Dear City Council and Staff,

My name is Suzanne Moore, a retired Family Nurse Practitioner, and I formerly practiced at the South San Francisco Clinic. I have learned first-hand that housing is necessary for life and health - and this is most obvious for those in our community who are disabled. That is why I am in strong support of the affordable housing development at 428 Baden Avenue known as Baden Station.

Baden Station will supply permanent supportive housing with resources from Housing Choices and Golden Gate Regional. Permanent supportive housing is the gold standard for disabled housing - Baden Station will provide safety, stability and the opportunity to live independently. By providing this housing, Council invests in community members who are ready and willing to give back to SSF to the best of their ability.

Please support Baden Station. Invest in your community. Thank you.

PARCA FAMILY SUPPORT SERVICES AND ADVOCACY DEPARTMENT supports Affordable Housing with a preference component for persons who have a developmental Disability at 428 Baden Ave. The City is to be commended for a comprehensive approach for truly affordable housing for residents who are very capable of good being good renters but do need the support of available wrap around services. This opportunity is needed. Please continue your thorough and comprehensive approach to truly affordable Housing in SSF.

Dear Honorable Mayor and City Council Members of the City of South San Francisco,

I write in support of Item 16 on tonight's City Council Meeting Agenda and to urge your approval of the application

for a 100% affordable housing development at 428 Baden Avenue, and especially, its inclusion of a preference for people with I/DD who require on site supportive services from Housing Choices and Golden Gate Regional Center to help them to maintain their housing. Your approval would support this opportunity for independence that is vital to the future of people like my son who has grown up in our supportive community and school district. The opportunity to access future independent living here in South San Francisco ensures he will be able to contribute to the growth, development and inclusivity of the community that has meant so much to his success as a young adult.

Thank you for considering this item and for your understanding, compassion and partnership on this issue. I am proud of our City's consideration of this opportunity.

Yours Very Truly,

Krista Martinelli  
South San Francisco Resident and Mom of 4

Dear City Council -

My name is Alex Laughnan and I am a resident of South San Francisco. I support the proposed development of 36 affordable housing units at 428 Baden Avenue. I strongly believe we need more affordable housing in South City because everyone has a right to housing. We need more housing options for people with disabilities and there is a serious lack of housing - especially affordable housing - in our area, etc). It is close to transit, shopping, and will benefit adults with developmental disabilities who want to live on their own with support.

Thank you for your consideration.

Dear City Council:

My name is Sean Strebel and I am a homeowner in South San Francisco. I support the proposed development of 36 affordable housing units at 428 Baden Avenue. I strongly believe we need more affordable housing in South City. Eighteen of the units in this project will include a preference for people who have developmental disabilities and require coordinated on-site services from the Regional Center to maintain their housing. This project is close to downtown and public transportation, meaning residents will have easy access to community resources and job opportunities. The deeply affordable rents for these apartments would allow them to live in safe, stable and affordable housing. It is among my highest priorities as a citizen of South City to help all residents find and maintain affordable housing. I believe all residents have the right to affordable housing in their own communities, including those with developmental disabilities. Please approve this project to move forward so that those with developmental disabilities have the opportunity to live independently in our community.

Thank you for your consideration.

Please make this project accessible and affordable to special needs adults. The location of this property is ideal for I/DD individuals. It gives them dignity and independence to be able to walk to grand avenue for their shopping. My children have moved away because of affordability. This leaves my daughter with special needs living here in south San Francisco alone. Knowing that there will be available housing for her and her friends is what this city is about.

Dwayne Frey from West Winston Manor. I understand the Council approved \$70,000 for a study to be conducted to look at providing a sound wall on Junipero Serra Blvd for residence behind Longford Drive. I wanted to inquire if this study has been completed and if so, what was the outcome? The noise from traffic on Junipero Serra Highway really affects the quality of life of Longford Drive residence and hopefully a project to construct a Sound Wall will be approved.
