Subject: ESC Survey on PUC development

Greetings Madame Mayor, Vice Mayor, Council, City Clerk,

While I realize this information is too late to be officially considered for this evening's Council meeting, specifically item #5, please do take a quick look at the easy to view survey results on this link [HERE](#). Rosa, please do see this because part of our City records, thank you.

You must probably are aware of so many residents believing they are not being heard, therefore ESC was asked (a number of times) to put together a survey allowing residents of South City only, to give voice to their concerns. The questions sent were compiled to produce the 10 question survey.

Thank you for your time in viewing this, and allowing your constituents to feel heard, respected, and represented.

-Kamala
