

Violations

Violation Date: 12/07/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.11 25404(e)(4) - California Health and Safety Code, Chapter 6.11, Section(s) 25404(e)(4)
Violation Notes:

Returned to compliance on 03/09/2023. HMBP does not have all the correct information submitted. Resubmit HMBP on CERS with the revisions within the comply by date.

Violation Description:

Failure to report, and report accurately, program data (such as hazardous waste generation activities) electronically.

Violations

Violation Date: 12/07/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 12/07/2022. Used coolant label was missing the site address, contents, physical state and hazardous properties. Corrected on site.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 09/08/2021 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Notes:

Returned to compliance on 12/14/2022. The last HMBP submission occurred on 5/18/2021, however, this plan was rejected by CUPA staff and changes to the map, emergency response plan, and training plan were requested to be resubmitted within 30 days. No re-submission has occurred as of 9/8/2021. Log on to https://ehesubmit.smchealth.org and resubmit/certify the plan ASAP.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 01/15/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Notes:

Returned to compliance on 09/07/2022. 1. Please perform a waste determination on the spent sandblasting materials to confirm the metal content from the sandblasting operation whether the spend material is hazardous waste. It is not a recommendation but only as a reference; labs such as Test America (925)484-1919, or McCampbell Analytical (877) 252-9262 can perform such waste determination. Feel free to look for and use other labs. Please forward the lab result to my attention within 30 days.

Violation Description:

Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violations

Violation Date: 12/07/2022 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 04/05/2023. Training records were unavailable at the time of the inspection. Please submit training records to the inspector within the comply by date.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 06/22/2022 ***Violation Source:*** CERS

GeoTracker Search - Cleanup Action Report (as of October 16, 2023)

Action Type:	IN SITU PHYSICAL/CHEMICAL TREATMENT (OTHER THAN SVE)
Begin Date:	10/15/2010
End Date:	10/15/2016
Phase:	Other (See Description)
Contaminant Mass Removed:	0
Description:	A peroxone injection system was employed in North UST Area. The system consisted of six nested well pairs (total of 12 wells) used for injection of oxygen-enriched air, ozone, and peroxide.
Action Type:	EXCAVATION
Begin Date:	4/16/2001
End Date:	5/16/2001

Phase: Soil
Contaminant Mass Removed:
Description: Approximately 200 cubic yards of contaminated soil were removed to a depth of approximately 10 feet below grade (fbg) in the area of the northern USTs. The excavation was locally deepened to 16 fbg to facilitate extraction of approximately 22,000 gallons of water from the excavation.

Action Type: DUAL PHASE EXTRACTION
Begin Date: 11/1/1995
End Date: 3/1/1998
Phase: Other (See Description)
Contaminant Mass Removed:
Description: A combined SVE/GWET operated at the site. The system removed approximately 1,538,135 gallons of groundwater. A total of 37,043 lbs of acetone, 141 lbs of gasoline, and 12 lbs of benzene were removed in the dissolved-phase. Contaminant masses removed in the vapor-phase were not calculated.

Risk assessment

Action Type: Cleanup Action
Action: Excavation
Action Date: 4/16/2001
Received Issue Date:
Doc Link:
Title Description Comments:

Approximately 200 cubic yards of contaminated soil were removed to a depth of approximately 10 feet below grade (fbg) in the area of the northern USTs. The excavation was locally deepened to 16 fbg to facilitate extraction of approximately 22,000 gallons of water from the excavation.

Action Type: Other Regulatory Actions
Action: Technical Correspondence / Assistance / Other
Action Date: 1/1/2001
Received Issue Date: 1/1/2001

Title Description Comments:

Site Photos

Action Type: Cleanup Action
Action: Dual Phase Extraction
Action Date: 11/1/1995
Received Issue Date:
Doc Link:
Title Description Comments:

A combined SVE/GWET operated at the site. The system removed approximately 1,538,135 gallons of groundwater. A total of 37,043 lbs of acetone, 141 lbs of gasoline, and 12 lbs of benzene were removed in the dissolved-phase. Contaminant masses removed in the vapor-phase were not calculated.

Past Use that Caused Contam: BATTERY RECLAMATION, VEHICLE MAINTENANCE
Potential Media Affected: SOIL
Potential Contamin of Concern:

LEAD
TPH-MOTOR OIL

Site History:

The Site occupies approximately 0.5 acres and is bordered to the south by Colma Creek, to the west by Linden Avenue, to the north by Praxair Industrial Welding Supplies, and to the east by Southern Pacific Railroad. In 1968, the Battery Sales and Processing Company (later known as BASAPCO) leased the Site from the City of South San Francisco. BASPCO operated a lead recovery operation at the Site between 1968 and the mid-1990s. BASAPCO reclaimed lead from car and heavy equipment batteries. Site operations included dismantling batteries, disposing of battery acid, crushing plastic battery casings, and smelting lead for sale. Also, in 1983, BASAPCO operated a trucking business at the Site. A truck repair shop also operated onsite. Currently the site is mostly vacant and is being used as a storage and lay-down area for the City of South San Francisco.

Cleanup actions at the site consisted of consolidating lead impacted soil into a portion of the site and containing the material with an asphalt cap. Remedy has been operating successfully and is currently being monitored in accordance with an approved operation and maintenance plan. Annual Site Inspections and Five Year Reviews are conducted to confirm the continued effectiveness of the remedy.

The Third Five-Year Review (FYR) Report is scheduled for submittal in June 2024. The continued effectiveness of the remedy with respect to projected sea level rise will be addressed with a Sea Level Rise Vulnerability Assessment (SLRVA) in the upcoming Third FYR Report.

Regulated Programs

EI ID: 10071286 **EI Description:** Chemical Storage Facilities

Violations

Violation Date: 10/08/2021 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 01/13/2022. Facility must certify the HMBP annually. Last submission was 8/31/2020. Please log in to ehesubmit.smchealth.org to certify your HMBP.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Site Type:	VOLUNTARY AGREEMENT	**County:**	SAN MATEO
Address Description:	27-S. LINDEN	**Latitude:**	37.6502327244414
Office:	CLEANUP BERKELEY	**Longitude:**	-122.411262594808
Special Program:		**Acres:**	0.5 ACRES
Funding:	SITE PROPONENT	**Supervisor:**	KIMBERLY WALSH

Cleanup Status: CERTIFIED / OPERATION & MAINTENANCE AS OF 3/19/2009
Cleanup Oversight Agencies: DTSC - SITE CLEANUP PROGRAM - LEAD AGENCY;RWQCB 2 - SAN FRANCISCO BAY;SAN MATEO COUNTY
School District:
Past Use that Caused Contam: BATTERY RECLAMATION, VEHICLE MAINTENANCE
Potential Media Affected: SOIL
Potential Contamin of Concern:

LEAD
TPH-MOTOR OIL

Site History:

The Site occupies approximately 0.5 acres and is bordered to the south by Colma Creek, to the west by Linden Avenue, to the north by Praxair Industrial Welding Supplies, and to the east by Southern Pacific Railroad. In 1968, the Battery Sales and Processing Company (later known as BASAPCO) leased the Site from the City of South San Francisco. BASPCO operated a lead recovery operation at the Site between 1968 and the mid-1990s. BASAPCO reclaimed lead from car and heavy equipment batteries. Site operations included dismantling batteries, disposing of battery acid, crushing plastic battery casings, and smelting lead for sale. Also, in 1983, BASAPCO operated a trucking business at the Site. A truck repair shop also operated onsite. Currently the site is mostly vacant and is being used as a storage and lay-down area for the City of South San Francisco.

Cleanup actions at the site consisted of consolidating lead impacted soil into a portion of the site and containing the material with an asphalt cap. Remedy has been operating successfully and is currently being monitored in accordance with an approved operation and maintenance plan. Annual Site Inspections and Five Year Reviews are conducted to confirm the continued effectiveness of the remedy.

The Third Five-Year Review (FYR) Report is scheduled for submittal in June 2024. The continued effectiveness of the remedy with respect to projected sea level rise will be addressed with a Sea Level Rise Vulnerability Assessment (SLRVA) in the upcoming Third FYR Report.

Updated 8/2023 NU.

Status: CERTIFIED / OPERATION & MAINTENANCE - LAND USE RESTRICTIONS
Program Type: VOLUNTARY CLEANUP
CalEnviroScreen Score: 80-85%

Violations

Violation Date: 11/15/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 12/14/2021. Manifest (waste disposal records) copies for 2020 and 2021 were not on site. Provide missing manifest copies to the inspector within the comply by date.

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violations

Violation Date: 03/08/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 03/06/2019. The bungs for the two 55 gallon drums storing used oil are missing and can't be retrieved.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Citation: 22 CCR 12 66262.34(b)(1) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(b)(1)
Violation Notes:

Returned to compliance on 03/15/2016. Dispose water based waste paint, waste thinner and used oil within 30 days.

Violation Description:

Failure to dispose of hazardous waste after the first 100-kilogram threshold amount was accumulated within a 90 day period.

Violations

Violation Date: 11/15/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 12/14/2021. Lid for used oil drum is missing. Provide a lid for the used oil drum and submit documentation to the inspector within the comply by date.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Violation Date: 03/08/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 05/02/2019. Facility's EPA ID# is Inactive. Please complete the EPA ID Application (attached) and send it to DTSC within 30 days. After the number is re-activated, please go to the website: https://evq.dtsc.ca.gov/Register.aspx and either registered for an account then complete the questionnaire or log in and complete the questionnaire.

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date: 03/10/2016 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.5 25160.2 - California Health and Safety Code, Chapter 6.5, Section(s) 25160.2
Violation Notes:

Returned to compliance on 03/15/2016. Dispose water based paint waste and waste thinner within 30 days. Facility is not able to locate any proof that the water based paint related waste and waste thinner were ever picked up. No disposal record for used oil since 2011. Dispose water based waste paint, waste thinner and used oil within 30 days.

