

OYSTER POINT HARBOR MASTER SPIT PROJECT

DECEMBER 8, 2021

SITE LOCATION

CITY OF
SOUTH SAN FRANCISCO
CALIFORNIA

SITE LOCATION

WHY ARE WE DOING THIS PROJECT

Normal Conditions

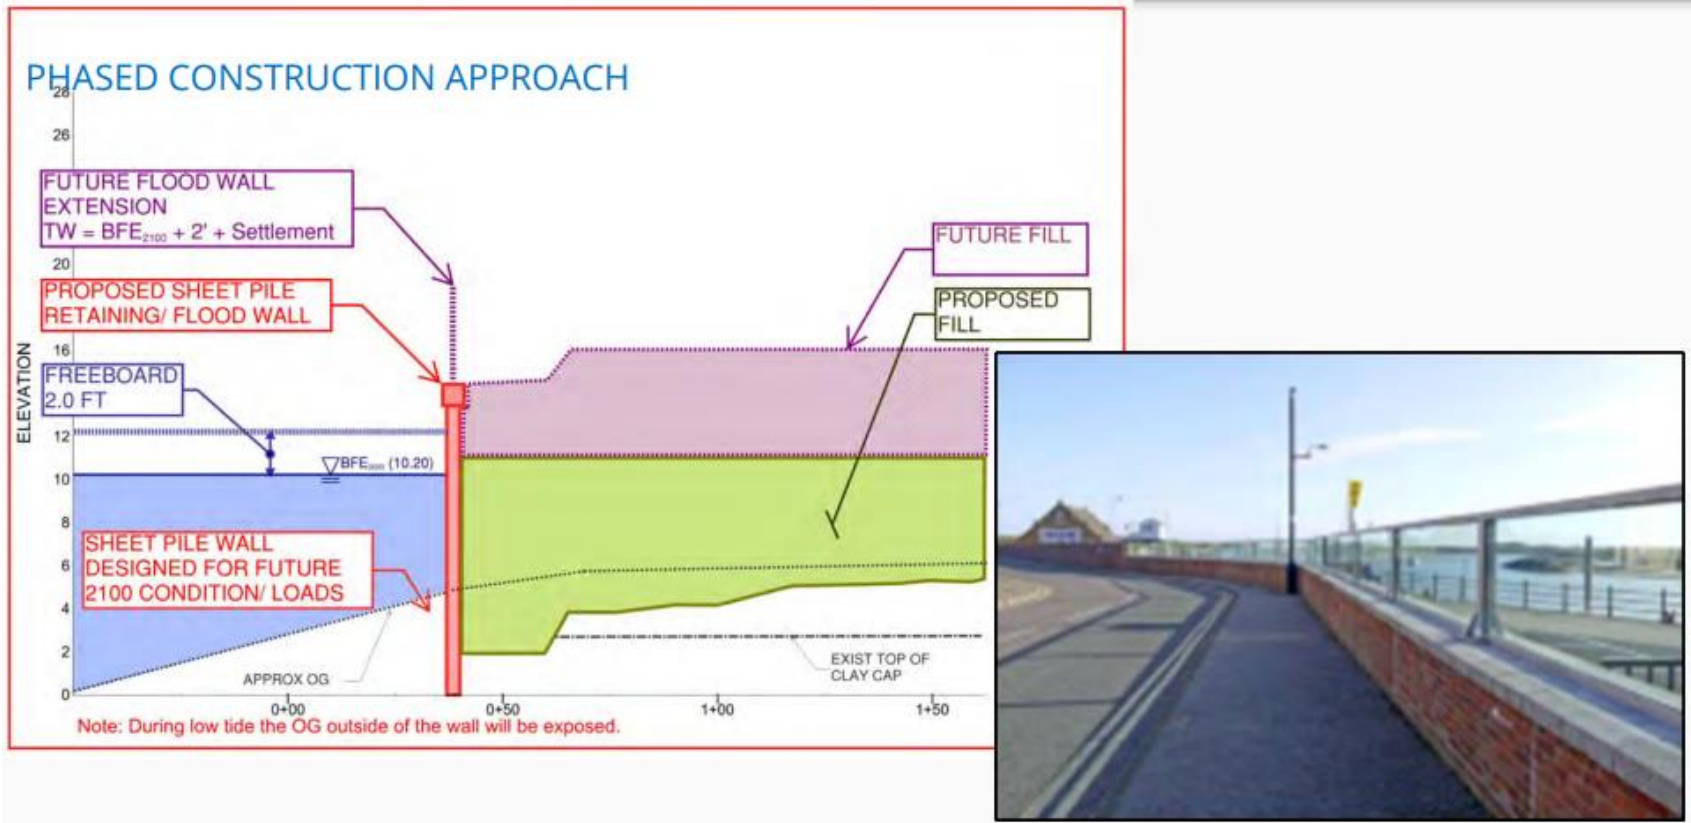

Flooding with High Tides

Flooding is a Public Safety concern and a violation of the RWQCB Waste Discharge Requirements for the Landfill.

