

**Summary of voicemail comments for City Council Regular Meeting
of June 24, 2020.**

The following comments have been submitted via telephone:

Name	Subject	Comment Summary or full comment if brief
Arostel	Public Comments-Item #11	Would like to encourage City to begin defund the police overtime and reallocate the funds to social services that will help the community. It is a critical time in history and need to reexamine what it means to have public safety. Mass incarceration is a problem and how does more policing address poverty. Addressing poverty is the key to reducing crimes and really address the root of the issue.
Dylan Ragozin	Public Comments-Item #11	Currently employed at Genentech, would the City Council to take action and reduce some of the funding for the police department. The funding should be used for programs that help the community.
Aaron Richie	Public Comments-Item #11	Concerned with lack of commitment from the City Council in addressing the problem with institutional racism and police brutality. Our community does not need to increase the police budget and demands to have funds reallocated from police to the community.

BJ Unisa	Public Comments- Item #11	Resident of South San Francisco and member of Change SSF. Would like police funding to be reallocated to improve community benefits and services. Things should not remain the same and we should move forward to better the community. Asking and urging to fund mental health programs and defund the police.
Unknown caller	General Public Comment	Would like funds to be kept for Magnolia Center.