Violation Description:

Failure to meet any of the following consolidated manifest requirements:
1) Legible receipts for each quantity of hazardous waste that is received from a generator,
2) The generator's information (name, address, identification number, contact person, telephone number of the generator, the signature of the generator or the generator's representative),
3) Date of the shipment,
4) The manifest number,
5) The volume or quantity of each waste stream received,
6) The name, address, and identification number of the authorized facility to which the hazardous waste will be transported,
7) The transporter's information (name, address, and identification number, the driver's signature),
8) A statement, signed by the generator, certifying that the generator has established a program to reduce the volume or quantity and toxicity of the hazardous waste to the degree economically practicable.
9) The generator shall retain each receipt for at least three years.

Violations

Violations

Violation Date: 01/05/2023 **Violation Source:** CERS
Violation Program: HW **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Notes:

Returned to compliance on 01/24/2023. Waste oil/grease last disposed of September 2021. Waste is overaccumulated. Dispose of hazardous waste and submit documentation to the inspector within the comply by date.

Violation Description:

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:
(1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.

(2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).

(3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violations

Violation Date: 09/07/2021 **Violation Source:** CERS
Violation Program: HMRRP **Violation Division:** San Mateo County Environmental Health
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Notes:

Returned to compliance on 12/08/2021. The last HMBP submission occurred on 4/25/2020. No re-submission has occurred as of 9/7/2021. Log on to https://ehesubmit.smchealth.org and resubmit/certify the plan ASAP.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 01/05/2023 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.11
Violation Notes:

Returned to compliance on 04/07/2023. The bead blast media is being disposed of in the trash and a proper waste determination has not been made. Submit documentation to the CUPA demonstrating that the bead blast media has been properly characterized to determine if it is a hazardous waste. If determined to be hazardous ,submit a manifest/receipt documenting proper disposal and a statement demonstrating how you will manage it in the future.

Violation Description:

Failure to determine if wastes generated are hazardous waste by using generator knowledge or applying testing method.

Violations

Violation Date: 01/05/2023 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 262.34(d)(5)(ii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(ii)
Violation Notes:

Returned to compliance on 04/07/2023. Emergency information was not posted. Post emergency information and submit documentation to the inspector within the comply by date.

Violation Description:

Failure to post the following information next to the telephone:
(A) The name and telephone number of the emergency coordinator;
(B) Location of fire extinguishers and spill control material, and, if present, fire alarm; and
(C) The telephone number of the fire department, unless the facility has a direct alarm.

Violations

Violation Date: 10/04/2021 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 10/18/2021. HMBP must be submitted annually. Last submission was 6/26/2020. Visit ehesubmit.smchealth.org to certify your HMBP.

Violation Description:

Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Evaluations

Eval Date: 08/08/2018
Violations Found: No
Eval General Type: Compliance Evaluation Inspection
Eval Type: Routine done by local agency
Eval Division: San Mateo County Environmental Health
Eval Program: HW
Eval Source: CERS
Eval Notes:

Waste generated at the facility: Paint wash water. In 5/2018, two 55 gallon drums of paint water were disposed under uniform non-haz manifest, while two 55 gallon paint water drums were disposed using uniformed hazardous waste manifest. Currently, one 55 gallon drum is full. Facility also uses Paint Care to recycle paint.; Note: data in [EVAL Notes] field for some records is truncated from the source.

How Discovered: Other Means, Tank Closure, UST System Modification

How Discovered Description:	see above
Stop Method:	Repair Product Piping
Stop Description:	see above
Calwater Watershed Name:	South Bay - San Mateo Bayside (204.40)
DWR GW Subbasin Name:	Westside (2-035)
Disadvantaged Community:	
CalEnvScreen Score:	
Coordinate Source:	Manual Entry on Screens
Discharge Cause:	Corrosion
Discharge Source:	Piping, Tank
EPA Region:	9
Leak Reported Dt:	1987-06-01 00:00:00
Military DoD Site:	No
No Further Action Dt:	2014-05-21 00:00:00
Qty Rlsd Gallons:	0
Facility Project Sub Type:	
Calenviroscreen 3 Score:	61-65%
Calenviroscreen 4 Score:	70-75%
Site History:	

Can be extracted from most recent report in Geotracker or at San Mateo County offices if submitted prior to 2005, San Mateo County does not take responsibility for the accuracy of the statements made or any professional interpretations made in the referenced report.

Violations

Violation Date: 02/23/2023
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Notes:

Returned to compliance on 04/16/2023. OBSERVATION: The most current hazardous material inventory submitted in CERES indicates only 55 gallons of new oil. There were two drums and a tank of new oil observed during the inspection. REQUIRED ACTION: Log into CERS at http://cers.calepa.ca.gov/ and update your chemical inventory to accurately reflect current storage levels.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Citation: 23 CCR 16 2712(b)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(2)
Violation Notes:

Returned to compliance on 07/10/2020. OBSERVATION: DO Reports from 1/7/20, 12/10/19, 11/15/19, 10/18/19 all reference sump low liquid alarms. Additionally the DO Reports from 2/3/20, 1/7/10, 10/18/19, 9/20/19, 8/22/19 indicate that Service Calls would be or should be instigated to investigate and resolve these issues. No service records were available on site that indicated how these issues were resolved. The DO Report from 2/3/20 was the only report from the past year that was signed by the Owner/Operator and with any information filled out in Section V. REQUIRED ACTION: Provide documentation to the inspector demonstrating how these alarms were addressed/cleared. Ensure in the future Section V. is filled out on all DO reports where compliance issues are listed in Section III. Also ensure that the owner operator continues to sign the reports in section VI. Even if no issues are noted on the report.

Violation Description:

Failure to maintain monitoring records for release detection and/or maintain records of appropriate follow-up actions.

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 02/23/2023 **Violation Source:** CERS
Violation Program: UST **Violation Division:** San Mateo County Environmental Health
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Notes:

Returned to compliance on 06/01/2023. OBSERVATION: Documentation of passing overfill prevention testing was not available at the time of the inspection. REQUIRED ACTION: Submit documentation to the inspector of the last overfill prevention equipment inspection.

Violation Description:

Failure to comply with one or more of the following overfill prevention equipment requirements:
Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or
Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or
Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or
Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling.

Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018.

For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter.

For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter.

Inspected within 30 days after a repair to the overfill prevention equipment.

Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer.

Inspected by a certified UST service technician.

Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes:

Returned to compliance on 08/22/2017. Conduct and document employee training within 30 days.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 09/16/2013 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 09/16/2013.

Violation Description:

Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 11/04/2020 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Notes:

Returned to compliance on 02/20/2021. Update the HMBP within 30 days. The annual certification is overdue and the secondary emergency contact is no longer here.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 10/30/2018 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Notes:

Returned to compliance on 12/21/2018. Drums were left open with the bung not placed and screwed back in while not adding waste. Keep these drums closed while not adding waste.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Eval Source: CERS
Eval Notes:

This site has converted to VPH system last year. UST information submitted electronically via the County Portal in 2/2018. The two 76 USTs are manifolded. To test postive shut down, the best way to do it is to change the ATG sensor position. I was informed by TEC that it was difficult to change the volume via Veeder Root console. L4 (87-2 STP sump) and L6 (87-2 fill sump) and L11: dispenser pan 1:experiecned low level alarms. There were other low level alarms noted at the DO reports. Service calls were made to TEC Accutite. The explanation was the VPH system was still in the process of settling.; Note: data in [EVAL Notes] field for some records is truncated from the source.

LEAD

Site History:

The Site is located at 27 South Linden Avenue, South San Francisco in San Mateo County, California. It is approximately 0.57 acres in size and bordered to the northwest by a parking lot, to the northeast and east by a railroad owned by UPRR, to the south by Colma Creek, and to the west by a storm sewer pump station owned by the City of South San Francisco. Between 1968 and 1991, the Site was leased by BASAPCO for dismantling and recycling lead batteries from cars and construction equipment. Investigations revealed that lead was present in onsite soil at concentrations up to 8400 mg/kg.

Between October 1, 2012 and January 10, 2013, lead-contaminated soils were removed from the site in accordance with the Final Removal Action Workplan (dated June 22, 2012). On January 31, 2014, a Land Use Covenant (LUC) was recorded with San Mateo County. The LUC prohibits the Site to be used for a residence, hospital, school, or day care center. The LUC also requires a DTSC-approved Soil Management Plan before any disturbance of soil at or below 1 foot below grade, as well as an annual inspection and letter to be submitted to the Department in January of each year to demonstrate compliance with the LUC.

On February 4, 2014, DTSC certified the completion of the remedial action taken at the site, as described in the Final Removal Action Workplan (dated June 22, 2012). Currently, Annual LUC Inspections and Five Year Reviews are conducted to confirm the continued effectiveness of the remedy. The most recent inspection was conducted on July 29, 2021 and confirmed the continued effectiveness of the remedy and adherence to the LUC. Update 5/2022 NU.

Status: CERTIFIED O&M - LAND USE RESTRICTIONS ONLY - LAND USE RESTRICTIONS
Program Type: VOLUNTARY CLEANUP
CalEnviroScreen Score: 80-85%
Summary Link: https://www.envirostor.dtsc.ca.gov/public/profile_report?global_id=60001136

Land Use Restrictions

Site Management Requirmnts: DAY CARE CENTER PROHIBITED
HOSPITAL USE PROHIBITED
LAND USE COVENANT
NO EXCAVATION OR ACTIVITIES WHICH DISTURB THE SOIL BELOW A SPECIFIED DEPTH (SEE COVENANT FOR DEPTH) WITHOUT AGENCY REVIEW AND APPROVAL OF A SOIL MANAGEMENT PLAN
RESIDENCE USE PROHIBITED

Document Type: Certification
Date Completed: 2/3/2014
Comments: DTSC has determined that all appropriate response actions have been completed. Lead contaminated soil was excavated and disposed of offsite, however soil lead that exceeds unrestricted use levels remains at the Site at depths of 1 foot beneath the surface, and below. A land use covenant was recorded on January 31, 2014 in order to prohibit the use of the site as a residence, hospital, school, or day care. The land use covenant also prohibits soil disturbance at or below 1 foot below grond surface without a DTSC approved Soil Management Plan.

