- D. The proposed Development Agreement incorporates the permitted uses, density and intensity of use for the property subject thereto, as reflected in the proposed Project (P18-0081), and Development Agreement (DA19-0002). This finding is based upon all evidence in the Record as a whole, including, but not limited to, the City Council's independent review of the proposed Development Agreement and its determination that the Development Agreement sets forth the Project approvals, development standards, and the documents constituting the Project.
- E. The proposed Development Agreement states the maximum permitted height and size of proposed buildings on the property subject thereto. This finding is based upon all evidence in the Record as a whole, including, but not limited to, the City Council's independent review of the proposed Development Agreement and its determination that the Development Agreement sets forth the documents which state the maximum permitted height and size of sign structures.
- F. The proposed Development Agreement states specific provisions for reservation or dedication of land for public purposes. This finding is based on all evidence in the Record as a whole, including but not limited to the City Council's independent review of the Development Agreement.