PROGRESS OF WORK

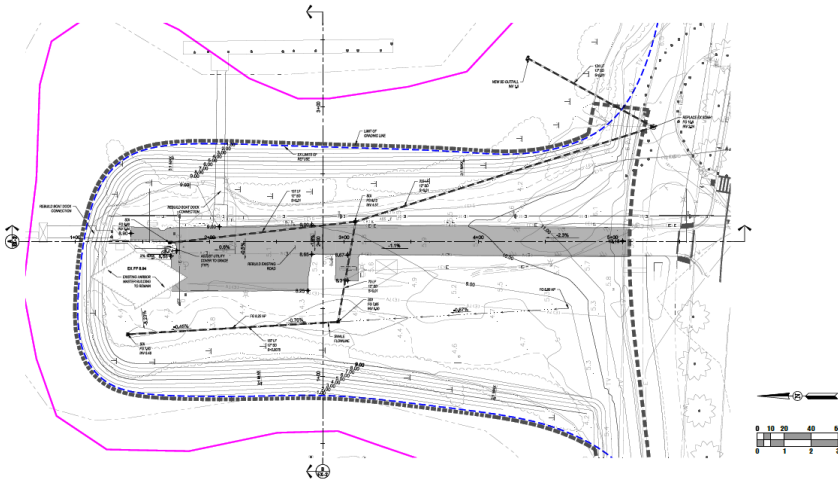

- Design Options include Sheet Pile Retaining walls with total project costs ranging from \$15M to \$34

PROPOSED PHASE 1 MAINTENANCE PROJECT

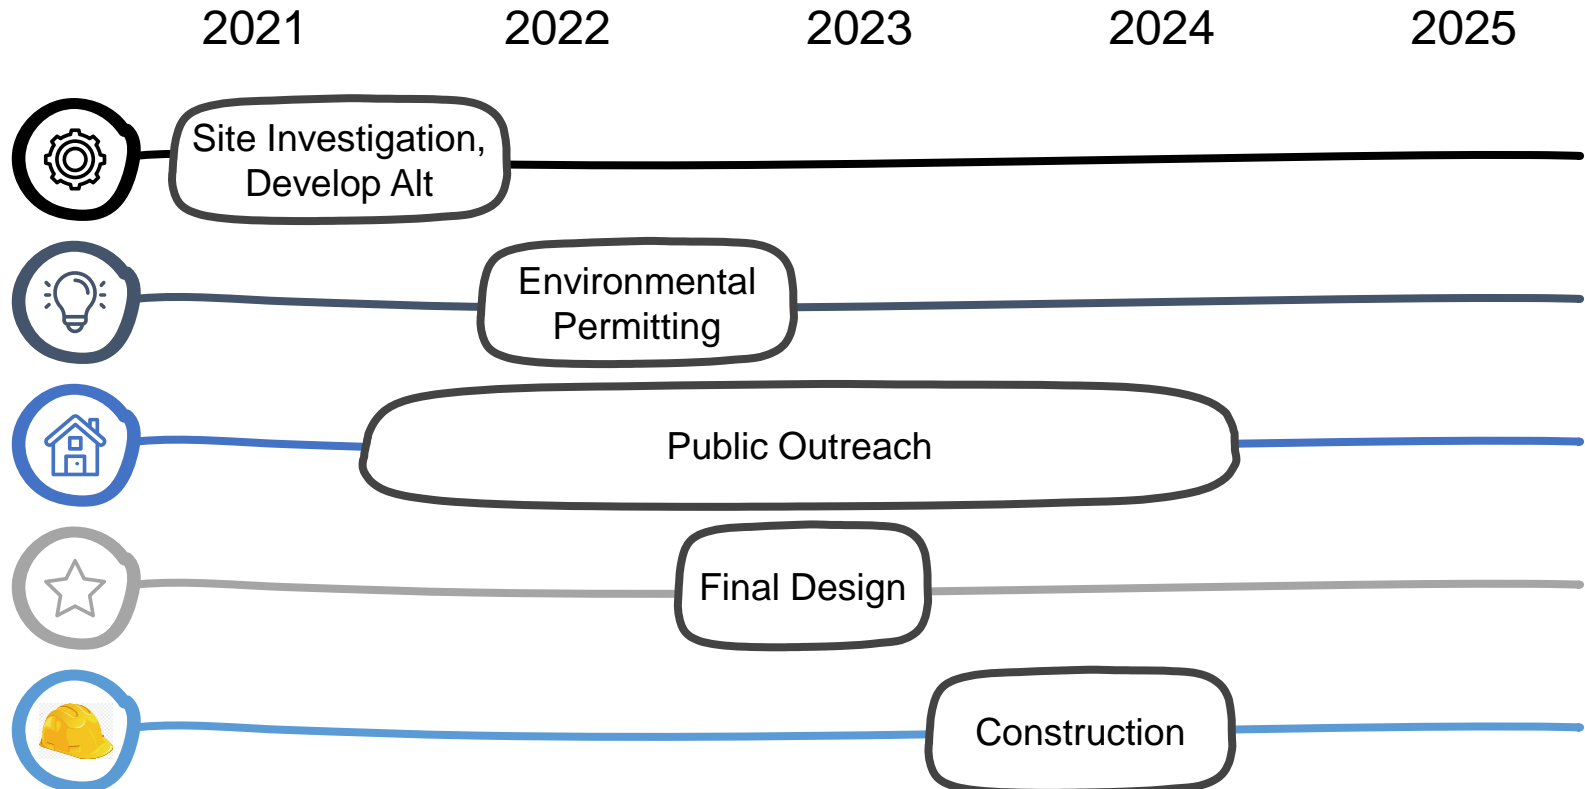

- Raises grades of site to accommodate 100 year design storm
- Saves Harbor Master Building
- Resolves RWQCB violation
- Total Cost estimate of \$4M to \$8M.

Note: Concept Dependent on Approval by BCDC.

PROPOSED GRADE
ELEVATION AS PART OF
MAINTENANCE PROJECT