Potential Media Affected: OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SOIL
Potential Contamin of Concern:

LEAD

Site History:

The Site is located at 27 South Linden Avenue, South San Francisco in San Mateo County, California. It is approximately 0.57 acres in size and bordered to the northwest by a parking lot, to the northeast and east by a railroad owned by UPRR, to the south by Colma Creek, and to the west by a storm sewer pump station owned by the City of South San Francisco. Between 1968 and 1991, the Site was leased by BASAPCO for dismantling and recycling lead batteries from cars and construction equipment. Investigations revealed that lead was present in onsite soil at concentrations up to 8400 mg/kg.

Between October 1, 2012 and January 10, 2013, lead-contaminated soils were removed from the site in accordance with the Final Removal Action Workplan (dated June 22, 2012). On January 31, 2014, a Land Use Covenant (LUC) was recorded with San Mateo County. The LUC prohibits the Site to be used for a residence, hospital, school, or day care center. The LUC also requires a DTSC-approved Soil Management Plan before any disturbance of soil at or below 1 foot below grade, as well as an annual inspection and letter to be submitted to the Department in January of each year to demonstrate compliance with the LUC.

On February 4, 2014, DTSC certified the completion of the remedial action taken at the site, as described in the Final Removal Action Workplan (dated June 22, 2012). Currently, Annual LUC Inspections and Five Year Reviews are conducted to confirm the continued effectiveness of the remedy. The most recent inspection was conducted on July 29, 2021 and confirmed the continued effectiveness of the remedy and adherence to the LUC. Update 5/2022 NU.

Status: CERTIFIED O&M - LAND USE RESTRICTIONS ONLY - LAND USE RESTRICTIONS
Program Type: VOLUNTARY CLEANUP
CalEnviroScreen Score: 80-85%

Sub Area:
Sub Area Link:
Document Type: Certification
Date Completed: 2/3/2014
Comments: DTSC has determined that all appropriate response actions have been completed. Lead contaminated soil was excavated and disposed of offsite, however soil lead that exceeds unrestricted use levels remains at the Site at depths of 1 foot beneath the surface, and below. A land use covenant was recorded on January 31, 2014 in order to prohibit the use of the site as a residence, hospital, school, or day care. The land use covenant also prohibits soil disturbance at or below 1 foot below grond surface without a DTSC approved Soil Management Plan.

Violations

Violation Date: 10/03/2022
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Notes:

Returned to compliance on 01/23/2023. OBSERVATION: The business failed to electronically submit complete and accurate chemical inventory information for all hazardous materials on site at or above reportable quantities. The diesel tank on-site is 1,000 gallons; however, the inventory does not include the diesel belly tank associated with the backup generator on-site. A label indicating the size of the belly tank was not visible. CORRECTIVE ACTION: Electronically submit complete and accurate chemical inventory information for all hazardous materials on site at or above reportable quantities.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Date: 06/28/2016 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 08/17/2016.

Violation Description:

Failure to maintain a complete copy of the SPCC Plan at the facility if the facility is normally attended at least four hours per day, or at the nearest field office if the facility is not so attended.

Violations

Violation Date: 10/03/2022 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

OBSERVATION: The records of annual employee training were not reviewed during the inspection. CORRECTIVE ACTION: Ensure all employees receive the required training that includes: safe handling hazardous materials, emergency response procedures, and proper use of response equipment.

Maintain records of training available for 3 years. Submit evidence of current training to the CUPA in 7 days.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 06/28/2016 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 08/17/2016.

Violation Description:

"Failure to amend the SPCC Plan within 6 months:

1. When the facility has had a change in design, construction, operation, or maintenance which affects the facility's discharge potential. AND/OR

2. To include more effective proven technology at the time of the 5-year SPCC Plan review and evaluation."

Violations

Violation Date: 10/03/2022 ***Violation Source:*** CERS

Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 01/25/2023. OBSERVATION: Facility is subject to the APSA program because more than 1,320 gallons of petroleum product is stored on-site. Facility appears to be storing more than 2,250 gallons of petroleum product on-site. CORRECTIVE ACTION: Please forward the latest copy of the SPCC plan to the CUPA or complete and implement an SPCC plan within 30 days.

Violation Description:

Failure to prepare a Spill Prevention, Control, and Countermeasures (SPCC) Plan.

Violations

Violation Date: 10/28/2020 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Notes:

There were three full 55 gallon poly drums kept in the room where the backup diesel generator was kept. Please find out what chemicals are stored in the drums and enter the information into the chemical inventory section of the HMBP via https://ehesubmit.smchealth.org/ within 30 days.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violations

Violation Date: 05/25/2017
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 01/18/2018. Please include the de-greaser in the chemical inventory.

Violation Description:

Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violations

Violation Date: 05/27/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.192(a) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.192(a)
Violation Notes:

Returned to compliance on 03/18/2022. A tank assessment was not provided at the time of the inspection for the used oil and used antifreeze tanks. Provide a copy of the hazardous waste tank assessment for both tanks to the inspector within the comply by date. If the facility does not generate much waste antifreeze, it is suggested they reduce the tank size to a 55 gallon container (drum) in order to use the satellite accumulation rule (and also so the facility will not need to get a waste tank assessment)

Violation Description:

Failure to obtain and maintain a written assessment reviewed and certified by an independent, qualified, professional engineer prior to placing the tank system in service. The written assessment shall state that, the new hazardous waste tank system has sufficient structural integrity, is acceptable for the transferring, storing and treating of hazardous waste, and that the tanks and containment system including the foundation, structural support, seams, connections, and pressure controls (if applicable) are suitably designed to meet the regulation.

Violations

Violation Date: 05/25/2017 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 08/30/2017. The 3 containers referenced above can't be closed, label each container with "Empty Daily" signs.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Violation Date: 09/04/2020 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 09/05/2020. The trough used to hold used oil either needs to be closed (in this case impossible) and labeled with a hazardous waste label or empty the used oil on a daily basis and affix a label marked "EMPTY DAILY". Correct this within 30 days and please take a photo can send it to me so I can close out the violation. The facility information portion of the hazardous waste label on the used antifreeze drum has faded. Either refresh the existing label or complete a new label which was provided during the inspection. Please complete this ASAP and no later than 30 days.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 06/13/2023 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 07/05/2023. Observation: To training documentation that covers SPCC measures was available. Records kept electronically. Corrective action: Supply training that covers SPCC to inspector by the comply by date.

Violation Description:

Failure to conduct spill prevention briefing for oil-handling personnel at least once a year to assure adequate understanding of the SPCC Plan.

Violations

Violation Date: 06/28/2020 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25291(a)(1) - California Health and Safety Code, Chapter 6.7, Section(s) 25291(a)(1)
Violation Notes:

Returned to compliance on 02/11/2021. The product piping for the regular unleaded fuel system failed the SB989 testing. Repair must be cmpleted and re-tested within 6 months from the date (5/7/2020) the failure was condfirmed.

Violation Description:

Failure to construct, operate, and maintain primary containment as product-tight.

Violations

Violation Date: 05/22/2018 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25295(a)(1) - California Health and Safety Code, Chapter 6.7, Section(s) 25295(a)(1)
Violation Notes:

Returned to compliance on 07/31/2018. Facility failed to notify the County regarding the water intrusion situation for the regular gas tank. Facility needs to summarize the how and when the water intrusion was noted and what remediation has been taken to address the situation within 30 days.

Violation Description:

Failure to notify and/or prepare a report to the UPA upon discovery of a reportable or failed to record unauthorized release.

Violations

Violation Date: 06/13/2023 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 07/05/2023. Observation: Plan notes James Sherrill as individual responsible for plan. James is no longer with Penske. Corrective action: Have qualified individual sign the certification page near the front of the SPCC. Send documentation to the inspector by the comply by date.

Violation Description:

Failure to designate person who reports to management as accountable for discharge prevention at facility.

Violations

Violation Date: 05/27/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.195(c) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.195(c)
Violation Notes:

Returned to compliance on 09/08/2022. Start conducting daily inspections of the hazardous waste tank system. Provide records to the inspector within 30 days. A template will be emailed.

Violation Description:

Failure to conduct and document inspections of hazardous waste tank systems each operating day and retain records of those inspections at the facility.

Violations

Violation Date: 06/12/2019 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 07/11/2019. AST monthly tank inspection is documented and included in the Monthly Safety and Environmental Checklist. At the time of inspection, only the May 2019 record was available while the previous records for 2019 were apparently misplaced. Locate the missing reports for the past 12 months and placed them in the appropriate folder

Violation Description:

Failure to ensure that tanks are inspected and tested by an appropriately qualified person in accordance with industry standards.

Violations

Violation Date: 06/13/2023 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2715(c)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(c)(2)
Violation Notes:

Returned to compliance on 07/05/2023. Observation: Last UST training available was conducted in 2021. Training may be kept digitally. Corrective action: Supply UST training documentation from the last year by the comply by date.

Violation Description:

Failure to have at least one facility employee present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO).

Violations

Violation Date: 05/25/2017 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 08/30/2017. Facility has the following containers that needed to be labeled as "Empty Daily": 1. Trough for the used oil 2. A round collection pan 3. A small rectangle container whose purpose is to collect drips from the used oil hose line. Also, the 55 gallon waste paper filter drum needs to have a hazardous waste label.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 05/31/2016 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2712(i) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(i)
Violation Notes:

Returned to compliance on 07/22/2016. Facility has marked on monitoring plan that the USTs are fiberglass primary and secondary when they are actually steel. Also ensure that you have noted the correct annular space sensor as well. Tanks are modern welding.

Violation Description:

Failure to maintain on site an approved monitoring plan.

Violations

Violation Date: 06/14/2023 ***Violation Source:*** CERS

Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Notes:

Returned to compliance on 07/05/2023. Observation: No training records that cover haz waste management were available. Records kept electronically. Corrective action: Provide training documentation to the inspector by the comply by date.

Violation Description:

Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

Violations

Violation Date: 06/12/2019 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)
Violation Notes:

Returned to compliance on 06/27/2019. Signed copies of manifest for parts washer solvent, fuel pumped out (to facilitate UST repari) and fuel filters for 2019 were all missing. Please contact Safety Kleen to obtain signed copies of manifest: 006827676 SKS, 006859017 SKS, 007074415 SKS, 007074414 SKS, 006861972 SKS, 008681971 SKS, 006859019 SKS, 006859018 SKS, 006845781 SKS, 006845782 SKS, 006833929 SKS, 006833930 SKS, 006827677 SKS, 006827678 SKS, 012878118 SKS, 006981014 SKS, 012825534 FLE, 012825536 FLE, within 30 days. In the future, please make sure to obtained sign copies of manifest within 60 days from the day of waste pick up.

Violation Description:

Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Citation: HSC 6.5 25201 - California Health and Safety Code, Chapter 6.5, Section(s) 25201
Violation Notes:

Returned to compliance on 09/08/2022. Date on the antifreeze drum reflects December, there are no records of disposal for this year. Provide disposal record for the last antifreeze pickup. If it has been over 90 days, schedule a pickup. If the facility does not generate much waste antifreeze, it is suggested they reduce the tank size to a 55 gallon container (drum) in order to use the satellite accumulation rule (and also so the facility will not need to get a waste tank assessment)

Violation Description:

Failure to obtain a permit or grant of interim status after generator has accumulated hazardous waste on-site for longer than 90 days.

Violations

Violation Date: 06/12/2019 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 06/12/2019. The facility information for the hazardous waste label on the waste antifreeze drum was missing. A new label was completed during inspection and placed on the AST.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Violation Date: 06/28/2020 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25291(a)(2) - California Health and Safety Code, Chapter 6.7, Section(s) 25291(a)(2)
Violation Notes:

Returned to compliance on 02/11/2021. The product piping for the regular unleaded fuel system failed the SB989 testing. Repair must be cmpleted and re-tested within 6 months from the date (5/7/2020) the failure was condfirmed.

Violation Description:

Failure to maintain secondary containment (e.g., failure of secondary containment testing).

Violations

Violation Date: 05/22/2018 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25291(a)(1) - California Health and Safety Code, Chapter 6.7, Section(s) 25291(a)(1)
Violation Notes:

Returned to compliance on 07/31/2018. Regular gasoline tank had water intrusion. High water warning was noted on the 11/17 DO report. The high water warning became constant starting 1/2018 and was noted on every DO report for 2018 (even on the 5/8/2018 DO report). Facility representative (Kirk Blanz) stated they stopped using the gasoline tank due to water in the tank. Kirk stated repairs have been completed. However, at time of 2018 UST inspection, such repair report was not available. Facility needs to summarize all actions taken to address the high-water issue in the regular gasoline tank within 10 days and if repair has been done, a report needs to be submitted within 30 days. It is unclear at this time whether a permit should have been obtained from San Mateo County Health Services due to lack of information at the time of inspection. Mr. Rick Roybal seemed to be theb individual authorizing and signing for repair work order. Mr. Roybal is out of the office until 5/27/2018.

Violation Description:

Failure to construct, operate, and maintain primary containment as product-tight.

Eval Notes:

On-site for a follow up inspection for the AMC where no inspector was present. Arrived at the site to meet technician who would be opening the sumps and UDCs as he performed the air quality inspections. Arrived on the site and met with facility reps and technician for UST, and completed a paperwork review of DO reports, as well as looked at sumps and alarm history. There were currently no active alarms and the only liquid observed was in the gas STP sump where there was a small amount of liquid, not enough to trigger an alarm. The UDCS were all observed to be clear during the inspection. Next inspection date should be June 2023 for AMC. Alarms and leak detectors were not activated and tested during this site visit.; Note: data in [EVAL Notes] field for some records is truncated from the source.

This inspection form is completed based on the Annual Monitoring Certification report as well as the SB989 testing report submitted by Tanknology on 5/19/2020. The Annual Monitoring Certification was performed on 5/12/2020. The SB989 triennial test was performed on 5/7/2020 according to the reports. The next annual monitoring certification is due next May of 2021. Due to Shelter in Place Order, San Mateo County representative was not on site to witness the actual testing events a; Note: data in [EVAL Notes] field for some records is truncated from the source.

Site Type: VOLUNTARY AGREEMENT
APN: 014-081-010, 014081010
Past Use that Caused Contam: DRY CLEANING, LAUNDRY SERVICES, MANUFACTURING - CERAMICS, MANUFACTURING - OTHER
Potential Media Affected: INDOOR AIR, OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SOIL, SOIL VAPOR
Potential Contamin of Concern:

1,2-DICHLOROETHYLENE (CIS)
1,2-DICHLOROETHYLENE (TRANS)
TETRACHLOROETHYLENE (PCE)
TRICHLOROETHYLENE (TCE)

Site History:

The Morena Trust (Site) has been in open investigation by San Mateo County's Groundwater Protection Program (GPP) since September of 2012 to July of 2016. The primary contaminants of concern are tetrachloroethene (PCE) and breakdown products from former dry cleaning businesses and trichloroethene (TCE) in subsurface vapor. The Trinity Source Group (Trinity) conducted three rounds of mobile soil vapor extraction (SVE), which reduced subslab PCE and TCE concentrations from a high of 610,000ug/m3 and 47,000 ug/m3 pre-remediation to 25,600ug/m3 and 1,540ug/m3 post-remediation, respectively.

The Site is currently active mixed industrial on an approximately 1 acre lot. The commercial building is 23,000 square feet and is occupied by a warehouse and offices. DTSC is acting as a lead agency to address concerns of indoor air contamination from subsurface vapors. Rebounding concentrations of PCE and TCE in sub-slab vapor warrant additional removal action and/or mitigation. DTSC is currently overseeing the implementation of a sub-slab depressurization system (SSDS) pilot test which is scheduled to run in six five-day events occurring from July 2019 to August 2020. Following SSDS pilot testing and system optimization, a removal action will be proposed and be made available for public comment. 2020 NB

Area Name:	
Area Link:	
Sub Area:	
Sub Area Link:	
Document Type:	Technical Report
Date Completed:	3/8/2022
Comments:	The sub-slab depressurization system report documents the operation of the system. The system fans were replaced with stronger fans (PT-25) to increase the vacuum and effectiveness of the system. The system removes PCE and other halogenated VOCs and maintains an effective negative pressure in the sub-slab area within the area of vacuum influence. The flow rates and effective radius of influence of the system increased since installation of the PT-25 fans. Indoor air monitoring will occur for a second season to ensure that the system improvements are effective at reducing PCE vapor intrusion into the building.

Sub Area Link:
Document Type: Pilot Study/Treatability Workplan
Date Completed: 3/7/2019
Comments: DTSC has reviewed and approved the Work Plan to implement a Pilot Test of a Sub-Slab Depressurization System (SSDS) at the Starlite/Canal Building at 111 Starlite Street in South, SF. The Subslab Depressurization System mitigates the intrusion of subsurface tetrachloroethylene (PCE or perc) vapors by passively depressurizing the subsurface relative to the occupied building and creating a preferential pathway for those vapors to escape. Field implementation is scheduled to begin in second quarter 2019 and the pilot test period will continue for an additional 6-12 months after. If the pilot test demonstrates that an SSDS is successful in mitigating the subsurface intrusion of PCE vapors, the remedy will be recommended and proposed in a Removal Action Workplan which the neighboring community will have the opportunity to comment on.

Area Name:
Area Link:
Sub Area:

Sub Area Link:
Document Type: Technical Report
Date Completed: 1/6/2022
Comments: Recent replacement of extraction well fans to stronger fans indicates improved indoor air quality. Laboratory results of indoor air samples collected August 22, 2021 were at least one order of magnitude less than DTSC indoor air screening levels, including the tetrachloroethene (PCE) screening level of 2.0 µg/m3 and the vinyl chloride screening level of 0.16 µg/m3. Indoor air analytical results were significantly lower than historical indoor sample results, including samples collected at the same locations. Carbon (filter) replacement was not necessary this quarter. The sub-slab vapor probe monitoring network is functional with only minor maintenance conducted during the monitoring period (i.e. labeling and replacement of probe tip covers).

Document Type: Site Characterization Report
Date Completed: 5/25/2016
Comments: Document was not prepared with DTSC oversight. In response to a May 22, 2015 letter from San Mateo County Groundwater Protection Program (GPP), Trinity Source Group (Trinity) conducted a cool-weather assessment of indoor air. Sub-slab vapor probes were also sampled. Maximum reported concentrations were 2.1ug/m3 for tetrachloroethene (PCE) and 0.086 ug/m3 for trichloroethene (TCE) for the indoor air sampling. PCE was detected from in 14 of the 16 subslab probes samples from 48.8 to 25,600 ug.m3. TCE was detected in 8 of the 16 subslab probes at concentrations ranging from 94.0 to 1540ug/m3.

School District:
Past Use that Caused Contam: DRY CLEANING, LAUNDRY SERVICES, MANUFACTURING - CERAMICS, MANUFACTURING - OTHER
Potential Media Affected: INDOOR AIR, OTHER GROUNDWATER AFFECTED (USES OTHER THAN DRINKING WATER), SOIL, SOIL VAPOR
Potential Contamin of Concern:

1,2-DICHLOROETHYLENE (CIS)
1,2-DICHLOROETHYLENE (TRANS)
TETRACHLOROETHYLENE (PCE)
TRICHLOROETHYLENE (TCE)

Site History:

The Morena Trust (Site) has been in open investigation by San Mateo County's Groundwater Protection Program (GPP) since September of 2012 to July of 2016. The primary contaminants of concern are tetrachloroethene (PCE) and breakdown products from former dry cleaning businesses and trichloroethene (TCE) in subsurface vapor. The Trinity Source Group (Trinity) conducted three rounds of mobile soil vapor extraction (SVE), which reduced subslab PCE and TCE concentrations from a high of 610,000ug/m3 and 47,000 ug/m3 pre-remediation to 25,600ug/m3 and 1,540ug/m3 post-remediation, respectively.

The Site is currently active mixed industrial on an approximately 1 acre lot. The commercial building is 23,000 square feet and is occupied by a warehouse and offices. DTSC is acting as a lead agency to address concerns of indoor air contamination from subsurface vapors. Rebounding concentrations of PCE and TCE in sub-slab vapor warrant additional removal action and/or mitigation. DTSC is currently overseeing the implementation of a sub-slab depressurization system (SSDS) pilot test which is scheduled to run in six five-day events occurring from July 2019 to August 2020. Following SSDS pilot testing and system optimization, a removal action will be proposed and be made available for public comment. 2020 NB

Sub Area Link:
Document Type: Technical Report
Date Completed: 1/6/2022
Comments: Recent replacement of extraction well fans to stronger fans indicates improved indoor air quality. Laboratory results of indoor air samples collected August 22, 2021 were at least one order of magnitude less than DTSC indoor air screening levels, including the tetrachloroethene (PCE) screening level of 2.0 µg/m3 and the vinyl chloride screening level of 0.16 µg/m3. Indoor air analytical results were significantly lower than historical indoor sample results, including samples collected at the same locations. Carbon (filter) replacement was not necessary this quarter. The sub-slab vapor probe monitoring network is functional with only minor maintenance conducted during the monitoring period (i.e. labeling and replacement of probe tip covers).

Area Name:
Area Link:
Sub Area:
Sub Area Link:
Document Type: Site Characterization Report
Date Completed: 6/4/2014
Comments: Document was not prepared by DTSC. Letter from San Mateo County Groundwater Protection Program (GPP) approving a pilot test to use soil vapor extraction (SVE) as a remedy for tetrachloroethene (PCE) vapor. GPP stated that case closure will not be recommended following determination of a site-specific slab attenuation factor.

Title: Sub-Slab Depressurization System Pilot Test Monitoring Report - 4th QRTR 2022 (Report #8)
Title Link: https://www.envirostor.dtsc.ca.gov/public/final_documents2?global_id=60002386&doc_id=60515008
Area Name:
Area Link:
Sub Area:
Sub Area Link:
Document Type: Technical Report
Date Completed: 3/8/2022
Comments: The sub-slab depressurization system report documents the operation of the system. The system fans were replaced with stronger fans (PT-25) to increase the vacuum and effectiveness of the system. The system removes PCE and other halogenated VOCs and maintains an effective negative pressure in the sub-slab area within the area of vacuum influence. The flow rates and effective radius of influence of the system increased since installation of the PT-25 fans. Indoor air monitoring will occur for a second season to ensure that the system improvements are effective at reducing PCE vapor intrusion into the building.

Title: Indoor Air Sampling Report and SSDS Pilot Test Workplan
Title Link: https://www.envirostor.dtsc.ca.gov/public/final_documents2?global_id=60002386&doc_id=60445112
Area Name:
Area Link:
Sub Area:
Sub Area Link:
Document Type: Pilot Study/Treatability Workplan
Date Completed: 3/7/2019
Comments: DTSC has reviewed and approved the Work Plan to implement a Pilot Test of a Sub-Slab Depressurization System (SSDS) at the Starlite/Canal Building at 111 Starlite Street in South, SF. The Subslab Depressurization System mitigates the intrusion of subsurface tetrachloroethylene (PCE or perc) vapors by passively depressurizing the subsurface relative to the occupied building and creating a preferential pathway for those vapors to escape. Field implementation is scheduled to begin in second quarter 2019 and the pilot test period will continue for an additional 6-12 months after. If the pilot test demonstrates that an SSDS is successful in mitigating the subsurface intrusion of PCE vapors, the remedy will be recommended and proposed in a Removal Action Workplan which the neighboring community will have the opportunity to comment on.

Title: 2016 Indoor Air and Sub-Slab Vapor Testing Report
Title Link: https://www.envirostor.dtsc.ca.gov/public/final_documents2?global_id=60002386&doc_id=60411084
Area Name:

Sub Area:
Sub Area Link:
Document Type: Site Characterization Report
Date Completed: 5/25/2016
Comments: Document was not prepared with DTSC oversight. In response to a May 22, 2015 letter from San Mateo County Groundwater Protection Program (GPP), Trinity Source Group (Trinity) conducted a cool-weather assessment of indoor air. Sub-slab vapor probes were also sampled. Maximum reported concentrations were 2.1ug/m3 for tetrachloroethene (PCE) and 0.086 ug/m3 for trichloroethene (TCE) for the indoor air sampling. PCE was detected from in 14 of the 16 subslab probes samples from 48.8 to 25,600 ug.m3. TCE was detected in 8 of the 16 subslab

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB

probes at concentrations ranging from 94.0 to 1540ug/m3.

Violations

Violation Date: 05/02/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 05/02/2022. Observation: The red AST did not have a hazardous waste label. Added on and filled out on site. Corrective action: No action required, corrected on site.

Violation Description:

Failure to label stationary hazardous waste tanks as "hazardous waste" and mark with an accumulation start date.

Violations

Violation Date: 05/02/2022 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 10/24/2022. Observation: Weekly trainings are affirmed to occur that cover hazard commutation, emergency response and safety. Corrective action: Please document training and send to inspector by the comply by date. While every tailgate does not need to be documented, ensure to document hazard communication and emergency response on an annual basis to cover the HMBP training obligations.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 05/09/2017 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 06/06/2017.

Violation Description:

Failure to comply with one or more of the following requirements:

1. Have record of inspections and integrity tests signed by the appropriate supervisor or inspector.

2. Keep written procedures and records of inspections and integrity tests for at least three years.

3. Keep comparison records.

Violations

Violation Date: 05/09/2017 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Notes:

Returned to compliance on 06/06/2017. Facility needs to document above ground petroleum tank inspection on a monthly basis. Facility needs to create an inspection form/log to document such inspections for tanks that contain petroleum product (new or used). All containers container containing used oil have to be labeled and closed (i.e. no used oil will spill out if the container is knocked over). This includes the trash can used to catch used oil from the oil filter crusher and the oil pan. Another option is label these kind of container "EMPTY DAILY" and making sure the content is emptied on a daily basis. There were two 5 gallon water jars that were used to store waste diesel. Either emptied the waste diesel into appropriate containers or label and close the containers.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Eval Notes:

facility has a 750 Above ground storage tank for used oil. Facility crushes fuel filters and separate metal from paper filters. There were 3 used oil pick up in 2016. An electrician came to the facility late last year changing out fluorescent lights. The electrician took away the burned out light tubes. Facility has a oil water clarifier. Mr. Dower stated someone works at the airport for JMB takes the sludge for JMB. I advise JMB must keep a record of such pick up. For the most part the basin is used to catch dirt.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Longitude: -122.412028312683

Potential Contamin of Concern:

METALS
VOLATILE ORGANICS (8260B VOCS)

Site History:

The Site is composed of two parcels, both owned by UPRR: a 2.7-acre parcel leased to the OGP (OGP Leasehold) and a 0.27-acre parcel that is currently in use by UPRR (Southern Parcel). The OGP Leasehold includes the eastern portion of the Olympian Service Station at 35 S. Linden Avenue, and runs south along the western side of the adjacent railroad tracks. The Southern Parcel is located to the south of the OGP Leasehold and to the east of the SSFSC site located at 69 S. Linden Avenue. Current uses of the Site include vehicle and motorized equipment storage in the Southern Parcel; and vehicle storage, fuel storage and dispensing, and auto repair in the OGP Leasehold. The Site vicinity is comprised of industrial/commercial usage, with no residential areas nearby. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

The northern parcel of the Site (i.e., the OGP Leasehold) has been leased by OGP since 1959. The OGP Leasehold has been used for open storage of furniture, surplus equipment, boats, parking and fixing of vintage automobiles; welding shop operations; fleet auto body maintenance; and, commercial truck parking. The OGP Leasehold also contains six diesel USTs, which are part of the Olympian Service Station located at 35 S. Linden Avenue. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

The Southern Parcel of the Site was paved in 1995 by UPRR and has since been leased for vehicle storage by Bob Jr's Trucking located at 39 South Linden Avenue. From 1982 to 1995, this area was a below-grade grassy vacant lot, separated from the SSFSC site by a retaining wall. Prior to that, from 1927 to 1982, two railroad spurs ran through this area. The spurs were used for material deliveries to a variety of businesses located between 69 and 35 S. Linden Avenue properties. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

The data collected to date indicates that there is a CVOC source at the Site: in the vicinity of boring SB-10 on the OGP Leasehold. The historical Site activities within the OGP Leasehold are suspected to be the source of CVOCs. The release mechanism for this source is suspected to be historic surface spills and/or subsurface leaks. Elevated, but lower, concentrations of CVOCs were detected in off-site vadose zone soil at the OGP property, in the vicinity of boring SB-27. It is currently unknown if a separate source exists at the OGP property, or if the elevated CVOC concentrations at the OGP property are from the source within the OGP Leasehold. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

Elevated concentrations of metals, primarily arsenic and lead, are present in shallow soil (0 to 10 feet bgs) at sporadic locations within the Site. Given their distribution, it appears that the source of metals in shallow soils could either be the Site-wide historical operations and/or placement of imported fill potentially impacted with metals. There is also a possibility that the operations associated with the historical business named Atlas Lead Company, which was located within the boundaries of the OGP Property (57 S. Linden Avenue), may be the source of metals. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

Petroleum hydrocarbons (including TPH-G/D/MO, BTEX, MTBE, and NAP) are present in soil and groundwater beneath the Site. The historical Site activities within the OGP Leasehold (Eastern USTs) could be the source of petroleum hydrocarbons. Much of the petroleum contamination in soil was removed in 2009 and during UST and AST removal activities. (CDM, Site Investigation and Conceptual Site Model Report, 2011) JP 09/07/2018.

A Draft Removal Action Workplan (RAW) was prepared for cleanup of the site and was released for a public review and comment during the period from November 15, 2019 through December 20, 2019. The RAW proposed enhanced in-situ bioremediation to breakdown contaminants in the groundwater, and proposed soil capping to mitigate potential exposure to lead and arsenic in soil. Subsequent to the public comment period, a Final RAW was drafted and was approved by DTSC on January 24, 2020.

A Remedial Design Implementation Plan (RDIP) was prepared and submitted to DTSC on 1/21/2022 to describe the design of the soil cap and the in-situ bioremediation system. The RDIP is currently under review.

In-situ bioremediation continues, with semi-annual groundwater monitoring conducted to confirm the continued effectiveness of the treatment system. An Operation & Maintenance Plan (O&M Plan) is currently under development to present the plan for continued O&M of the bioremediation system and the soil cap.

Potential Contamin of Concern:

METALS
VOLATILE ORGANICS (8260B VOCS)

Site History:

The Site is composed of two parcels, both owned by UPRR: a 2.7-acre parcel leased to the OGP (OGP Leasehold) and a 0.27-acre parcel that is currently in use by UPRR (Southern Parcel). The OGP Leasehold includes the eastern portion of the Olympian Service Station at 35 S. Linden Avenue, and runs south along the western side of the adjacent railroad tracks. The Southern Parcel is located to the south of the OGP Leasehold and to the east of the SSFSC site located at 69 S. Linden Avenue. Current uses of the Site include vehicle and motorized equipment storage in the Southern Parcel; and vehicle storage, fuel storage and dispensing, and auto repair in the OGP Leasehold. The Site vicinity is comprised of industrial/commercial usage, with no residential areas nearby. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

The northern parcel of the Site (i.e., the OGP Leasehold) has been leased by OGP since 1959. The OGP Leasehold has been used for open storage of furniture, surplus equipment, boats, parking and fixing of vintage automobiles; welding shop operations; fleet auto body maintenance; and, commercial truck parking. The OGP Leasehold also contains six diesel USTs, which are part of the Olympian Service Station located at 35 S. Linden Avenue. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

The Southern Parcel of the Site was paved in 1995 by UPRR and has since been leased for vehicle storage by Bob Jr's Trucking located at 39 South Linden Avenue. From 1982 to 1995, this area was a below-grade grassy vacant lot, separated from the SSFSC site by a retaining wall. Prior to that, from 1927 to 1982, two railroad spurs ran through this area. The spurs were used for material deliveries to a variety of businesses located between 69 and 35 S. Linden Avenue properties. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

The data collected to date indicates that there is a CVOC source at the Site: in the vicinity of boring SB-10 on the OGP Leasehold. The historical Site activities within the OGP Leasehold are suspected to be the source of CVOCs. The release mechanism for this source is suspected to be historic

surface spills and/or subsurface leaks. Elevated, but lower, concentrations of CVOCs were detected in off-site vadose zone soil at the OGP property, in the vicinity of boring SB-27. It is currently unknown if a separate source exists at the OGP property, or if the elevated CVOC concentrations at the OGP property are from the source within the OGP Leasehold. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

Elevated concentrations of metals, primarily arsenic and lead, are present in shallow soil (0 to 10 feet bgs) at sporadic locations within the Site. Given their distribution, it appears that the source of metals in shallow soils could either be the Site-wide historical operations and/or placement of imported fill potentially impacted with metals. There is also a possibility that the operations associated with the historical business named Atlas Lead Company, which was located within the boundaries of the OGP Property (57 S. Linden Avenue), may be the source of metals. (CDM, Site Investigation and Conceptual Site Model Report, 2011)

Petroleum hydrocarbons (including TPH-G/D/MO, BTEX, MTBE, and NAP) are present in soil and groundwater beneath the Site. The historical Site activities within the OGP Leasehold (Eastern USTs) could be the source of petroleum hydrocarbons. Much of the petroleum contamination in soil was removed in 2009 and during UST and AST removal activities. (CDM, Site Investigation and Conceptual Site Model Report, 2011) JP 09/07/2018.

A Draft Removal Action Workplan (RAW) was prepared for cleanup of the site and was released for a public review and comment during the period from November 15, 2019 through December 20, 2019. The RAW proposed enhanced in-situ bioremediation to breakdown contaminants in the groundwater, and proposed soil capping to mitigate potential exposure to lead and arsenic in soil. Subsequent to the public comment period, a Final RAW was drafted and was approved by DTSC on January 24, 2020.

A Remedial Design Implementation Plan (RDIP) was prepared and submitted to DTSC on 1/21/2022 to describe the design of the soil cap and the in-situ bioremediation system. The RDIP is currently under review.

In-situ bioremediation continues, with semi-annual groundwater monitoring conducted to confirm the continued effectiveness of the treatment system. An Operation & Maintenance Plan (O&M Plan) is currently under development to present the plan for continued O&M of the bioremediation system and the soil cap.

Site History:	

Refer to historical reports under LOP Case #550004 for work related to the waste oil release. In brief, waste oil UST was replaced by Unocal in 1987, sheen was noted on adjacent MW-2 during 1987, up to 3.28 feet of NAPL was noted in MW-2 during the early 1990s (some of which was likely poured into the well by station personnel), and ConocoPhillips removed the waste oil UST and performed some remedial excavation in 2000.

GeoTracker Search - Cleanup Action Report (as of October 16, 2023)

Action Type:	EXCAVATION
Begin Date:	12/16/2013
End Date:	3/12/2014
Phase:	Soil, Water
Contaminant Mass Removed:	
Description:	Removed a total of approximately 1,093 tons of soil and concrete, and approximately 6,265 gallons of groundwater

surrounding the former waste oil UST

Action Type: FREE PRODUCT REMOVAL
Begin Date: 7/6/2012
End Date: 9/7/2012
Phase: Liquid Waste, Water
Contaminant Mass Removed: 0 Gallons
Description: Removed 17 ounces of NAPL from MW-2R

Action Type: EXCAVATION
Begin Date: 3/13/2000
End Date: 3/13/2000
Phase: Soil, Water
Contaminant Mass Removed:
Description: Excavated 110 tons of soil surrounding the w.o. UST cavity (14 x 14 x 10 feet deep) and removed gallons of groundwater from the excavation

Action Type: FREE PRODUCT REMOVAL
Begin Date: 5/6/1993
End Date: 9/29/1993
Phase: Liquid Waste
Contaminant Mass Removed:
Description: Removed a total of 29 gallons of an oil/water mixture from the cathodic protection well near the waste oil UST. The work was performed on 5/6/93, 8/9/93 and 9/10/93. It appeared waste oil was improperly disposed into this well.

Action Type: FREE PRODUCT REMOVAL
Begin Date: 1/8/1992
End Date: 5/12/1999
Phase: Liquid Waste
Contaminant Mass Removed: 4 Gallons
Description: Removed a total of approximately 71 gallons of an oil/water mixture from MW-2 (35 gallons) and MW-8 (36 gallons) on roughtly a quarter frequency over this period. These actions appear to have collected approximately 3 to 8 gallons of NAPL from MW-2 and up to 1 gallon of NAPL from MW-8.

Action Type: FREE PRODUCT REMOVAL
Begin Date: 8/30/1990
End Date: 9/20/1990
Phase: Liquid Waste
Contaminant Mass Removed:
Description: Removed approximately 4 gallons of oil or an oil/water mizture from MW-2

4Q12 Groundwater Monitoring

Action Type: Other Regulatory Actions
Action: Technical Correspondence / Assistance / Other - #20130131
Action Date: 1/31/2013
Received Issue Date: 1/31/2013
Doc Link: https://geotracker.waterboards.ca.gov/view_documents?global_id=T10000002842&enforcement_id=6148511&temptable=ENFORCEMENT
Title Description Comments:

LOP staff email responding to consultant's 1/31/13 email regarding upload of 4Q12 monitoring report. LOP directed consultant to pull-down report from GeoTracker and make all applicable corrections listed on Page 3 of LOP 1/29/13 letter, then re-upload.

Action Type: Other Regulatory Actions
Action: Staff Letter - #20130129
Action Date: 1/29/2013
Received Issue Date: 1/29/2013
Doc Link: https://geotracker.waterboards.ca.gov/view_documents?global_id=T10000002842&enforcement_id=6148229&temptable=ENFORCEMENT
Title Description Comments:

LOP staff comments on 9/21/12 workplan and 10/30/12 groundwater monitoring report. GPP staff did not consider the workplan justified. LOP directed RP to immediately upload a revised workplan justifying soil borings or proposing to excavate soil outward from previous locations identified to contain motor oil NAPL. LOP reduced groundwater sampling frequency to annual and the NAPL gauging frequency to quarterly. Reminded RP to upload NAPL gauging GeoWell files and ensure future monitoring reports contain complete and accurate tables.

Action Type: Response Requested - Workplans
Action: Corrective Action Plan / Remedial Action Plan - Regulator Responded
Action Date: 11/30/2012
Received Issue Date: 9/21/2012
Doc Link:
Title Description Comments:

Workplan to remove NAPL to the extent practicable - Workplan was for soil borings rather than required remediation. LOP staff did not consider the work justified and cannot recommend the UST Cleanup Fund reimburse the costs to implement the workplan.

Doc Link: https://geotracker.waterboards.ca.gov/view_documents?global_id=T10000002842&enforcement_id=6130914&temptable=ENFORCEMENT

Title Description Comments:

LOP staff issue Notice of Violation for RP's failure to complete well re-installation task by the 3/14/12 deadline and for continuing to report incorrect/incomplete data after LOP staff identified the errors and omisions in two previous letters

Action Type: Other Regulatory Actions
Action: Staff Letter - #20120723
Action Date: 7/23/2012
Received Issue Date: 7/23/2012
Doc Link: https://geotracker.waterboards.ca.gov/view_documents?global_id=T10000002842&enforcement_id=6130861&temptable=ENFORCEMENT
Title Description Comments:

LOP staff comments on 5/30/12 well replacement report. LOP directed RP to quarterly gauge and sample MW-2R and excavation extraction wells CC-1 and CC-2 and to analyze groundater sample containing greatest TPH-d and TPH-mo for SVOCs. LOP also required a workplan to remove NAPL to the extent practicable.

Action Type: Other Regulatory Actions
Action: Technical Correspondence / Assistance / Other - #20120710
Action Date: 7/10/2012
Received Issue Date: 7/10/2012
Doc Link: https://geotracker.waterboards.ca.gov/view_documents?global_id=T10000002842&enforcement_id=6129138&temptable=ENFORCEMENT
Title Description Comments:

LOP staff email responding to consultant's 7/9/12 email regarding the presence of 0.44 foot of NAPL in MW-2R on 6/27/12 gauging event and consiltant's request to commence NAPL bailing. LOP staff approved NAPL bailing, but considered it of little value because it is not effective at removing NAPL from the surrounding formation.

GeoTracker Search - Cleanup Action Report (as of October 16, 2023)

Action Type: PUMP & TREAT (P&T) GROUNDWATER
Begin Date: 3/13/2000
End Date: 3/16/2000
Phase: Water
Contaminant Mass Removed:
Description: Pumped approximately 7,500 gallons of groundwater from the fuel UST cavity for manway construction

Action Type: EXCAVATION
Begin Date: 8/3/1987
End Date: 8/4/1987
Phase: Soil
Contaminant Mass Removed:
Description: Excavated an unreported volume of soil from the fuel UST cavity to a depth of 12 fbg

Action Type: PUMP & TREAT (P&T) GROUNDWATER
Begin Date: 8/3/1987
End Date: 8/3/1987
Phase: Water
Contaminant Mass Removed:
Description: Pumped an unreporteed volume of water from the fuel UST cavity. Sheen/NAPL reported on the water.

Title Description Comments:

LOP comments on 6/16/11 assessment report. LOP indicated it will prepare a case closure summary for State review for Case #550004 when required files are uploaded to GeoTracker. LOP indicated why it could not support closure of associated Case #550206 and required RP to: 1) additionally gauge MW-2 during the 3rd quarter; 2) re-perform the waste oil assessment portion of the work in accordance with the approved 7/2/09 workplan; 3) identify the nearest surface water body receiving the storm drain effluent; and 4) upload the investigation GeoTracker files from Case #550004 to associated Case #550206.

Title Description Comments:

LOP comments on 1/14/11 letter. LOP indicated it will direct First National Bank (FNB) to complete a reasonable access agreement with Antea Group by 4/30/11 and will name FNB as an RP if Antea can demonstrate reasonable attempts were made to obtain this access. LOP extended the deadline for completing the investigation on the bank's property to 6/21/11 because additional access negotiations with the bank are necessary. LOP indicated it will open a new case (Case #550206) for the waste oil contamination, but expected the previously approved work for the waste oil contamination to be completed by 6/21/11.

Returned to compliance on 04/17/2014.

Violation Description:

Failure to submit statement of UST compliance and/or Designated Operator current certification.

Violations

Violation Date: 03/23/2018 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2636(f)(5) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(5)
Violation Notes:

Returned to compliance on 03/23/2018. UDC bravo boxes failed on number 1, 3, and 4. Float replaced on number 4 and eventually passed. floats 1 and 3 were adjusted and 3 passed however number 1 was adjusted 4 times and failed 4 times. This may need to be replaced with a new stand alone sensor if it cannot pass test regularly. San Mateo County may schedule a visit during DO inspection and if the float and chain fails it will need to be replaced.

Violation Description:

"Failure to meet one or more of the following monitoring requirements in lieu of the requirement to be tightness tested annually: The monitoring system maintains all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected. The monitoring system shuts down the pump or stops flow when a leak is detected in the under dispenser containment (UDC)."

Violations

Violations

Violation Date: 03/20/2014 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: 19 CCR 4 2729.5 - California Code of Regulations, Title 19, Chapter 4, Section(s) 2729.5
Violation Notes:

Returned to compliance on 04/17/2014.

Violation Description:

Failure to submit inventory reports (Activities, Owner/Operator, Hazardous Materials Descriptions and Map pages, if required. Documentation must be resubmitted (for facilities which exceed EPCRA thresholds) or re-certified (for facilities which do not exceed EPCRA thresholds) by March 1.

Violations

Violation Date: 03/23/2018 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2641(h) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(h)
Violation Notes:

Returned to compliance on 10/18/2018. Add diesel tank and VPH components to the tank pages and monitoring plan.

Violation Description:

Failure to have an approved UST Monitoring Plan.

Violations

Violation Date: 03/01/2022 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2641(h) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2641(h)
Violation Notes:

Returned to compliance on 12/05/2022. Vent piping transition sump sensor not included in the monitoring plan. Sump is 208, Secondary brine filled sump has a 420 sensor. Diesel tank has DW UDC for dispenser 1/2. Leak detector is electronic, not mechanical, annular sensor is 303. UDC is monitored with 208 sensor, not float and chain. Tank has a containment sump. Annular sensor for premium tank is 420, same with regular. Update monitoring plan on CERS and keep a current copy on site within the comply by date.

Violation Description:

Failure to have an approved UST Monitoring Plan.

Violations

Violation Date: 03/20/2014 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 04/17/2014.

Violation Description:

Failure to obtain and/or maintain an Active EPA ID.

Violations

Violation Date: 06/25/2019 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2637(f) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2637(f)
Violation Notes:

Returned to compliance on 08/27/2019. NOTE: SB 989 secondary containment according to the DO report from january, done on 1/17/19. SMCEH does not have this record on file. Please provide a copy of the SB 989 records for this site.

Violation Description:

Failure to submit a copy of the secondary containment test results on the "Secondary Containment Testing report Form" to the UPA within 30 days after the test.

Violations

Violation Date: 03/23/2018 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Notes:

Returned to compliance on 10/18/2018. Update for diesel fuel and submit annual certification.

Violation Description:

Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violations

Violation Date: 03/20/2014 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.7 25286(a) - California Health and Safety Code, Chapter 6.7, Section(s) 25286(a)
Violation Notes:

Returned to compliance on 04/17/2014.

Violation Description:

Failure to prepare, maintain, and submit accurate CUPA UST Operating Permit Application for Facility information and/or Tank information.

Violations

Violation Date: 03/16/2022 ***Violation Source:*** CERS
Violation Program: HMRRP ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)
Violation Notes:

Returned to compliance on 12/05/2022. Observation: It appears that the map was photocopied and re uploaded with some changes on CERS. Unfortunately the new photocopy is illegible to the point on ineffectiveness. Corrective action: Upload a new map to CERs thats legible by the comply by date. Ensure to capture the propane and CO2 tank (items that were hand written in)

Violation Description:

Failure to complete and electronically submit a site map with all required content.

Violations

Violation Date: 03/20/2014 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2666(c) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2666(c)
Violation Notes:

Returned to compliance on 04/17/2014.

Violation Description:

Failure of line leak detector to detect a leak and/or failure of audible and visual alarm.

Violations

Violation Date: 03/01/2022 ***Violation Source:*** CERS
Violation Program: UST ***Violation Division:*** San Mateo County Environmental Health
Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Notes:

Returned to compliance on 12/05/2022. For the diesel tank, overfill alarm for 8/13/21 and gross line failure/PLLD shutdown on 7/30/21, 6/18/21 and 4/22/21 were not addressed in the DO reports. Provide a reason for the causes of the alarms and submit documentation to the inspector within the comply by date.

Violation Description:

For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements:
Be performed by an ICC certified DO.
Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy.
Inspect for the presence of liquid/debris in spill containers.
Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly.
Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit.
Check that all testing and maintenance has been completed and documented.
Verify that all facility employees have been trained in accordance with 23 CCR 2715(c).
For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Eval Notes:	

This is a follow up inspection to the AMC on 3/26/19. Inspector was not present for this test, however AMC was completed with passing results and no issues were observed. The system is a hybrid system, with diesel tank and dispenser monitored via VPH leak detection systems, and the gasoline tanks are double walled steel tanks pre, 2004. All sensors passed, LLDs were tested for all tanks, spill buckets passed. Onsite to review required paperwork including DO inspections. overfill testing completed on 1/17/19 and all alarms on this date were for overfill testing. L6 UDC alarm for low brine on 2/6 observed.; Note: data in [EVAL Notes] field for some records is truncated from the source.

Violations

Violation Date: 10/04/2021
Violation Source: CERS
Violation Program: HMRRP
Violation Division: San Mateo County Environmental Health
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Notes:

Returned to compliance on 06/02/2022. OBSERVATION: No recorded training was available on site through Celesting indicated that an LMS was in use for training. REQUIRED ACTION: Submit the completed record showing all employees have been trained on the HMBP by the comply by date.

Violation Description:

Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violations

Violation Date: 10/04/2021
Violation Source: CERS
Violation Program: HW
Violation Division: San Mateo County Environmental Health
Citation: 22 CCR 15 66265.195(c) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.195(c)
Violation Notes:

Returned to compliance on 07/25/2022.

Violation Description:

Failure to conduct and document inspections of hazardous waste tank systems each operating day and retain records of those inspections at the facility.

Violations

Violation Date: 10/04/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.192(h) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.192(h)
Violation Notes:

OBSERVATION: No tank assessment was able to be located during the inspection. REQUIRED ACTION: Complete tank assessment and submit a copy to Env. Health by the comply by date.

Violation Description:

Failure of generator to obtain assessment or reassessment every five (5) years or the remaining service life of the tank system, as stated in the engineer's assessment, whichever is less. This assessment applies to onground or aboveground tank systems containing only non-RCRA hazardous wastes generated onsite, or for a small quantity generator onground or aboveground tank systems containing RCRA hazardous wastes generated onsite.

Violations

Violation Date: 10/07/2021 ***Violation Source:*** CERS

Violation Date: 12/15/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 04/07/2023. OBSERVATION: Both 550 gallon used oil tanks were not labeled with the words "hazardous waste". They are located in the waste tank and drum storage room or main shop area. Standard hazardous waste labels were located near the tanks, but not on them. REQUIRED ACTION: Provide a label noted above on each tank and submit evidence of correction (a picture) by the comply by date.

Violation Description:

Failure to label stationary hazardous waste tanks as "hazardous waste" and mark with an accumulation start date.

Violation Notes:

Returned to compliance on 10/09/2021. OBSERVATION: No HMPB or tank statement yet submitted. REQUIRED ACTION: Submit the HMBP / tank statement by the comply by date.

Violation Description:

Failure to submit a tank facility statement on or before January 1 annually unless a current Business Plan has been submitted.

Violations

Violation Date: 12/15/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Notes:

Returned to compliance on 04/07/2023. OBSERVATION: The following containers were not labeled with a hazardous waste label. - Used oil filters 55 gallon drum (metal) CORRECTED ON SITE. - Used oil filters 55 gallon drum (paper) CORRECTED ON SITE. - 55 gallon steel drum used oil next to filter crusher. All items were located in the waste tank and drum storage room or main shop area. REQUIRED ACTION: Provide a label on the drum next to the filter crusher and submit evidence of correction (a picture) by the comply by date.

Violation Description:

Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violations

Citation: 22 CCR 15 66265.195(c) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.195(c)
Violation Notes:

Returned to compliance on 04/13/2023. OBSERVATION: Daily inspection log indicates that daily tank inspections were last conducted 11/17/22. REQUIRED ACTION: Immediately re-implement daily inspections and corrective actions. Submit evidence of completion (Dec-Jan inspection record) to Env. Health by the comply by date.

Violation Description:

Failure to conduct and document inspections of hazardous waste tank systems each operating day and retain records of those inspections at the facility.

Violations

Violation Date: 12/15/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16
Violation Notes:

Returned to compliance on 04/18/2023. OBSERVATION: Personnel state training is conducted for all new hires. No record was provided during the inspection. LMS was not accessible by Cesar. REQUIRED ACTION: Submit evidence of completion (a copy of the record for all employees who handle/manage hazardous waste) by the comply by date. Include the training certificate or roster. Include the job title and job description. Include the training plan describing the scope and frequency of training (ex. initially and annually) with this submission.

Violation Description:

Failure to provide employees with hazardous waste training program of class room instructions or on-the-job training within the first six months after the date of their employment or assignment to a facility, or to a new position at a facility and annually thereafter. Training records on current personnel shall be kept until closure of the facility and for former employees the record shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.12
Violation Notes:

Returned to compliance on 01/12/2023. OBSERVATION: EPA ID number is inactive. (Profile: https://hwts.dtsc.ca.gov/facility/CAL000454186). Inactive date 6/30/22. No active EPA ID numbers found for this site. REQUIRED ACTION: Contact DTSC and either/both submit DTSC form 1358 to DTSC and/or complete the verification questionnaire to reactivate the EPA ID number. Submit this immediately to keep the ID number active which allows waste to be picked up from the facility. Submit evidence of correction and completion to Env. Health by the comply by date.

Violation Description:

Failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste.

Violations

Violation Date: 10/04/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.173 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.173
Violation Notes:

Returned to compliance on 06/01/2022. OBSERVATIONS: Several of the hazardous waste oil filters drums were open during the inspection. REQUIRED ACTION: Provide lids for the drums. Keep them closed when not actively filling them. Submit evidence of completion to Env. Health by the comply by date.

Violation Description:

Failure to meet the following container management requirements:
(a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste.
(b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violations

Violation Date: 10/04/2021 ***Violation Source:*** CERS
Violation Program: APSA ***Violation Division:*** San Mateo County Environmental Health
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Notes:

Returned to compliance on 06/02/2022. OBSERVATION: SPCC plan was not available for review during the inspection and current operators are not familiar with a plan from the previous operator. REQUIRED ACTION: Locate the previous plan or recreate the SPCC. Once complete provide a copy to Env. Health or notify Env. Health to return for review. Complete this within 30 days and submit a response to Env. Health.

Violation Description:

Failure to prepare a Spill Prevention, Control, and Countermeasures (SPCC) Plan.

Violations

Violation Date: 12/15/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.194 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.194
Violation Notes:

Returned to compliance on 04/18/2023. OBSERVATION: Overfills into the secondary containment or open top structure around the tank are observed. Tanks appear to be equipped with an inches gage, but no indication of the maximum fill level is available or noted on the tank. One waste tank has an inoperable overfill alarm on top of the tank. Tank is not properly closed at the opening port. REQUIRED ACTION: Install or implement equipment or an adequate procedure to prevent overfills. Submit evidence of correction to Env. Health by the comply by date. Provide documentation if a procedure is implemented. Prior to installing equipment, provide a notification to Env. Health of the equipment intended to be installed, for review. Close open tanks as they were intended to be operated.

Violation Description:

Failure to comply with general tank operating requirements:
(a) Hazardous wastes or treatment reagents shall not be placed in a tank system if they could cause the tank , its ancillary equipment, or the secondary containment system to rupture, leak, corrode, or otherwise fail;.
(b) The owner or operator shall use appropriate controls and practices to prevent spills and overflows from tank or secondary containment systems. These include at a minimum: (1) spill prevention controls (e.g., check valves, dry discount couplings); (2) overfill prevention controls (e.g., level sensing devices, high level alarms, automatic feed cutoff, or bypass to a standby tank); and (3) maintenance of sufficient freeboard in uncovered tanks to prevent overtopping by wave or wind action or by precipitation. Uncovered tanks shall be operated to ensure at least 60 centimeters (2 feet) of freeboard, unless the tank is equipped with a containment structure (e.g., standby tank with a capacity that equals or exceeds the volume of the top 60 centimeters (2 feet) of the tank).

Violations

Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.51 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.51
Violation Notes:

Returned to compliance on 06/01/2022. OBSERVATION: No contingency plan submitted in CERS or available during the inspection. REQUIRED ACTION: Submit the completed plan to Env. Health by the comply by date.

Violation Description:

Failure to prepare and implement a written Contingency Plan to minimize hazards to human health or the environment from fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water.

Violations

Violation Date: 12/15/2022 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.31 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.31
Violation Notes:

Returned to compliance on 04/13/2023. OBSERVATION: The filter crusher containment and an area along the wall next to the used oil filter drum storage area contain free liquid or absorbent and evidence of a spill or leak. REQUIRED ACTION: When spills occur, clean them up immediately. The containment area under the crusher cannot be allowed to fill with oil and should be placed in a proper container if spills occur here, otherwise this are is not meeting standard container requirements. Clean up the areas mentioned above and move spilled wastes in the properly labeled and closed waste container. Submit evidence of correction to Env. Health by the comply by date.

Violation Description:

Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

Violations

Violation Date: 10/04/2021 ***Violation Source:*** CERS
Violation Program: HW ***Violation Division:*** San Mateo County Environmental Health
Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16
Violation Notes:

Returned to compliance on 04/18/2023. OBSERVATION: Facility representative indicated that training is conducted in an LMS, however, it is not currently meeting all of the Title 22 LQG requirements. REQUIRED ACTION: Conduct training with all employees involved in hazardous waste management and submit evidence of completion to Env. Health by the comply by date.

Violation Description:

Failure to provide employees with hazardous waste training program of class room instructions or on-the-job training within the first six months after the date of their employment or assignment to a facility, or to a new position at a facility and annually thereafter. Training records on current personnel shall be kept until closure of the facility and for former employees the record shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Eval Notes:

Visited site to conduct a follow-up inspection for the APSA (SPCC), hazardous waste, and HMBP open violations (dated 10/4/21). Met with Charley Va who provided consent for the inspection. 1. No hazardous waste tank assessment was available on site. On 11/1/22 Celestin Tiffany stated via email that "We've retained a PE firm (biggs and cardosa) for the report. Waiting for them to set a date to inspect in person.-- " REQUIRED ACTION: Please submit the completed PE assessment by Monday 11/14/22. 2. The 10/15/22 signed SPCC plan is on site, but is not yet implemented. - Provide calculations to confirm all petroleum storage containers/tanks have adequate secondary containment. This could be accomplished by the PE performing tank assessments noted above. - Facility again states training is recorded on the Learning Management System (LMS), however, the records were not able to be provided during the inspection. Charley Va called and requested them. He indicated they [Truncated]; Note: data in [EVAL Notes] field for some records is truncated from the source.
